## Kristin Hannah

Night Road Kristin Hannah, 2011-03-22 From Kristin Hannah, the #1 New York Times bestselling author of the smash-hit novels *Firefly Lane*, *The Nightingale*, and *The Four Winds* comes a novel about how one reckless night destroys the lives of three teenagers and their families. For eighteen years, Jude Farraday has put her children's needs above her own, and it shows—her twins, Mia and Zach, are bright and happy teenagers. When Lexi Baill moves into their small, close-knit community, no one is more welcoming than Jude. Lexi, a former foster child with a dark past, quickly becomes Mia's best friend. Then Zach falls in love with Lexi and the three become inseparable. Jude does everything to keep her kids out of harm's way. But senior year of high school tests them all. It's a dangerous, explosive season of drinking, driving, parties, and kids who want to let loose. And then on a hot summer's night, one bad decision is made. In the blink of an eye, the Farraday family will be torn apart and Lexi will lose everything. In the years that follow, each must face the consequences of that single night and find a way to forget...or the courage to forgive. Vivid, universal, and emotionally complex, *Night Road* raises profound questions about motherhood, identity, love, and forgiveness. It is a luminous, heartbreaking novel that captures both the exquisite pain of loss and the stunning power of hope. This is Kristin Hannah at her very best, telling an unforgettable story about the longing for family, the resilience of the human heart, and the courage it takes to forgive the people we love. You cannot read *Night Road* and not be affected by the story and the characters. The total impact of the book will stay with you for days to come after it is finished. —The Huffington Post

**Century of the Child** Juliet Kinchin, Aidan O'Connor, 2012 The book examines individual and collective visions for the material world of children, from utopian dreams for the citizens of the future to the dark realities of political conflict and exploitation. Surveying more than 100 years of toys, clothing, playgrounds, schools, children's hospitals, nurseries, furniture, posters, animation and books, this richly illustrated catalogue illuminates how progressive design has enhanced the physical, intellectual, and emotional development of children and, conversely, how models of children's play have informed experimental aesthetics and imaginative design thinking.

The Future of Museum and Gallery Design Suzanne MacLeod, Tricia Austin, Jonathan Hale, Oscar Ho Hing-Kay, 2018-06-18  
The Future of Museum and Gallery Design explores new research and practice in museum design. Placing a specific emphasis on social responsibility, in its broadest sense, the book emphasises the need for a greater understanding of the impact of museum design in the experiences of visitors, in the manifestation of the vision and values of museums and galleries, and in the shaping of civic spaces for culture in our shared social world. The chapters included in the book propose a number of innovative approaches to museum design and museum-design research. Collectively, contributors plead for more open and creative ways of making museums, and ask that museums recognize design as a resource to be harnessed towards a form of museum-making that is culturally located and makes a significant contribution to our personal, social, environmental, and economic sustainability. Such an approach demands new ways of conceptualizing museum and gallery design, new ways of acknowledging the potential of design, and new, experimental, and research-led approaches to the shaping of cultural institutions internationally. The Future of Museum and Gallery Design should be of great interest to academics and postgraduate students in the fields of museum studies, gallery studies, and heritage studies, as well as architecture and design, who are interested in understanding more about design as a resource in museums. It should also be of great interest to museum and design practitioners and museum leaders.

The Identity of the Architect Laura Iloniemi, 2019-12-23 Today there are more tools for communication than ever before, yet very little in the way of reflection on how these are being used and even less on what exactly is being conveyed. This issue of AD looks at how architecture is communicated from a cultural perspective. Do the identities of practices or their business-driven branding and promotional efforts resonate with the critical acclaim many architects seek? Has slick image-led media coverage sold the profession short? How is it possible to convey the less visual and haptic qualities of architecture? Can architects be more creative in their communication efforts, making these joyous on their own terms as Le Corbusier did so memorably? Is there really a need to succumb to the world of corporate marketing processes and managerial business jargon? The issue explores notions of editing and curating work in an age of data deluge, and discusses social media as a genuinely alternative space for communication rather than for just repurposing and regurgitating information relayed. The Identity of the Architect encourages the promotion of practices as an integral extension of the very culture they hope to engender through their work. Contributors: Stephen Bayley, Caroline Cole, Adam Nathaniel Furman, Gabor Gallo, Jonathan Glancey, Justine Harvey, Owen Hopkins, Crispin Kelly, Jay Merrick, Robin Monotti, Juhani Pallasmaa, Vicky Richardson, Jenny Sabin, and Austin Williams. Featured architects: Ian Ritchie, BIG, MVRDV, IF\_DO and Zaha Hadid Architects

*Architecture an Inspiration* Ivor Smith, 2014-11-28 This book is about appreciation; it is an attempt to explain what architecture essentially is, rather than merely what it looks like. *Architecture an Inspiration* is addressed to those who enjoy buildings, cities and landscapes, and would like to have a deeper appreciation and a basis for their likes and dislikes. A full appreciation demands careful observation, and in these pages there are many explorations of this sort. The book is divided into two parts: the first is about the nature of architecture, describing what is necessary. The chapter headings define the basic requirements that, to varying degrees, must always be met, such as facilitating activity, moderating climate, relating to context, respecting materials and structure, as well as conveying meaning and delight. The second part is about the nature of designing and focuses on what the designer brings to the task to arrive at a human and poetic synthesis. These different ways of thinking are elusive and not necessarily conscious; they include the use of reason and intuition, the value of experience and precedent, the role of metaphor and the search for harmony. For students this is difficult, because there is no 'right' way of designing. So much of what is written about the architecture of today is negative that it seemed opportune to take a positive approach and point to work that is good - now and in the past - and reiterate some timeless qualities. *Architecture an Inspiration* does not set out to be comprehensive; Ivor Smith chooses examples that he finds particularly inspiring from the work of a few selected architects. The book will appeal to those both interested in and studying architecture.

**Ben Shahn** Frances Kathryn Pohl, Ben Shahn, 1993 BEN SHAHN offers a comprehensive look at the art work of one of the leading social realists of our time. The book includes pieces done in the 1930s depicting the effects of the Depression, urban decay, labor strikes & poverty. Brilliant posters created for the Office of War Information during World War II describe Shahn's work in the 1940s. The book explores the artist's post-war transition from a social realism to a personal realism, employing allegory & symbolism. Through discussions of his political views, his struggles to maintain artistic integrity, as well as through selections of Shahn's own writings, the author weaves a compelling portrait of the man & his work. BEN SHAHN includes an extensive bibliography. First Citizen Joseph Lambert, Jr., Rick Shale, 2022-10-27 In 1919, the doors of Youngstown's Butler Institute of American Art were opened for the first time. Dubbed the lighthouse of culture, both the beautiful marble museum and the artwork inside were the gift of 19th-century industrialist Joseph G. Butler, Jr., in what was the crowning achievement of a long life. Butler earned his successes with hard work, a competitive spirit and business savvy. He earned a fortune in the iron and steel industry crowded by such figures as Andrew Carnegie, Henry Frick and Charles Schwab. Butler also took on politicians, promoted American interests, preserved American history and spearheaded projects to improve his community. To friends and admirers, he was affectionately referred to as Uncle Joe. This biography chronicles Butler's early life through his career in the iron and steel industry, detailing his contributions to the art world, his philanthropic endeavors and his accomplishments as an author and historian.
