Dear Data Giorgia Lupi, Stefanie Posavec, 2016-09-13 Equal parts mail art, data visualization, and affectionate correspondence, *Dear Data* celebrates the infinitesimal, incomplete, imperfect, yet exquisitely human details of life, in the words of Maria Popova (*Brain Pickings*), who introduces this charming and graphically powerful book. For one year, Giorgia Lupi, an Italian living in New York, and Stefanie Posavec, an American in London, mapped the particulars of their daily lives as a series of hand-drawn postcards they exchanged via mail weekly—small portraits as full of emotion as they are data, both mundane and magical. *Dear Data* reproduces in pinpoint detail the full year's set of cards, front and back, providing a remarkable portrait of two artists connected by their attention to the details of their lives—including complaints, distractions, phone addictions, physical contact, and desires. These details illuminate the lives of two remarkable young women and also inspire us to map our own lives, including specific suggestions on what data to draw and how. A captivating and unique book for designers, artists, correspondents, friends, and lovers everywhere.

Nickel Quilts Pat Speth, Charlene Thode, 2002 Each of the quilt patterns in this book is rated by skill level -- easy, beginner, or intermediate -- based on the degree of piecing difficulty. Once you've used our easy unit-construction methods to make your first nickel quilt, you'll be ready to move on to one of the more challenging projects. From inside book.

Arresting Images Steven C. Dubin, 2013-10-18 Although contemporary art may sometimes shock us, more alarming are recent attempts to regulate its display. Drawing upon extensive interviews, a broad sampling of media accounts, legal documents and his own observations of important events, sociologist Steven Dubin surveys the recent trend in censorship of the visual arts, photography and film, as well as artistic upstarts such as video and performance art. He examines the dual

meaning of arresting images--both the nature of art work which disarms its viewers and the social reaction to it. Arresting Images examines the battles which erupt when artists address such controversial issues as racial polarization, AIDS, gay-bashing and sexual inequality in their work.

Inspiration and Authority in the Middle Ages Brian Daniel FitzGerald,2017 Inspiration and Authority in the Middle Ages rethinks the role of prophecy in the Middle Ages by examining how professional theologians responded to new assertions of divine inspiration. Drawing on fresh archival research and detailed study of unpublished manuscript sources from the twelfth to fourteenth centuries, this volume argues that the task of defining prophetic authority became a crucial intellectual and cultural enterprise as university-trained theologians confronted prophetic claims from lay mystics, radical Franciscans, and other unprecedented visionaries. In the process, these theologians redescribed their own activities as prophetic by locating inspiration not in special predictions or ecstatic visions but in natural forms of understanding and in the daily work of ecclesiastical teaching and ministry. Instead of containing the spread of prophetic privilege, however, scholastic assessments of prophecy from Peter Lombard and Thomas Aquinas to Peter John Olivi and Nicholas Trevet opened space for claims of divine insight to proliferate beyond the control of theologians. By the turn of the fourteenth century, secular Italian humanists could lay claim to prophetic authority on the basis of their intellectual powers and literary practices. From Hugh of St Victor to Albertino Mussato, reflections on and debates over prophecy reveal medieval clerics, scholars, and reformers reshaping the contours of religious authority, the boundaries of sanctity and sacred texts, and the relationship of tradition to the new voices of the Late Middle Ages.

Narrating China's Governance Department of Commentary People's Daily,2019-11-20 This open access book captures and elaborates on the skill of storytelling as one of the distinct leadership features of Xi Jinping, the General Secretary of the

Communist Party of China and the President of the People's Republic of China. It gathers the stories included in Xi's speeches on various occasions, where they conveyed the essence of China's history and culture, its reform and development, and the principles of China's participating in global governance and cooperating with other countries to build a community of common destiny. The respective stories not only convey abstract and profound concepts of governance in comparatively straightforward language, but also create an immediate emotional connection between the narrator and the listener. In addition to the original stories, extensive additional materials are provided to convey the original context in which each was told, including when and to whom Xi told it, helping readers attain a deeper, intuitive understanding of their relevance.

Icons of Dissent Jeremy Prestholdt, 2019-07-01 The global icon is an omnipresent but poorly understood element of mass culture. This book asks why audiences around the world have embraced particular iconic figures, how perceptions of these figures have changed, and what this tells us about transnational relations since the Cold War era. Prestholdt addresses these questions by examining one type of icon: the anti-establishment figure. As symbols that represent sentiments, ideals, or something else recognizable to a wide audience, icons of dissent have been integrated into diverse political and consumer cultures, and global audiences have reinterpreted them over time. To illustrate these points the book examines four of the most evocative and controversial figures of the past fifty years: Che Guevara, Bob Marley, Tupac Shakur, and Osama bin Laden. Each has embodied a convergence of dissent, cultural politics, and consumerism, yet popular perceptions of each reveal the dissonance between shared, global references and locally contingent interpretations. By examining four very different figures, *Icons of Dissent* offers new insights into global symbolic idioms, the mutability of common references, and the commodification of political sentiment in the contemporary world.

