Creativity, Inc. (The Expanded Edition) Ed Catmull, Amy Wallace, 2023-09-28 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as:

- Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better.
- It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them.
- The cost of preventing errors is often far greater than the cost of fixing them.
- A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody.

Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.

From Ruins to Reconstruction Karl D. Qualls, 2018-07-05 Sevastopol, located in present-day Ukraine but still home to the Russian Black Sea Fleet and revered by Russians for its role in the Crimean War, was utterly destroyed by German forces during World War II. In *From Ruins to Reconstruction*, Karl D. Qualls tells the complex story of the city's rebuilding. Based on extensive research in archives in both Moscow and Sevastopol, architectural plans and drawings, interviews, and his own extensive experience in Sevastopol, Qualls tells a unique story in which the periphery bests the Stalinist center: the city's experience shows that local officials had considerable room to maneuver even during the peak years of Stalinist control. Qualls first paints a vivid portrait of the ruined city and the sufferings of its surviving inhabitants. He then turns to Moscow's plans to remake the ancient city on the heroic socialist model prized by Stalin and visited upon most other postwar Soviet cities and towns. In Sevastopol, however, the architects and city planners sent out from the center went native, deviating from Moscow's blueprints to collaborate with local officials and residents, who seized control of the planning process and rebuilt the city in a manner that celebrated its distinctive historical identity. When completed, postwar Sevastopol resembled a nineteenth-century Russian city, with tree-lined boulevards; wide walkways; and buildings, street names, and memorials to its heroism in wars both long past and recent. Though visually Russian (and still containing a majority Russian-speaking population), Sevastopol was in 1954 joined to Ukraine, which in 1991 became an independent state. In his concluding chapter, Qualls explores how the Russianness of the city and the presence of the Russian fleet affect relations between Ukraine, Russia, and the West.

Hallowe'en Party Agatha Christie, 2025-12-15 Enjoy Agatha Christie's beloved classic, Hallowe'en Party--the inspiration for the major motion picture A Haunting in Venice, directed by and starring Kenneth Branagh--with a new introduction by Michael Green, screenwriter of the film. When a Halloween party turns deadly, it falls to Hercule Poirot to unmask a murderer. At a Halloween party, Joyce--a surly thirteen-year-old--boasts that she once witnessed a murder. When no one believes her, she storms off home. But within hours her body is found, still in the house, drowned in an apple-bobbing tub. Famed detective Hercule Poirot is called in to investigate. Set against a night of trickery and the occult, it's up to Poirot to uncover the real evil presence responsible for this ghastly deed.

The Art of Life in South Africa Daniel Magaziner, 2016-11-09 From 1952 to 1981, South Africa's apartheid government ran an art school for the training of African art teachers at Indaleni, in what is today KwaZulu-Natal. The Art of Life in South Africa is the story of the students, teachers, art, and politics that circulated through a small school, housed in a remote former mission station. It is the story of a community that made its way through the travails of white supremacist South

Africa and demonstrates how the art students and teachers made together became the art of their lives. Daniel Magaziner radically reframes apartheid-era South African history. Against the dominant narrative of apartheid oppression and black resistance, as well as recent scholarship that explores violence, criminality, and the hopeless entanglements of the apartheid state, this book focuses instead on a small group's efforts to fashion more fulfilling lives for its members and their community through the ironic medium of the apartheid-era school. There is no book like this in South African historiography. Lushly illustrated and poetically written, it gives us fully formed lives that offer remarkable insights into the now clichéd experience of black life under segregation and apartheid.

Transforming Entrepreneurship Education Jantje Halberstadt, Antonieta Alcorta de Bronstein, Jean Greyling, Shaun Bissett, 2023 This open access book provides selected teaching approaches, supporting methods, concrete examples of curricula as well as extracurricular teaching formats, which are predominantly tailored to both African and German requirements. These approaches were developed by the YEEES Training and Research Centers, an international interdisciplinary network of university teachers and researchers from Germany and southern Africa, and combine the fields

of management, entrepreneurship, information and communication technologies (ICT), and sustainability. The book shows how current scientific results can be integrated into teaching, how students can contribute to research while learning, and how research can contribute to the development and evaluation of new formats. It is thus relevant for university teachers, researchers, students as well as practitioners who want to educate and act as future change agents.

Creativity in Art, Design and Technology Susan Liggett, Rae Earnshaw, Jill Townsley, 2023-03-31 This is an open access book. Creativity is a difficult concept, how can it best be defined, understood, applied, and practiced? This book provides important answers to these questions. Technology can enable artists to be more creative. Scientific and artistic thinking give us two complementary tools to understand the complexity of the world, with science reducing subjective experience to essential principles and art intensifying and expanding our experiences. These examples also show how artists can push the boundaries of technology into exciting new realms that have not been explored before. The impact that art and art practice can have on culture, society, and social responsibility is explored in detail through examples and case studies. In addition, the book presents how artists are creating and reflecting cultural and societal resonance in their work. Can other disciplines help artists to be more creative? All are part of an interrelated wider society and enables artists to develop artwork fit for highly interfaced and conceptually broad contemporary contexts. This is illustrated with examples which show exciting and challenging results. Creativity in Art, Design and Technology is relevant for artists, designers, scientists and technologists. All can benefit in a major way from a greater understanding of creativity, and the ways in which mutual interaction and collaboration enables all areas to develop. The potential for the future is immense and this book signposts the way forward.

Hizmet in Transitions Paul Weller, 2022-04-21 In this open-access monograph, Paul Weller explores how the movement known as Hizmet (meaning “service”) is undergoing a period of transitions in Europe. Inspired by the teaching and practice of the Turkish Islamic scholar, Fethullah Gülen, Hizmet has been active in Europe (and other continents) for several decades. It has always been subject to some degree of contestation, which has intensified following the July 2016 coup attempt in

Turkey, for which the current Turkish government holds Fethullah Gülen and Hizmet as responsible - a claim they strongly deny. In Turkey, thousands of people associated with Hizmet have been imprisoned. In Europe, pressures have been brought to bear on the movement and its activities. In charting a way forward, Hizmet finds itself in a significant transitional period, the nature and possible future trajectories of which are explored in this volume. The book is informed by a comprehensive literature review and a recent research project which includes primary research interviews with key Hizmet figures in Europe and beyond. It contends that to properly understand Hizmet in Europe, one has to situate it in its interactive engagement both with its diverse European national contexts and with Fethullah Gülen's teaching and practice.
