**Sticks and Stones** Melissa Lennig,2019-05-07 Sticks and Stones presents a treasure trove of building and engineering ideas for children to employ in the great outdoors using materials readily available to them to create cabins, tipis, bridges, dams, and more. Many smaller scale projects are included, too, such as making ochre paint with shale, creating a fishing pole from a branch, and carving a marshmallow roasting stick. Opportunities and materials for constructive play exist everywhere in nature. Author Melissa Lennig (of the blog Fireflies and Mud Pies) introduces today's screen-overloaded kids to this world of fun waiting just outside the door. Whether camping or hanging out in the back yard, children will marvel at the wonderful, useful tools and playthings they can create with natural objects. Sticks and Stones details various designs for the ever-popular fort (cabins, tipis, survival shelters, etc.) and also covers structures such as bridges, fences, and dams, while explaining the STEAM principles behind each. In addition to structures, there are other ideas and projects for camping and the backyard, like a fire ring (explaining the types of fires, airflow, and safety), the always useful tripod, a travois, a rock garden, and toy boats. Along the way, there are multi-leveled reading opportunities in the form of quick features on considerations like mindfulness, campfire safety, mini STEAM design challenges, and more. Sticks and Stones was named to the longlist for the 2020 AAAS/Subaru SB&F Prize for Excellence in Science Books in the Hands-On Science Book category. The prize honors outstanding science writing and illustration for children and young adults. This book is an essential resource for every junior outdoor adventurer.

With over 180 illustrations, this book is part personal memoir and sometimes just a randomly fun romp through the sillier bits of this crazy world we all inhabit. **A Writer's Craft** Kendall Dunkelberg,2017-09-16 This introductory creative writing text uses a unique, multi-genre approach to provide students with a broad-based knowledge of their craft, treating them as professional writers. Beginning by discussing elements common to all genres, this book underscores the importance of learning good writing habits before committing to a genre, encouraging writers to look beyond their genre expectations and learn from other forms. The book then devotes one chapter to each of the major literary genres: fiction, poetry, drama and creative nonfiction. These style-specific sections provide depth as they compare the different genres, furnishing students with a comprehensive understanding of creative writing as a discipline and fostering creativity. The discussion concludes with a chapter on digital media and an appendix on literary citizenship and publishing. With exercises at the end of each chapter, a glossary of literary terms, and a list of resources for further study, A Writer's Craft is the ideal companion to an introductory creative writing

class. It has been listed as one of the 'Best Books for Writers' by Poets and Writers magazine.
