Organic Gardening for Everyone CaliKim,2019-12-24 If you want to grow healthy vegetables at home, but have hesitated because it seems too hard and time consuming, Organic Gardening for Everyone is your perfect hands-on guide—an “if I can do it, you can do it” case study that addresses your concerns and gets you started. Loaded with practical advice and step-by-step guidance, Organic Gardening for Everyone takes a very personal and friendly approach to a subject that can be intimidating. It is a first-class primer on organic vegetable gardening, and an inspirational story about how anyone can balance the rigors of gardening with the demands of a modern, family-oriented lifestyle. In 2012, a California mom decided to start an organic vegetable garden. But she went about it in an unusual way: she crowdsourced it by launching a YouTube channel under the name CaliKim and asking for help. And then she started planting. As questions came up, she turned to her viewers and subscribers and they replied with answers and advice. As she learned, her garden grew successfully—even in the hot, harsh California climate. Her expertise also grew, and now she answers many more questions than she asks and has become a very accomplished home gardener. And CaliKim has a great story to tell: growing healthy organic vegetables for your family is not difficult, even for today’s time-challenged lifestyles. She provides complete step-by-step information on growing the most popular edibles organically, and also gives sound advice on how to take on the challenges of balancing a hectic lifestyle with successful growing—and how to involve the whole family in the process. You'll be rewarded for your effort every time you place a plate of natural, organic vegetables on the family dinner table knowing exactly what they are, what is in them, and where they came from.

Year-Round Indoor Salad Gardening Peter Burke, 2015 The Low-Tech, No-Grow-Lights Approach to Abundant Harvest Year-Round Indoor Salad Gardening offers good news: with nothing more than a cupboard and a windowsill, you can grow all the fresh salad greens you need for the winter months (or throughout the entire year) with no lights, no pumps, and no greenhouse. Longtime gardener Peter Burke was tired of the growing season ending with the first frost, but due to his busy work schedule and family life, didn't have the time or interest in high-input grow lights or greenhouses. Most techniques for growing what are commonly referred to as microgreens left him feeling overwhelmed and uninterested. There had to be a simpler way to grow greens for his family indoors. After some research and diligent experimenting, Burke discovered he was right--there was a way! And it was even easier than he ever could have hoped, and the greens more nutrient packed. He didn't even need a south-facing window, and he already had most of the needed supplies just sitting in his pantry. The result:

healthy, homegrown salad greens at a fraction of the cost of buying them at the market. The secret: start them in the dark. Growing Soil Sprouts--Burke's own descriptive term for sprouted seeds grown in soil as opposed to in jars--employs a method that encourages a long stem without expansive roots, and provides delicious salad greens in just seven to ten days, way earlier than any other method, with much less work. Indeed, of all the ways to grow immature greens, this is the easiest and most productive technique. Forget about grow lights and heat lamps! This book is a revolutionary and inviting guide for both first-time and experienced gardeners in rural or urban environments. All you need is a windowsill or two. In fact, Burke has grown up to six pounds of greens per day using just the windowsills in his kitchen! Year-Round Indoor Salad Gardening offers detailed step-by-step instructions to mastering this method (hint: it's impossible not to succeed, it's so easy!), tools and accessories to have on hand, seeds and greens varieties, soil and compost, trays and planters, shelving, harvest and storage, recipes, scaling up to serve local markets, and much more.

Made to Move Mountains Kristen Welch,2020-03-03 Life is an incredible journey with ups and downs. We soar, struggle, scale and stumble, and often stand at the edge of cliffs, afraid to step into the unknown, unsure of where we will land. But instead of running away, we are called by God to stand firm, muster up what faith we can, and take a step. Because we were made to move mountains. In this inspiring book, Kristen Welch calls you to step out in faith and climb the mountain in front of you--not because you are good enough or adequate or able, but because God makes a way where there is no way. With heartbreaking and hopeful personal stories, Scripture, and questions for contemplation, she draws you out of fear and into a holy confidence, showing you that the mountain in your path was put there on purpose, so that you could exercise--and

grow--your faith.
