Part-Time for All Jennifer Nedelsky, Tom Malleson, 2023-05-26 An innovative view of how everyone doing part-time work and part-time caregiving would promote flourishing families, free time, equality, and the true value of care. The way that Western countries approach work and care for others is fundamentally dysfunctional. The amount of time spent at work places unsustainable stress on families, particularly in the face of rising inequality, while those who perform care are underpaid and their labor undervalued. In *Part-Time for All*, Jennifer Nedelsky and Tom Malleson propose a plan to radically restructure both work and care. As such, they offer a solution to four pressing problems: the inequality of caregivers; family stress from competing demands of work and care; chronic time scarcity; and policymakers who are ignorant about the care that life requires--the care/policy divide. Nedelsky and Malleson argue that no capable adult should do paid work for more than 30 hours per week, so that they can contribute substantial amounts of time to unpaid care for family, friends, or other communities of care. While the authors focus primarily on human-to-human care, they also include care for the earth as a

vital part of this shift. All of the elements of Nedelsky and Malleson's proposal already exist piecemeal in various countries. What is needed is to integrate the key reforms and scale them up. The result is an actionable plan to motivate widespread take-up of part-time work and part-time care. Highlighting how these new norms can create synergies of institutional transformation while fostering a cultural shift in the value of care and work, this care manifesto identifies the deep changes that are needed and lays out a feasible path forward.

Happy Hour Marlowe Granados,2021-09-07 With the verve and bite of Ottessa Moshfegh and the barbed charm of Nancy Mitford, Marlowe Granados's stunning debut brilliantly captures a summer of striving in New York City. Isa Epley, all

of twenty-one years old, is already wise enough to understand that the purpose of life is the pursuit of pleasure. She arrives in New York with her newly blond best friend looking for adventure. They have little money, but that's hardly going to stop them. By day, the girls sell clothes on a market stall, pinching pennies for their Bed-Stuy sublet and bodega lunches. By night, they weave between Brooklyn, the Upper East Side, and the Hamptons among a rotating cast of celebrities, artists, Internet entrepreneurs, stuffy intellectuals, and bad-mannered grifters. Resources run ever tighter and the strain tests their friendship as they try to convert social capital into something more lasting than precarious gigs as au pairs, nightclub hostesses, paid audience members, and aspiring foot fetish models. Through it all, Isa's bold, beguiling voice captures the precise thrill of cultivating a life of glamour and intrigue as she juggles paying her dues with skipping out on the bill. *Happy Hour* is a novel about getting by and having fun in a system that wants you to do neither.

Logical Creative Thinking Methods Min Ding, 2020-04-22 Using a new, systematic framework, this illuminating book turns ideation into a task anybody with sound logic and a determination to learn can do, and do well, by separating the process from the outcome. In a competitive marketplace, all firms must constantly innovate to create sustained shareholder value. The main roadblock in innovation is ideation: the identification of value-creating ideas, often seen as the work of innately creative people. This first-of-its-kind textbook demonstrates that anyone can ideate through specific logical processes that require no creativity when used, but generate valuable and creative outcomes. To help students master and apply these methods, the book is filled with innovation examples across many sectors that can be explained and recreated

using a specific LCT method. The book also includes exercises that enable readers to practice applying each method to solve real life innovation challenges. Upper-level undergraduate and postgraduate students of innovation, creativity, and new product development will appreciate the demystification of ideation into a problem that can be solved by applying a series of rigorous, defined methods that can be followed without ambiguity.

The Alcalde , 1991-07 As the magazine of the Texas Exes, The Alcalde has united alumni and friends of The University of Texas at Austin for nearly 100 years. The Alcalde serves as an intellectual crossroads where UT's luminaries - artists, engineers, executives, musicians, attorneys, journalists, lawmakers, and professors among them - meet bimonthly to exchange ideas. The magazine's unique name is Spanish for mayor or chief magistrate; the nickname of the governor who signed UT into existence was The Old Alcalde.

Georgia Tim Burford, 2024-08-14 This new seventh edition of Bradt's Georgia remains the only dedicated guide to this fascinating, budget-friendly Caucasian country, where tourism continues to grow and domestic travel is increasingly straightforward. Thoroughly updated to reflect recent developments, this guidebook includes revised and new listings for hotels, homestays, restaurants, what to see and do, and how to get around by public transport. At the intersection of Europe and Asia, nestled between Russia, Armenia, Azerbaijan and Turkey, Georgia is the hub of the Caucasus - a country known for its mountains and Black Sea coast, and its wonderful food, wine and all-round hospitality. With Bradt's Georgia, you can experience the new alongside the old in a country where most cultural and historical sights are free of charge or very cheap. The capital, Tbilisi, boasts a charming, cobbled old town, the centuries-old tiled baths of Orbeliani and numerous cultural

highlights, but has also seen major developments recently, including conspicuous new projects such as the Panorama complex. Already famous for the cave monastery of Vardzia and the ancient wine-growing region of Kakheti, Georgia's more remote areas are becoming more accessible. Networks of rural guesthouses and hiking trails (including the increasingly popular Transcaucasian Trail, a volunteer-led project to create two long-distance hiking routes) are being developed alongside a push towards more sustainable and responsible tourism. On the Black Sea, the city of Batumi has developed into a glitzy playground for regional tourism. Appropriately, given that the country is considered to be the birthplace of wine, the Georgian wine industry features prominently, with particular emphasis on the UNESCO-listed natural qvevri wines (made in clay amphorae set in the ground). Also covered are: skiing at Gudauri, Bakuriani and Mestia; cycling; the World Heritage sites of Mtskheta, Svaneti and Gelati; Georgian fusion cuisine (now celebrated in Tbilisi's stylish new restaurants); 5th-century churches and other Christian architecture; cave cities; and Georgian polyphonic singing. Bradt's unique guide to Georgia is the ideal companion for travellers, from serious hikers to wine buffs, high-end culture lovers to winter-sports enthusiasts, and city-break aficionados to backpackers of all ages.

Link rejoices in the slow-cooked pork barbecue of Memphis, fresh seafood all along the Gulf coast, peas and shell beans from the farmlands in Mississippi and Alabama, Kentucky single barrel bourbon, and other regional standouts in 110 recipes and 100 color photographs. Along the way, he introduces all sorts of characters and places, including pitmaster Nick Pihakis of Jim 'N Nick's BBQ, Louisiana goat farmer Bill Ryal, beloved

Southern writer Julia Reed, a true Tupelo honey apiary in Florida, and a Texas lamb ranch with a llama named Fritz. Join Link Down South, where tall tales are told, drinks are slung back, great food is made to be shared, and too many desserts, it turns out, is just the right amount.

Development, Sexual Rights and Global Governance Amy Lind, 2010-01-04 This book addresses how sexual practices and identities are imagined and regulated through development discourses and within institutions of global governance. The underlying premise of this volume is that the global development industry plays a central role in constructing people's sexual lives, access to citizenship, and struggles for livelihood. Despite the industry's persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti-poverty programs, this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks. The work fills an important gap in understanding how people's intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship. By placing heteronormativity at the center of analysis, this anthology thus provides a much-needed discussion about the development industry's role in pathologizing sexual deviance yet also, more recently, in helping make visible a sexual rights agenda. Providing insights valuable to a range of disciplines, this book will be of particular interest to students and scholars of Development Studies, Gender Studies, and International Relations. It will also be highly relevant to development practitioners and international human rights advocates. The Open Access version of this book, available at <http://www.taylorfrancis.com/books/e/9780203868348>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.
