Creativity, Inc. (The Expanded Edition) Ed Catmull, Amy Wallace, 2014-04-08 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as:

- Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better.
- It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them.
- The cost of preventing errors is often far greater than the cost of fixing them.
- A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody.

Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how

it is done.

Shifting Images of the Hasmoneans Vered Noam, 2018-02-16 The shifting image of the Hasmoneans in the eyes of their contemporaries and later generations is a compelling issue in the history of the Maccabean revolt and the Hasmonean commonwealth. Based on a series of six Jewish folktales from the Second Temple period that describe the Hasmonean dynasty and its history from its legendary founders, through achievement of full sovereignty, to downfall, this volume examines the Hasmoneans through the lens of reception history. On the one hand, these brief, colorful legends are embedded in the narrative of the historian of the age, Flavius Josephus; on the other hand, they are scattered throughout the extensive

halakhic-exegetical compositions known as rabbinic literature, redacted and compiled centuries later. Each set of parallel stories is examined for the motivation underlying its creation, its original message, language, and the historical context. This analysis is followed by exploration of the nature of the relationship between the Josephan and the rabbinic versions, in an attempt to reconstruct the adaptation of the putative original traditions in the two corpora, and to decipher the disparities, different emphases, reworking, and unique orientations typical of each. These adaptations reflect the reception of the pristine tales and thus disclose the shifting images of the Hasmoneans in later generations and within distinct contexts. The compilation and characterization of these sources which were preserved by means of two such different conduits of transmission brings us closer to reconstruction of a lost literary continent, a hidden Jewish Atlantis of early pseudo-historical legends and facilitates examination of the relationship between the substantially different libraries and worlds of Josephus and rabbinic literature.

Hallowe'en Party Agatha Christie, 2025-12-15 Enjoy Agatha Christie's beloved classic, Hallowe'en Party--the inspiration for the major motion picture A Haunting in Venice, directed by and starring Kenneth Branagh--with a new introduction by Michael Green, screenwriter of the film. When a Halloween party turns deadly, it falls to Hercule Poirot to unmask a murderer. At a Halloween party, Joyce--a surly thirteen-year-old--boasts that she once witnessed a murder. When no one believes her, she storms off home. But within hours her body is found, still in the house, drowned in an apple-bobbing tub. Famed detective Hercule Poirot is called in to investigate. Set against a night of trickery and the occult, it's up to Poirot to uncover the real evil presence responsible for this ghastly deed.

Flowers and Towers Nira Tessler, 2015-11-25 This book explores the meaning and symbolism of the flower motif in the art of women artists, from the nineteenth century to the present day. It begins with a discussion of the symbolic significance of the flower in canonical texts such as the Song of Songs, in which the female lover is likened to a "lily among the thorns," and to an "enclosed garden." These allegorical images permeated into Christian iconography, attaining various expressions in the plastic arts from the twelfth through nineteenth centuries. The heart of the book is a discussion of the meaning of the change in representations of the flower, and at the same time the appearance of amazing images of "masculine" skyscrapers, in the works of avant-garde American women artists during the 1920s and 30s, in three hubs of Modernist art: New York, California, and Mexico. Tessler explains how modernist artists of various fields of art - such as Glaspell, Stettheimer, O'Keeffe, Pelton, Cunningham, Mather, Modotti and Kahlo - were aware of the religious symbolism of the flower in Judaism and Christianity, and turned it into an emblem of the new modern woman with her own views of the world. Flowers and Towers concludes by presenting the works of contemporary feminist American artists such as Chicago and Schapiro, who pay tribute to those same Modernist artists by creating a new and daring image of the flower and using "feminine" materials and

techniques that link them, as it were, to their spiritual mothers.

Surrealism at Play Susan Laxton, 2019-02-14 In *Surrealism at Play* Susan Laxton writes a new history of surrealism in which she traces the centrality of play to the movement and its ongoing legacy. For surrealist artists, play took a consistent role in their aesthetic as they worked in, with, and against a post-World War I world increasingly dominated by technology

and functionalism. Whether through exquisite-corpse drawings, Man Ray's rayographs, or Joan Miró's visual puns, surrealists became adept at developing techniques and processes designed to guarantee aleatory outcomes. In embracing chance as the means to produce unforeseeable ends, they shifted emphasis from final product to process, challenging the disciplinary structures of industrial modernism. As Laxton demonstrates, play became a primary method through which surrealism refashioned artistic practice, everyday experience, and the nature of subjectivity.

Human Rights, Suffering, and Aesthetics in Political Prison Literature Yenna Wu, 2011-06-16 This interdisciplinary volume of essays studies human rights in political prison literature, while probing the intersections of suffering, politics, and aesthetics in an interliterary and intercultural context. As the first book to explore the concept of global aesthetics in political prison narratives, it demonstrates how literary insight enhances the study of human rights. Covering varied geographical and geopolitical regions, this collection encourages comparative analyses and cross-cultural understanding. Seeking to interrogate linguistic, structural, and cultural constructions of the political prison experience, it highlights the literary aspects without losing sight of the political and the theoretical. The contributors cross various disciplinary boundaries and adopt different interpretive perspectives in analyzing prison narratives, especially memoirs, from such diverse countries as China, Egypt, Morocco, Syria, Romania, Russia, Uruguay, and the U.S. The volume emphasizes the literary works produced since the second half of the twentieth century, particularly since the political seismic shift in 1989. The authors treated range from the canonical to the less well-known: Nawal El Saadawi, Varlam Shalamov, Zhang Xianliang, Cong Weixi, Wumingshi, Carlos Liscano, Fatna El Bouih, Nabil Sulayman, Faraj Bayraqdar, Hasiba 'Abdalrahman, Tahar Ben Jelloun, Nicolae Steinhardt, Irina Ratushinskaya, etc. Critical issues investigated include how the writers represent their sufferings, experiences, and emotions during incarceration; their strategies of survival; and how political prison literature can reveal hidden violations of human rights, while resisting official discourse and serving other functions in society. Examining the commonalities and differences in global experiences of imprisonment, the eight chapters engage with the aesthetics of self-making and resistance, individual and collective memory, denial and conversion, catharsis and redemption, and the experiencing and witnessing of trauma. Topics also include the politics of remembering and the politics of representation, such as the problematic relationship between narrative, language, and representations of torture. Similarly under discussion are prison aesthetics of happiness, the role of spectacle in the criminal justice system, and the intersection of prison, gender, and silences. At a juncture when more and more people all over the world actively defy repressive regimes and demand political reform, this book makes a timely contribution to the advocacy and discourse of universal human rights.
