**No-Waste Composting** Michelle Balz,2021-04-06 In No-Waste Composting, you'll discover the hows and whys of composting and find over a dozen practical step-by-step plans for building both indoor and outdoor composting systems that require a minimal amount of space. "I don't have enough space to compost." "I don't know what's safe to compost and what isn't." "I live in the city, so I don't think I can compost." "Indoor composting systems are smelly." "I don't have a garden, so I don't need to compost." If any of these is your excuse for not composting, then this is the book for you! Small-space composting has never been easier, more efficient, and more eco-friendly. Composting keeps millions of tons of waste out of landfills and creates carbon-sequestering, nutrient-dense compost that can be used to help fuel plant growth (including houseplants!) and build soil health. Build a DIY worm-composting system for a cupboard or garage Craft a layered, under-the-sink composting system from terra cotta pots Construct a simple outdoor compost bin from repurposed wooden pallets Use upcycled wire fencing to build a mobile composting system on the driveway Learn how to compost larger sticks and branches to build new food and flower gardens Upcycle a plastic bucket to make an indoor compost fermenting system Plus, you'll find plans to keep cat and dog waste out of the landfill by using a groundbreaking (and safe) DIY composting system.

And if you don't garden, author and composting professional Michelle Balz offers plenty of other ways you can utilize the wonderful, crumbly compost you create. Whether you're just starting your no-waste journey or you're a seasoned recycling and repurposing pro, No-Waste Composting is an invaluable tool to have at your side. This book is part of the Cool Springs Press No-Waste Gardening series, which also includes No-Waste Kitchen Gardening and No-Waste Organic Gardening.

**Your Strategy Needs a Strategy** Martin Reeves,Knut Haanaes,2015-05-19 You think you have a winning strategy. But do you? Executives are bombarded with bestselling ideas and best practices for achieving competitive advantage, but many of these ideas and practices contradict each other. Should you aim to be big or fast? Should you create a blue ocean, be adaptive, play to win—or forget about a sustainable competitive advantage altogether? In a business environment that is changing faster and becoming more uncertain and complex almost by the day, it's never been more important—or more difficult—to choose the right approach to strategy. In this book, The Boston Consulting Group's Martin Reeves, Knut Haanaes, and Janmejaya Sinha offer a proven method to determine the strategy approach that is best for your company. They start by helping you assess your business environment—how unpredictable it is, how much power you have to change it, and how harsh it is—a critical component of getting strategy right. They show how existing strategy approaches sort into five categories—Be Big, Be Fast, Be First, Be the Orchestrator, or simply Be Viable—depending on the extent of predictability, malleability, and harshness. In-depth explanations of each of these approaches will provide critical insight to help you match your approach to strategy to your environment, determine when and how to execute each one, and avoid a potentially fatal mismatch. Addressing your most pressing strategic challenges, you'll be able to answer questions such as: • What replaces planning when the annual cycle is obsolete? • When can we—and when should we—shape the game to our advantage? • How do we simultaneously implement different strategic approaches for different business units? • How do we manage the inherent contradictions in formulating and executing different strategies across multiple businesses and geographies? Until now, no book brings it all together and offers a practical tool for understanding which strategic approach to apply. Get started today.

Public Space Reader Miodrag Mitrašinović,Vikas Mehta,2021-03-30 Recent global appropriations of public spaces through urban activism, public uprising, and political protest have brought back democratic values, beliefs, and practices

that have been historically associated with cities. Given the aggressive commodification of public resources, public space is critically important due to its capacity to enable forms of public discourse and social practice which are fundamental for the well-being of democratic societies. Public Space Reader brings together public space scholarship by a cross-disciplinary group of academics and specialists whose essays consider fundamental questions: What is public space and how does it manifest larger cultural, social, and political processes? How are public spaces designed, socially and materially produced, and managed? How does this impact the nature and character of public experience? What roles does it play in the struggles for the just city, and the Right to The City? What critical participatory approaches can be employed to create inclusive public spaces that respond to the diverse needs, desires, and aspirations of individuals and communities alike? What are the critical global and comparative perspectives on public space that can enable further scholarly and professional work? And, what are the futures of public space in the face of global pandemics, such as COVID-19? The readers of this volume will be rewarded with an impressive array of perspectives that are bound to expand critical understanding of public space.

Animal, Vegetable, Miracle Barbara Kingsolver, Camille Kingsolver, Steven L. Hopp, 2009-10-13 Bestselling author Barbara Kingsolver returns with her first nonfiction narrative that will open your eyes in a hundred new ways to an old truth: You are what you eat. As the U.S. population made an unprecedented mad dash for the Sun Belt, one carload of us paddled against the tide, heading for the Promised Land where water falls from the sky and green stuff grows all around. We were about to begin the adventure of realigning our lives with our food chain. Naturally, our first stop was to buy junk food and fossil fuel. . . . Hang on for the ride: With characteristic poetry and pluck, Barbara Kingsolver and her family sweep readers along on their journey away from the industrial-food pipeline to a rural life in which they vow to buy only food raised in their own neighborhood, grow it themselves, or learn to live without it. Their good-humored search yields surprising discoveries about turkey sex life and overly zealous zucchini plants, en route to a food culture that's better for the neighborhood and also better on the table. Part memoir, part journalistic investigation, Animal, Vegetable, Miracle makes a passionate case for putting the kitchen back at the center of family life and diversified farms at the center of the American diet. This is the story of a year in which we made every attempt to feed ourselves animals and vegetables whose provenance we really knew . . . and of how our family was changed by our first year of deliberately eating food produced from the same place where we worked, went to school, loved our neighbors, drank the water, and breathed the air. Includes an excerpt from Flight Behavior.

