Crisis Management of Chronic Pollution Magalie Lesueur Jannoyer, Philippe Cattan, Thierry Woignier, Florence Clostre, 2016-10-03 Crisis Management of Chronic Pollution: Contaminated Soil and Human Health deals with a long term pollution problem, generated by the former use of organochlorine pesticides. Through a case study of the chlordecone pollution in the French West Indies, the authors illustrate a global and systemic mobilization of research institutions and public services. This management model, together with its major results, the approach and lessons to be learned, could be useful to other situations. This book gathers all the works that have been carried out over the last ten years or more and links them to decision makers' actions and stakeholders' expectations. This reference fills a gap in the literature on chronic pollution.

Inspector Flytrap (Book #1) Tom Angleberger, Cece Bell, 2019-03-26 Read Along or Enhanced eBook: From husband-and-wife team Tom Angleberger, creator of the New York Times bestselling Origami Yoda series, and Cece Bell, author/illustrator of the Newbery Honor graphic novel El Deafo, comes the start to a funny and clever illustrated chapter-book series about a mystery-solving Venus flytrap. With easy-to-read language and illustrations on almost every page, this early-chapter-book series is a must for beginning readers. Inspector Flytrap in the Da Vinci Cold introduces kids to the humorous and wacky world of Inspector Flytrap's Detective Agency, home to the world-renowned solver of BIG DEAL mysteries. The plant detective works tirelessly with his assistant Nina the Goat on his community's unsolved cases. There's no case too big, but there are definitely cases too small for this endearingly self-important plant detective. Celebrating the disabled yet enabled, the character of Inspector Flytrap is wheeled everywhere (on a skateboard, of course) by his goat sidekick as this mystery-solving duo works on cases such as "The Big Deal Mystery of the Stinky Cookies" and "The Big Deal Mystery of the Missing Rose." On his first caper, Inspector Flytrap heads to the Art Museum's Secret Lab to discover what important message lies in a mysterious glob on a recently discovered Da Vinci flower painting. The ingenious solution: Da Vinci was allergic to flowers, and the glob is, er, evidence of that ancient sneeze. Combining wacky humor and a silly cast of characters with adventure, friendship, and mystery, the powerhouse team of Tom Angleberger and Cece Bell have created a uniquely engaging series that is perfect for newly independent readers and fans of Ricky Ricotta, Captain Underpants, and the Galaxy Zack series. Also included in these books are some graphic novel-style pages that will attract reluctant readers.

Images in Asian Religions Phyllis Granoff,Koichi Shinohara,2010-10-01 This collection offers a challenge to any simple understanding of the role of images by looking at aspects of the reception of image worship that have only begun to be studied, including the many hesitations that Asian religious traditions expressed about image worship. Written by eminent scholars of anthropology, art history, and religion with interests in different regions (India, China, Japan, and Southeast Asia), this volume takes a fresh look at the many ways in which images were defined and received in Asian religions. Image Processing and Capsule Networks Joy Iong-Zong Chen,João Manuel R. S. Tavares,Subarna Shakya,Abdullah M. Ilyasu,2020-07-23 This book emphasizes the emerging building block of image processing domain, which is known as capsule networks for performing deep image recognition and processing for next-generation imaging science. Recent years

have witnessed the continuous development of technologies and methodologies related to image processing, analysis and 3D modeling which have been implemented in the field of computer and image vision. The significant development of these technologies has led to an efficient solution called capsule networks [CapsNet] to solve the intricate challenges in recognizing complex image poses, visual tasks, and object deformation. Moreover, the breakneck growth of computation complexities and computing efficiency has initiated the significant developments of the effective and sophisticated capsule network algorithms and artificial intelligence [AI] tools into existence. The main contribution of this book is to explain and summarize the significant state-of-the-art research advances in the areas of capsule network [CapsNet] algorithms and architectures with real-time implications in the areas of image detection, remote sensing, biomedical image analysis, computer communications, machine vision, Internet of things, and data analytics techniques.

