Rebuilding Poland Padraic Kenney, 1997 The first book to examine the communist takeover in Poland from the bottom up, and the first to use archives opened in 1989, Rebuilding Poland provides a radically new interpretation of the communist experience. Padraic Kenney argues that the postwar takeover was also a social revolution, in which workers expressed their hopes for dramatic social change and influenced the evolution--and eventual downfall--of the communist regime. Kenney compares Łódź, Poland's largest manufacturing center, and Wrocław, a city rebuilt as Polish upon the ruins of wartime destruction. His account of dramatic strikes in the textile mills of Łódź shows how workers resisted the communist party's encroachment on factory terrain and its infringements of worker dignity. The contrasting absence of labor conflict among migrants in the frontier city of Wrocław holds important clues to the nature of stalinism in Poland: communist power was strongest where workers lacked organizational ties or cultural roots. In the collective reaction of workers in Łódź and the individualism of those in Wrocław, Kenney locates the beginnings of the end of the communist regime. Losing the battle for worker identity, the communists placed their hopes in labor competition, which ultimately left the regime hostage to a resistant work force and an overextended economy incapable of reform.

Mastering the Art of Mctavishing Karen McTavish,2014-09-09 Expanded and completely revised, this book is the perfect companion for longarm, sit-down, or hand quilters to add a simple but beautiful background filler to their quilting repertoire. Dubbed McTavishing after its creator, it has become the most popular new design concept in quilting today. As shown in the extensively illustrated projects, McTavishing may be added to any quilt or garment, from wholecloth to contemporary art quilts, and done by hand, domestic machine, or longarm technique. The book's how-to chapters demonstrate the uses of the McTavishing stitch--as an addition to an open quilt block, in a border, to highlight complex applique, to custom tailor a favorite garment, or as part of a larger overall design--while the accompanying DVDs provide lessons from the author. Accompanied by interviews with accomplished hand and domestic machine quilters, this guide offers readers an unparalleled view of the exciting new quilting process. This edition boasts revised how-to chapters, new graphics, new text, and a simpler teaching method. Additional pages feature new quilts and quilters as well as a new section on modern quilting styles.

Cyber-nationalism in China Ying Jiang,2012 The prevailing consumerism in Chinese cyberspace is a growing element of Chinese culture and an important aspect of this book. Chinese bloggers, who have strongly embraced consumerism and tend to be apathetic about politics, have nonetheless demonstrated political passion over issues such as the Western media's negative coverage of China. In this book, Jiang focuses upon this passion - Chinese bloggers' angry reactions to the Western media's coverage of censorship issues in current China - in order to examine China's current potential for political reform. A central focus of this book, then, is the specific issue of censorship and how to interpret the Chinese characteristics of it as a mechanism currently used to maintain state control. While *Cyber-Nationalism in China* examines fundamental questions surrounding the political implications of the Internet in China, it avoids simply predicting that the Internet does or does not lead to democratization. Applying a theoretical approach based on the Foucauldian notion of governmentality, the book builds on current scholarship that has attempted to move beyond examining the dynamics of the socio-cultural and -political use of new media technologies. Instead, this book's more intricate theoretical approach does not only accommodate the kind of liberal (apolitical or political) use observed on the Internet in China, but indicates that desires for political change, such as they are, are implicitly embedded in the relationship between China's online communities and state apparatus - noting, however, that the latter claims total governance over the Internet in the name of the people.

Texts and Culture in Late Antiquity J. H. D. Scourfield,2007-12-31 Late Antiquity has increasingly been viewed as a period of transformation and dynamic change in its literature as in society and politics. In this volume, thirteen scholars focus on the intellectual and literary culture of the time, investigating complex relationships between late-Antique authors and the texts which they had inherited through the classical ('pagan') and Christian traditions. Particular emphasis is placed on works that carried special authority: Homer, Virgil, Plato, and the Bible. The volume thus contributes to the history of the reception of classical texts, and through its inclusiveness (classical and classicizing, philosophical, and patristic writing are all represented) seeks to offer a view of the textual world of late Antiquity as a unified whole. It affords a scholarly introduction to a sweep of late-Antique literature in Greek and Latin. Authors and genres discussed include Juvenius and Claudian, Plotinus and Proclus, Jerome and John Cassian, geographical and grammatical writing, and Christian cento.

The Book of Experience Emmanuel Falque,2023-12-28 Emmanuel Falque, one of the foremost philosophers working in the continental philosophy of religion today, takes us by the hand into the very heart of 12th-century monastic spirituality. Translated into English for the first time, The Book of Experience weaves together contemporary phenomenological questions with medieval theology, revealing undiscovered dialogues already underway between Hugh of St. Victor and Maurice Merleau-Ponty, between Richard of St. Victor and Emmanuel Levinas, between Aelred of Rievaulx and Michel Henry, and not least between Bernard of Clairvaux and the trio of Descartes, Heidegger, and Jean-Luc Marion, consummating in a masterful phenomenological reading of Bernard's sermons on the Song of Songs. Whether it is a question of 'the idea that comes to God' (Anselm of Canterbury) or actively 'feeling oneself fully alive' (Aelred of Rievaulx or Bernard of Clairvaux), Falque uses these encounters to shed light on both parties, medieval and modern, theological and philosophical. Leading us through works of art, landscapes, architectures, and liturgies, this major contemporary philosopher of religion clarifies mysteries and discovers experience lying at the heart of the medieval tradition.
