Unending Capitalism Karl Gerth,2020-05-14 What forces shaped the twentieth-century world? Capitalism and communism are usually seen as engaged in a fight-to-the-death during the Cold War. With the establishment of the People's Republic of China in 1949, the Chinese Communist Party aimed to end capitalism. Karl Gerth argues that despite the socialist rhetoric of class warfare and egalitarianism, Communist Party policies actually developed a variety of capitalism and expanded consumerism. This negated the goals of the Communist Revolution across the Mao era (1949-1976) down to the present. Through topics related to state attempts to manage what people began to desire - wristwatches and bicycles, films and fashion, leisure travel and Mao badges - Gerth challenges fundamental assumptions about capitalism, communism, and countries conventionally labeled as socialist. In so doing, his provocative history of China suggests how larger forces related to the desire for mass-produced consumer goods reshaped the twentieth-century world and remade people's lives.

Computational Economics David A. Kendrick, P. Ruben Mercado, Hans M. Amman, 2011-10-23 The ability to conceptualize an economic problem verbally, to formulate it as a mathematical model, and then represent the mathematics in software so that the model can be solved on a computer is a crucial skill for economists. *Computational Economics* contains well-known models--and some brand-new ones--designed to help students move from verbal to mathematical to computational representations in economic modeling. The authors' focus, however, is not just on solving the models, but also on developing the ability to modify them to reflect one's interest and point of view. The result is a book that enables students to be creative in developing models that are relevant to the economic problems of their times. Unlike other computational economics textbooks, this book is organized around economic topics, among them macroeconomics, microeconomics, and finance. The authors employ various software systems--including MATLAB, Mathematica, GAMS, the nonlinear programming solver in Excel, and the database systems in Access--to enable students to use the most advantageous system. The book progresses from relatively simple models to more complex ones, and includes appendices on the ins and outs of running each program. The book is intended for use by advanced undergraduates and professional economists and even, as a first exposure to computational economics, by graduate students. Organized by economic topics Progresses from simple to more complex models Includes instructions on numerous software systems Encourages customization and creativity

Thrift Store Graces Jane Knuth,2012-03-01 This “ridiculous” religious thinking—that when we help the poor, they end up helping us—is at the heart of the 30 stories that Jane Knuth shares in *Thrift Store Graces*, the sequel to her popular *Thrift Store Saints*. Similar to the first book, *Thrift Store Graces* contains personal accounts of Knuth’s experiences serving as a once reluctant, now enthusiastic volunteer at a thrift store in Kalamazoo, Michigan. What sets *Thrift Store Graces* apart from her first book is that Knuth introduces us to some far more challenging personal situations that emerge as a result of her volunteer work. Additionally, she invites us to join her as she hesitantly embarks on a pilgrimage to Medjugorje in war-ravaged Bosnia. Through it all, her delightful sense of humor keeps her going, along with her conviction that some of God’s greatest gifts come disguised as difficulties. Witty, inspiring, and thought-provoking all at once, the stories in *Thrift Store Graces* subtly compel us to redefine what it means to volunteer and to rethink why it is that we volunteer in the first place.

Conservative Bias Bryan H. Thrift,2016-09-27 *Conservative Bias* examines one of the most notorious figures of modern American politics: Jesse Helms. Thrift shows that Helms was not merely a right-wing demagogue but rather a brilliant media

mastermind who built a national movement from a little television soundstage in Raleigh.--Neil J. Young, Princeton University
In this careful, thoughtful, and thoroughly researched study, Bryan Hardin Thrift provides the first comprehensive study of Jesse Helms's long career as a conservative journalist and television ideologue prior to his long tenure as a U.S. senator from North Carolina.--William A. Link, author of *Righteous Warrior: Jesse Helms and the Rise of Modern Conservatism* Traces a little-known, but pivotal, phase of Helms's pre-senatorial career and explains how the future New Right leader used the power of local television broadcasts in the 1960s to forge a new ideology that moved the nation to the right.--Daniel K. Williams, author of *God's Own Party Before Bill O'Reilly and Glenn Beck, there was Jesse Helms. From in front of a camera at WRAL-TV, Helms forged a new brand of southern conservatism long before he was a senator from North Carolina. As executive vice president of the station, Helms delivered commentaries on the evening news and directed the news and entertainment programming. He pioneered the attack on the liberal media, and his editorials were some of the first shots fired in the culture wars, criticizing the influence of immoral entertainment. Through the emerging power of the household television Helms established a blueprint and laid the foundation for the modern conservative movement. Bryan Thrift mines over 2,700 WRAL-TV Viewpoint editorials broadcast between 1960 and 1972 to offer not only a portrait of a skilled rhetorician and wordsmith but also a lens on the way the various, and at times competing, elements of modern American conservatism cohered into an ideology couched in the language of anti-elitism and traditional values. Decades prior to the invention of the blog, Helms corresponded with his viewers to select, refine, and sharpen his political message until he had reworked southern traditionalism into a national conservative movement. The realignment of southern Democrats into the Republican Party was not easy or inevitable, and by examining Helms's oft-forgotten journalism career, Thrift shows how delicately and deliberately this transition had to be cultivated. Bryan Hardin Thrift teaches history at Johnston Community College.*
