Indigenous Peoples [4 volumes] Victoria R. Williams,2020-02-24 The book is an essential resource for those interested in investigating the lives, histories, and futures of indigenous peoples around the world. Perfect for readers looking to learn more about cultural groups around the world, this four-volume work examines approximately 400 indigenous groups globally. The encyclopedia investigates the history, social structure, and culture of peoples from all corners of the world, including their role in the world, their politics, and their customs and traditions. Alphabetically arranged entries focus on groups living in all world regions, some of which are well-known with large populations, and others that are lesser-known with only a handful of surviving members. Each entry includes sections on the group's geography and environment; history and politics; society, culture, and tradition; access to health care and education; and threats to survival. Each entry concludes with See Also cross-references and a list of Further Reading resources to guide readers in their research. Also included in the encyclopedia are Native Voices inset boxes, allowing readers a glimpse into the daily lives of members of these indigenous

groups, as well as an appendix featuring the United Nations Declaration on the Rights of Indigenous Peoples.

Project: Run Away Melody Carlson,2009-08-30 The miraculous power of prayer—to protect, guide, and heal—plays an important role in the sixth adventure of the Girls of 622 Harbor View. Fleeing her abusive ex-husband, Emily’s mother packs up her two children and disappears down a rainy Oregon highway. Emily’s friends are devastated—they haven’t even been on the ski trip yet!—and they’re worried. But what can they do?

Monsterhuman Kjersti A. Skomsvold,2017-09-29 When Kjersti A. Skomsvold was seventeen years old and about to start engineering studies at college, she found herself almost unable to move. Laid out like a relic in a nursing home, she listens to an old woman dying, watches her boyfriend drift away, and makes compendious lists of her worries (that she will have to go speed-dating in a wheelchair, that she will be afraid and in pain for the rest of her life). She also begins to compose a novel on Post-it notes that she sticks on the wall above her bed. *Monsterhuman* is an autofictional tour de force--a funny, sad, astoundingly energetic novel about suffering from chronic fatigue syndrome, the power of writing, and twenty-first-century literary life.

The Three Bodies of Laws Hayden Patrick,2021-04-19 Where there are laws, two philosophical ideologies become apparent, and those are the notions of a mind and heart of the lawgiver and predictability; the peace that comes from consistency of outcome having followed a prescribed formula. The author takes the biological and the natural universe, considering the creation and the evolution models, and puts them under three bodies of laws-natural science, dominion, spirit. Then he takes a Christian world view while framing the nontheistic view as a counter balance. The author examines life under the laws of the natural and supernatural universe. Using simple logic with theological overtones, humor, and the art of storytelling, the author captures the imagination to deliver bite-sized nuggets of appetizing insights into life as it should be under the three laws. Biblical stories are reexamined, and new life is extracted that inspires one to dig deeper and act as the impetus to know more. While the book delves into science and religion, the angle chosen presents a lighter side to what can be heavy, often perplexing topics. These weighty topics are transformed in the book into what can be considered interesting with perspectives into science and religion that are wonderfully palatable. It's a dig and read to the end kind of book and one that you will want to mark and return to time and time again to extract one or more of the many nuggets that are relevant to understanding life under the three laws that govern human existence.

Dostoevsky in the Arts and Beyond Olga Tabachinkova,Liudmila Saraskina,Galima Lukina,Ekaterina Salnikova,2024-08-30 The book is a substantial contribution to international Dostoevsky research, exploring Dostoevsky’s

contemporary relevance from a multicultural and multidisciplinary perspective. It offers some fresh readings of Dostoevsky's texts, presenting new complex studies on the writer and his works in the mirror of several arts of the last three decades. The book is divided into three Parts, featuring researchers from Bulgaria, Great Britain, Russia and Ukraine. Part One deals with conceptual issues, treating Dostoevsky above all as a prophet and philosopher, and thus determines the ideological system of coordinates for the studies presented in the rest of the book. Part Two examines Dostoevsky's legacy through the lenses of literary theory, music, and Illustration art, and Part Three, via world cinema and theatre. The volume has gathered together an array of original and innovative studies from world leading experts in Dostoevsky's creative universe, to make an authoritative input into the field.
