**From the Front Porch to the Front Page** William D. Harpine, 2005 The last presidential campaign of the nineteenth century was remarkable in a number of ways. -It marked the beginning of the use of the news media in a modern manner. -It saw the Democratic Party shift toward the more liberal position it occupies today. -It established much of what we now consider the Republican coalition: Northeastern, conservative, pro-business. It was also notable for the rhetorical differences of its two candidates. In what is often thought of as a single-issue campaign, William Jennings Bryan delivered his famous Cross of Gold speech but lost the election. Meanwhile, William McKinley addressed a range of topics in more than three hundred speeches--without ever leaving his front porch. The campaign of 1896 gave the public one of the most dramatic and interesting battles of political oratory in American history, even though, ironically, its issues faded quickly into insignificance after the election. In *From the Front Porch to the Front Page*, author William D. Harpine traces the campaign month-by-month to show the development of Bryan's rhetoric and the stability of McKinley's. He contrasts the divisive oratory Bryan employed to whip up fervor (perhaps explaining the 80 percent turnout in the election) with the lower-keyed unifying strategy McKinley adopted and with McKinley's astute privileging of rhetorical sifting over actual rhetoric. Beyond adding depth and detail to the scholarly understanding of the 1896 presidential campaign itself (and especially the Cross of Gold speech), this book casts light on the importance of historical perspective in understanding rhetorical efforts in politics.

**The Path to Victory** Douglas Porch, 2004 The Mediterranean theater in World War II has long been overlooked by historians who believe it was little more than a string of small-scale battles--sideshowes that were of minor importance in a war whose outcome was decided in the clashes of mammoth tank armies in northern Europe. But in this ground-breaking

new book, one of our finest military historians argues that the Mediterranean was World War II's pivotal theater. Douglas Porch examines the Mediterranean as an integrated arena, one in which events in Syria and Suez influenced the survival of Gibraltar. Without a Mediterranean alternative, the Western Allies would probably have committed to a premature cross-Channel invasion in 1943 that might well have cost them the war. Brilliantly argued, with vivid portraits of Churchill, Montgomery, FDR, Rommel, and Mussolini, this original, accessible, and compelling account of a little-known theater emphasizes the importance of the Mediterranean in the ultimate Allied victory in Europe in World War II.

*Shifting Through Neutral* Bridgett M. Davis, 2009-10-13 Not yet a woman yet more than a little girl, Rae Dodson is caught up in her family's drama. Her hip older sister, Kimmie, whom her mother favors, has moved from New Orleans to join them in Detroit, a city that moves as if in synch with the Stevie Wonder tunes that play giddily from new automobiles fresh off the factory lots. Her bid whist-playing mother is as nervous as ever, and her father's chronic migraines seem less responsive to medication. And while they all occupy the same house, they might as well be living separate lives. When the tenuous peace finally breaks, Rae must decide where her loyalties lie: should she choose her emotionally distant mother, whom she adores, or her affectionate but needy father? Rae does choose and launches into a rich, loving relationship with her dad, for whom she shows a fierce, undying loyalty. But as she matures, she must find a way amid her own budding sexuality to be both Daddy's girl and her own woman.
