American Zealots Arie Perliger,2020-08-18 In an unsettling time in American history, the outbreak of right-wing violence is among the most disturbing developments. In recent years, attacks originating from the far right of American politics have targeted religious and ethnic minorities, with a series of antigovernment militants, religious extremists, and lone-wolf mass shooters inspired by right-wing ideologies. The need to understand the nature and danger of far-right violence is greater than ever. In *American Zealots*, Arie Perliger provides a wide-ranging and rigorously researched overview of right-wing domestic terrorism. He analyzes its historical roots, characteristics, tactics, rhetoric, and organization, assessing the current and future trajectory of the use of violence by the far right. Perliger draws on a comprehensive dataset of more than 5,000 attacks and their perpetrators from 1990 through 2017 in order to explore key trends in American right-wing terrorism. He describes the entire ideological spectrum of the American far right, including today's white supremacists, antigovernment groups, and antiabortion fundamentalists, as well as the histories of the KKK, skinheads, and neo-Nazis. Based on these findings, Perliger suggests counterterrorism policies that can respond effectively to the far-right threat. A groundbreaking examination of violence spawned from right-wing ideologies, *American Zealots* is essential reading for everyone seeking to understand the transformation of domestic terrorism.

The Great Reset Marc Morano, 2022-08-30 Here is the antidote to the left's sinister push to use a worldwide crisis to infuse our lives with the values of collasal statism and dystopian self-hatred, all accelerated by the duplicitous manipulation of the recent pandemic. From the nationally best-selling author of *The Politically Incorrect Guide to Climate Change*. Welcome to 2030. I own nothing, have no privacy, and life has never been better. This is the vision of the Great Reset, according to globalist leaders. While proponents of the Great Reset push slogans like “Build Back Better,” “The Fourth Industrial Revolution,” and “A New Normal,” the Reset is nothing short of a rebranded Soviet system, threatening to strip away property rights, restrict freedom of movement and association, and radically reshape our diets and way of life. In *The Great Reset: Global Elites and the Permanent Lockdown*, bestselling author and ClimateDepot.com publisher, Marc Morano, unveils the origins of the Great Reset, who is behind it, how it is being implemented, and how COVID-19 and the alleged “climate emergency” accelerated its imposition on the United States. Packed with telling statistics and damning quotes, *The Great Reset* is the essential handbook for the public, the media, and activists on how to critically analyze and expose the tyrannical policies silently strangling our liberties today.

□*Preparing for Power*□ Jack Hepworth, 2023-08-10 This book employs a history of ideas approach to trace the complex journey of the Revolutionary Communist Party (RCP) and its afterlives. Although the RCP existed for barely two decades, it left a curiously lasting impact on British politics, and its legacies have provoked bewilderment, suspicion, and animosity. Formed as the Revolutionary Communist Tendency in 1978, the RCP represented a distinct and often controversial offshoot of the Trotskyist left. Campaigning principally around 'unconditional support for Irish freedom' and anti-racism, RCP cadres expounded an independent revolutionary politics to supersede capitalism. In the 1990s, however, the RCP leadership ruefully declared that the working class had suffered an historic defeat, and the party dissolved in 1996. Combining wide-ranging archival research and twenty-four life-history interviews with former activists, *Preparing for Power* examines ideological continuity and change among the ex-RCP milieu. Explaining the party's key ideas, their evolution, and their retrospective contestation, Jack Hepworth analyses the RCP's trajectory in a broader political context. In doing so, Hepworth illuminates a network which has been the subject of considerable media sensation and polemical attention.