Shifting Images of the Hasmoneans Vered No'am, 2018 The shifting image of the Hasmoneans in the eyes of their contemporaries and later generations is a compelling issue in the history of the Maccabean revolt and the Hasmonean commonwealth. Based on a series of six Jewish folktales from the Second Temple period that describe the Hasmonean dynasty and its history from its legendary founders, through achievement of full sovereignty, to downfall, this volume examines the Hasmoneans through the lens of reception history. On the one hand, these brief, colorful legends are embedded in the narrative of the historian of the age, Flavius Josephus; on the other hand, they are scattered throughout the extensive halakhic-exegetical compositions known as rabbinic literature, redacted and compiled centuries later. Each set of parallel stories is examined for the motivation underlying its creation, its original message, language, and the historical context. This

analysis is followed by exploration of the nature of the relationship between the Josephan and the rabbinic versions, in an attempt to reconstruct the adaptation of the putative original traditions in the two corpora, and to decipher the disparities, different emphases, reworking, and unique orientations typical of each. These adaptations reflect the reception of the pristine tales and thus disclose the shifting images of the Hasmoneans in later generations and within distinct contexts. The compilation and characterization of these sources which were preserved by means of two such different conduits of transmission brings us closer to reconstruction of a lost literary continent, a hidden Jewish Atlantis of early pseudo-historical legends and facilitates examination of the relationship between the substantially different libraries and worlds of Josephus and rabbinic literature.

Drive Daniel H. Pink, 2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Manifesto Rosa Luxemburg, Karl Marx, Friedrich Engels, Ernesto Che Guevara, 2024-04-09 The three texts this book, all written in vastly different eras —The Communist Manifesto (1848) by Marx and Engels, Reform or Revolution (1899) by Rosa Luxemburg and Socialism and Man in Cuba (1965) by Ernesto Che Guevara—illuminate socialist ideas of the 19th and 20th centuries. For a new generation of activists, these are classic revolutionary writings by four famous rebels, including The Communist Manifesto by Karl Marx and Friedrich Engels; Reform or Revolution by Rosa Luxemburg; and Che Guevara's Socialism and Man in Cuba. Includes an introduction by Cuban Marxist intellectual Armando Hart and a preface by US

radical poet Adrienne Rich. The essays in this book, *Manifesto*, were written by three relatively young people—Karl Marx when he was 30, Rosa Luxemburg at 27, Che Guevara at the age of 37. Born into different historical moments and different generations, they shared an energy of hope, an engagement with history, a belief that critical thinking must inform action, and a passion for the world and its human possibilities. Here are urgent conversations from the past that are still being carried on, among new voices, throughout the world.

Object Lives and Global Histories in Northern North America Beverly Lemire, Laura Peers, Anne Whitelaw, 2022-03-30 *Object Lives and Global Histories in Northern North America* explores how close, collaborative looking can discern the traces of contact, exchange, and movement of objects and give them a life and political power in complex cross-cultural histories. Red River coats, prints of colonial places and peoples, Indigenous-made dolls, and an Englishwoman's collection provide case studies of art and material culture that correct and give nuance to global and imperial histories. The result of a collaborative research process involving Indigenous and non-Indigenous contributors, this book looks closely at the circumstances of making, use, and circulation of these objects: things that supported and defined both Indigenous resistance and colonial and imperial purposes. Contributors re-envision the histories of northern North America by focusing on the lives of things flowing to and from this vast region between the eighteenth and the twentieth centuries, showing how material culture is a critical link that tied this diverse landscape to the wider world. An original perspective on the history of northern North American peoples grounded in things, *Object Lives and Global Histories in Northern North America* provides a key analytical and methodological lens that exposes the complexity of cultural encounters and connections between local and global communities.

Tribes Seth Godin, 2008-10-16 *The New York Times*, *BusinessWeek*, and *Wall Street Journal* Bestseller that redefined

what it means to be a leader. Since it was first published almost a decade ago, Seth Godin's visionary book has helped tens of thousands of leaders turn a scattering of followers into a loyal tribe. If you need to rally fellow employees, customers, investors, believers, hobbyists, or readers around an idea, this book will demystify the process. It's human nature to seek out tribes, be they religious, ethnic, economic, political, or even musical (think of the Deadheads). Now the Internet has eliminated the barriers of geography, cost, and time. Social media gives anyone who wants to make a difference the tools to do so. With his signature wit and storytelling flair, Godin presents the three steps to building a tribe: the desire to change things, the ability to connect a tribe, and the willingness to lead. If you think leadership is for other people, think again—leaders come in surprising packages. Consider Joel Spolsky and his international tribe of scary-smart software engineers. Or Gary Vaynerhuck, a wine expert with a devoted following of enthusiasts. Chris Sharma led a tribe of rock climbers up impossible cliff faces, while Mich Mathews, a VP at Microsoft, ran her internal tribe of marketers from her cube in Seattle. Tribes will make you think—really think—about the opportunities to mobilize an audience that are already at your fingertips. It's not easy, but it's easier than you think.

The Middle East in the New World Order Haifaa A. Jawad, 2016-07-27 The 1990-91 Gulf War, the Israeli-PLO agreement, instances of political and economic reform, and the radical political reassertion of Islam, all indicate that the post-Cold War Middle East is in the grip of dramatic changes. This has generated considerable enthusiasm. Yet such transformation to the political landscape bring with them daunting difficulties. The Middle East faces a host of problems urgently in need of solutions if a successful new world order is to be built on the ruins of the old. In this book, an international group of scholars addresses these issues, and considers the options for the political, social, and economic reconstruction of the region. Themes covered include: democratisation; the Arab state system in the new global environment; the civil war in Arabia; security structures; the Arab-Israeli conflict; the role and potential contribution of pan-Islamism and pan-Arabism; and the prospects for economic revival. Throughout, the linkages between regional dynamics and the changing global environment are highlighted. Case-studies are drawn from the whole region: from North Africa to the Gulf, and from Syria to Yemen.