**Tahrir Square**, 2011 When Egyptians began demonstrating against the regime of President Hosni Mubarak on 25 January 2011, few could anticipate that the demonstrations would grow into a revolution to astonish the world. Millions of Egyptians were soon joining in every day in cities across the country, but Tahrir Square became the beating heart of the

revolution, its center, its life force, and its spirit, a spirit that was peaceful, inclusive, creative, and determined. Swedish photographer Mia Gröndahl returned day after day to the square, to record the incredible tent city within a city that would not budge until the president did, and to capture the great humanity of the revolution that impressed Cairo, Egypt, and the world. This book presents a selection of Mia's moving photographs from those historic days, along with the testimony in words of some of the people who were there.

**Starving the Monkeys** Tom Baugh, 2009-10-19 An analysis of the forces behind collectivism, and the steps which individualists can take to reassert themselves. Hailed as a 21st century Atlas Shrugged, this book deconstructs accepted dogma of both the political left and the right. The book includes mathematical analysis, fictional stories of a caveman economy and autobiographical sketches to make its points. Quite possibly the prescription for the destruction of civilization as we know it.

**Bread Alone: Bold Fresh** Daniel Leader, 1993-11-19 Good bread is hard to find and easy to make, says Dan Leader as he draws you into the ancient world of traditional bread baking. Unlike any other bread book, Bread Alone will provide you with a comprehensive guide to creating—at home—the country-style breads that have consistently captured the imagination and the taste buds of the world. In a richly told tale, Leader chronicles his crossings of America and Europe to locate the most vital ingredients at the source, to learn from the methods of the world's great bakers, and to perfect their traditional techniques. His recipes are ones that have been used for centuries: large sourdough ryes, rich and dark raisin pumpernickel loaves, real French pain au levain, big round wheats with walnuts, crusty baguettes, high and airy breads, and more. Made from organic, stone-ground grains, these breads are slow-leavened, hand-shaped, and baked to perfection on heated baking tiles. As you read through the recipes, you can almost smell the ancient aroma of baking bread. And as you begin to bake, you will learn the importance of the primary ingredient in great bread: your own observations. These are some of the breads and techniques you will master: In the chapter Becoming Bread, you will learn to identify and shop for the highest quality flour available. And you will seek it out because you'll taste the difference. Making a poolish will become second nature to you as you master the Learning Recipe: Classic Country-Style Hearth Loaf and its delicious variations. Whatever your schedule, there is a bread for you. In the chapter Straight-Dough Breads: Traditional Breads for a Modern Life-Style, you are shown how to start and finish a recipe in five hours, or morning-to-night, or night-to-night. You will bake sourdough bread in its many forms. By gently introducing the concept of sourdough—how it is made, how it is maintained, and how to get the best flavor from it—Leader demystifies it and makes it accessible to you. Discover the wonders of rye bread: From the dense and chewy Finnish Sour Rye to the fragrant Danish Light Rye, everyone's tastes are served. The mystery of pain au levain, French for bread from a sourdough or wild yeast, unfolds into an understandable, user-friendly process. From My Personal Favorite Pain au Levain, a typical large Parisian loaf, to Pain au Levain with Pecans and Dried Cherries, the Family of Traditional Pain

au Levain includes some of the best loaves baked around the world. A perfect baguette is a beautiful thing. From shaping to scoring, you will learn how to make the authentic French baguette at home. The purpose of an organic certifier—find out how and why one farmer becomes dedicated to his role as land steward. Brioche, Chocolate-Apricot Kugelhopf, Panettone, and Semolina Sesame Rolls are a few recipes you will find in *A Family of Breads Inspired by Traditional French and Italian Breads*. Finally, when a quick bread is all you have time to bake, you will find recipes for such delights as Vanilla Bean Butter Loaf; Dried Pear, Port, and Poppy Seed Loaf; and Provolone Sage Corn Loaf. *Bread Alone* is the bread book that cooks and bakers have been waiting for. From the wheat fields of the Midwest to the hot and steamy boulangeries of Paris, you will travel the long and delicious road to flawless bread baking. You will emerge a better baker and with a deeper understanding of what it takes to make perfect loaves. Bakers entertain you with stories of their love of baking (even in the most adverse situations). *Bread Alone* is the bible of bread books and a must-have for bread lovers everywhere.