Miles Goodyear Stephen Darley,2021-11-15 Historian Francis Parkman said of the western fur trappers and mountain men, "I defy the annals of chivalry to furnish the record of a life more wild and perilous than that of a Rocky Mountain Trapper." Surprisingly, there was a mountain man named Miles Goodyear who was born and raised in Connecticut. He died in his early thirties but made his mark in that wild and perilous life as a trapper but also as a founder of two cities in the west, a horse trader and gold seeker. Miles Goodyear's life story is full of intrigue, wild adventures and involvement with people of consequence in the west from the time he went west in 1836 until his death in 1849. No dime novel or prize winning book contains his story and he never wrote a journal. He is the subject of only one little known hard cover biography, an article in the Utah Historical Quarterly and a newspaper article in a Connecticut newspaper and there is only one historical marker that includes his name. Yet Miles Goodyear, who was described in a journal as "a restless native of Yankee land," left a significant footprint on the development of the far west. It is hard to imagine how he could compress so many adventures and so much living in the short span of thirty-two years. He did make his mark in the Rocky Mountains and plains of the far west. This is his story.

An Annotated Bibliography for Taiwan Film Studies Jim Cheng,James Wicks,Sachie Noguchi,2016-04-19 Compiled by two skilled librarians and a Taiwanese film and culture specialist, this volume is the first multilingual and most comprehensive bibliography of Taiwanese film scholarship, designed to satisfy the broad interests of the modern researcher. The second book in a remarkable three-volume research project, An Annotated Bibliography for Taiwan Film Studies

catalogues the published and unpublished monographs, theses, manuscripts, and conference proceedings of Taiwanese film scholars from the 1950s to 2013. Paired with *An Annotated Bibliography for Chinese Film Studies* (2004), which accounts for texts dating back to the 1920s, this series brings together like no other reference the disparate voices of Chinese film scholarship, charting its unique intellectual arc. Organized intuitively, the volume begins with reference materials (bibliographies, cinematographies, directories, indexes, dictionaries, and handbooks) and then moves through film history (the colonial period, Taiwan dialect film, new Taiwan cinema, the 2/28 incident); film genres (animated, anticommunist, documentary, ethnographic, martial arts, teen); film reviews; film theory and technique; interdisciplinary studies (Taiwan and mainland China, Taiwan and Japan, film and aboriginal peoples, film and literature, film and nationality); biographical materials; film stories, screenplays, and scripts; film technology; and miscellaneous aspects of Taiwanese film scholarship (artifacts, acts of censorship, copyright law, distribution channels, film festivals, and industry practice). Works written in multiple languages include transliteration/romanized and original script entries, which follow universal AACR-2 and American cataloguing standards, and professional notations by the editors to aid in the use of sources.

Nuclear Science Abstracts, 1970 NSA is a comprehensive collection of international nuclear science and technology literature for the period 1948 through 1976, pre-dating the prestigious INIS database, which began in 1970. NSA existed as a printed product (Volumes 1-33) initially, created by DOE's predecessor, the U.S. Atomic Energy Commission (AEC). NSA includes citations to scientific and technical reports from the AEC, the U.S. Energy Research and Development Administration and its contractors, plus other agencies and international organizations, universities, and industrial and research organizations. References to books, conference proceedings, papers, patents, dissertations, engineering drawings, and journal articles from worldwide sources are also included. Abstracts and full text are provided if available.

The Wayward Bride Anna Bradley, 2019-02-26 In this Regency romance a snowstorm traps and tempts a Marquess and a lady back to their past dalliance mere weeks before her marriage to another man. Fans of Julia Quinn and Mary Jo Putney will fall for this second chance romance. In only six weeks, Isla Ramsey is due to marry Henry Northrup, the sixth Earl of Sydney. But she remains haunted by memories of the dashing Hugh Courtney, the Marquess Pierce. The handsome aristocrat had hinted at forever and then tossed her aside, leaving Isla with few viable options. Now, as she awaits her new fiancé's arrival from London, she rides her horse past Hugh's estate at Hazelwood every day, pining for a man who was never truly hers. Hugh Courtney may have left Isla's life, but he can't erase her from his thoughts. When he rescues her from a sudden snowstorm, they are forced to take shelter together at his private estate. In such close quarters there is no escaping each

other. Yet no man wants a reckless wife—or a woman promised to another. As fate draws Isla further into his world, Hugh vows to keep her out of his bedchamber. However, some vows are meant to be broken . . .
