Surface Charging and Points of Zero Charge Marek Kosmulski,2009-05-14 The Most Detailed Resource Available on Points of Zero Charge
With their work growing in complexity, chemists involved with surface phenomena-related projects have outgrown the common resources available to them on points of zero charge (PZC) of oxides. Reporting on a limited number of materials in a limited number of scenarios, these resources ofte

Fractal Image Compression Yuval Fisher,2012-12-06 One half of the book is authored by Yuval Fisher himself, while articles from another 12 experts in the field present material from different points of view. The focus here is solely on fractal image encoding, with the aim of providing a working code that is usable in applications, while containing the complete details of how to encode and decode images. An indispensable how to guide, combining the very latest results in the field. Of interest to a very wide audience, ranging from experts in image processing to high school students.

International Handbook of Disaster Research Amita Singh,2023-09-30 This handbook is a comprehensive source of information, analysis and directions in disaster studies. It goes beyond the oft-explored issues of management and science related to the topic and explores policies, governance, law and decision-making combined with the processes of implementation and enforcement, all the while integrating the latest science and technology updates related to the topic, such as artificial intelligence and early warning systems. It brings together studies which relate to sociology, politics and institutional economics, which work under the impact of resource availability, issues of leadership and international laws. Disasters are trans-boundary and disaster studies are trans-disciplinary. It is this aspect which would form the fulcrum of contributions and present a new, refreshing and innovative design for the handbook. The transformatory pedagogy which started with the Hyogo Framework for action 2005-2015 and The Sendai Framework for Disaster Risk Reduction 2015-2030 outlines seven clear targets and four priorities for action to prevent new and reduce existing disaster risks. The four priority areas around which the book would revolve are (i) Understanding disaster risk; (ii) Strengthening disaster risk governance to

manage disaster risk; (iii) Investing in disaster reduction for resilience and; (iv) Enhancing disaster preparedness for effective response, and to Build Back Better in recovery, rehabilitation and reconstruction.

Combinatorial Image Analysis Reneta P. Barneva,Valentin E. Brimkov,Josef Slapal,2014-04-23 This volume constitutes the refereed proceedings of the 16th International Workshop on Combinatorial Image Analysis, IWZIA 2014, held in Brno, Czech Republic, in May 2014. The 20 revised full papers and 3 invited papers presented were carefully reviewed and selected from numerous submissions. The topics covered include discrete geometry and topology in imaging science, new results in image representation, segmentation, grouping, and reconstruction, medical image processing.

Medical Image Computing and Computer Assisted Intervention - MICCAI 2024 Marius George Linguraru, The 12-volume set LNCS 15001 - 15012 constitutes the proceedings of the 27th International Conference on Medical Image Computing and Computer Assisted Intervention, MICCAI 2024, which took place in Marrakesh, Morocco, during October 6-10, 2024. MICCAI accepted 857 full papers from 2781 submissions. They focus on neuroimaging; image registration; computational pathology; computer aided diagnosis, treatment response, and outcome prediction; image guided intervention; visualization; surgical planning, and surgical data science; image reconstruction; image segmentation; machine learning; etc.

Encyclopedia of New Age Beliefs John Ankerberg,John Weldon,1996 This comprehensive, indexed volume includes short, one-page listings of pertinent facts about a particular movement, its founder, how it claims to work, scientific evaluations done, and its potential dangers. Some topics covered are angels, visualization, shamanism, hypnosis, new age medicine and martial arts.

Maintenance in Medieval England Jonathan Rose,2017-06-22 This is the first book covering those who abused and misused the legal system in medieval England and the initial attempts of the Anglo-American legal system to deal with these forms of legal corruption. Maintenance, in the sense of intermeddling in another person's litigation, was a source of repeated complaint in medieval England. This book reveals for the first time what actually transpired in the resultant litigation. Extensive study of the primary sources shows that the statutes prohibiting maintenance did not achieve their objectives

because legal proceedings were rarely brought against those targeted by the statutes: the great and the powerful. Illegal maintenance was less extensive than frequently asserted because medieval judges recognized a number of valid justifications for intermeddling in litigation. Further, the book casts doubt on the effectiveness of the statutory regulation of livery. This is a treasure trove for legal historians, literature scholars, lawyers, and academic libraries.

Encyclopedia of Geography Barney Warf,2010-09-21 Simply stated, geography studies the locations of things and the explanations that underlie spatial distributions. Profound forces at work throughout the world have made geographical knowledge increasingly important for understanding numerous human dilemmas and our capacities to address them. With more than 1,200 entries, the Encyclopedia of Geography reflects how the growth of geography has propelled a demand for intermediaries between the abstract language of academia and the ordinary language of everyday life. The six volumes of this encyclopedia encapsulate a diverse array of topics to offer a comprehensive and useful summary of the state of the discipline in the early 21st century. Key Features Gives a concise historical sketch of geography's long, rich, and fascinating history, including human geography, physical geography, and GIS Provides succinct summaries of trends such as globalization, environmental destruction, new geospatial technologies, and cyberspace Decomposes geography into the six broad subject areas: physical geography; human geography; nature and society; methods, models, and GIS; history of geography; and geographer biographies, geographic organizations, and important social movements Provides hundreds of color illustrations and images that lend depth and realism to the text Includes a special map section Key Themes Physical Geography Human Geography Nature and Society Methods, Models, and GIS People, Organizations, and Movements History of Geography This encyclopedia strategically reflects the enormous diversity of the discipline, the multiple meanings of space itself, and the diverse views of geographers. It brings together the diversity of geographical knowledge, making it an invaluable resource for any academic library.

Haschek and Rousseaux's Handbook of Toxicologic Pathology Wanda M Haschek, Colin G. Rousseaux, Matthew A. Wallig, Brad Bolon, Ricardo Ochoa, 2013-05-01 Haschek and Rousseaux's Handbook of Toxicologic Pathology is a key reference on the integration of structure and functional changes in tissues associated with the response to pharmaceuticals, chemicals and biologics. The 3e has been expanded by a full volume, and covers aspects of safety assessment not discussed in the 2e. Completely revised with many new chapters, it remains the most authoritative reference on toxicologic pathology for scientists and researchers studying and making decisions on drugs, biologics, medical devices and other chemicals, including agrochemicals and environmental contaminants. New topics include safety assessment, the drug life cycle, risk assessment, communication and management, carcinogenicity assessment, pharmacology and pharmacokinetics, biomarkers in toxicologic pathology, quality assurance, peer review, agrochemicals, nanotechnology, food and toxicologic pathology, the environment and toxicologic pathology and more. - Provides new chapters and in-depth discussion of timely topics in the area of toxicologic pathology and broadens the scope of the audience to include toxicologists and pathologists working in a variety of settings - Offers high-quality and trusted content in a multi-contributed work written by leading international authorities in all areas of toxicologic pathology - Features hundreds of full color images in both the print and electronic versions of the book to highlight difficult concepts with clear illustrations
