The Prison of Love Emily C. Francomano,2018-01-01 In *The Prison of Love*, Emily Francomano offers the first comparative study of this sixteenth-century work as a transcultural, humanist fiction.

Magnetic Resonance Imaging in Orthopaedics and Sports Medicine David W. Stoller,2007 Now in two volumes, the Third Edition of this standard-setting work is a state-of-the-art pictorial reference on orthopaedic magnetic resonance imaging. It combines 9,750 images and full-color illustrations, including gross anatomic dissections, line art, arthroscopic photographs, and three-dimensional imaging techniques and final renderings. Many MR images have been replaced in the Third Edition, and have even greater clarity, contrast, and precision.

The Making of Many Books Stuart Weeks,2014-03-17 Taking advantage of the unprecedented access to books and information that has become available in the last few years, this bibliography identifies and traces the history of hundreds of books and articles on Ecclesiastes published in many different languages before 1875. It includes not just scholarly literature but exegetical sermons, homiletic works, and poetic paraphrases of the text in order to offer significantly more comprehensive coverage than in any earlier bibliography. The publication history of each work is outlined in detail, with brief discussions of the background or content where appropriate, cross-references are given to major bibliographies and bibliographical databases, and indexes of authors, publishers, and biblical references are provided. Intended to serve as an important resource not only for students of Ecclesiastes and for bibliographers but for all who are interested in the history of reception or interpretation of the Bible, this bibliography also includes coverage of many more general works on the Megillot, on the Old Testament, and on the Bible as a whole in this period.

"In His Image and Likeness" Kristin Zapalac,2019-05-15 In this ground-breaking book, Kristin Zapalac brings together the methods of social, intellectual, and art history to achieve a new understanding of how the Protestant Reformation altered the terms of political discourse in a German free imperial city. In Zapalac's view, visual and verbal images, many of them having their origins in conceptions of the sacred, were more central to sixteenth-century political thought within the city walls than was the rationalized language of law. Drawing on a wealth of sources including bookbindings, sermons, wills,

frescoes, decrees, and woodcuts, she traces the impact of religious change on the languages of judgment and authority used in the city of Regensburg, and thereby sheds light on the nature of political thought in early modern Germany.

The Cold War [5 volumes] Spencer C. Tucker, 2020-10-27 This sweeping reference work covers every aspect of the Cold War, from its ignition in the ashes of World War II, through the Berlin Wall and the Cuban Missile Crisis, to the collapse of the Soviet Union in 1991. The Cold War superpower face-off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today. This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world-changing event, including wars, new military technologies, diplomatic initiatives, espionage activities, important individuals and organizations, economic developments, societal and cultural events, and more. This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict. The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War, which are followed by some 1,500 entries on key individuals, wars, battles, weapons systems, diplomacy, politics, economics, and art and culture. Each entry has cross-references and a list of books for further reading. The text includes more than 100 key primary source documents, a detailed chronology, a glossary, and a selective bibliography. Numerous illustrations and maps are inset throughout to provide additional context to the material.

The Luminous Image Timothy Husband, Ellen Konowitz, Zsuzsanna van Ruyven-Zeman, Metropolitan Museum of Art (New York, N.Y.), 1995 Published in conjunction with a 1995 exhibit at The Metropolitan Museum of Art in New York, this catalog features extensive explication of a relatively unknown art, focusing on problems of style, workshop techniques, the dissemination of designs, iconographic variety, the functions of the diversity of drawings, details of specific patrons and commissions, and the leading centers of Lowlands stained-glass production--Ghent, Bruges, and Leiden. Includes 455 black and white and 22 color illustrations. Annotation copyright by Book News, Inc., Portland, OR

In the Beginning Was the Image David H. Price, 2020-11-20 This pioneering study focuses on the decisive contributions of the three leading artists of the Northern Renaissance--Albrecht Dürer, Lucas Cranach the Elder, and Hans Holbein the Younger-- to the printed Bible and to the transformation of ecclesiastical art in the Protestant Reformation. A time of artistic and theological revolution, the Renaissance and Reformation also witnessed a visual reformation of the Bible. In David H. Price's new interpretation, these artists emerge as major reformers in their own right who created a dynamic and innovative visual culture of biblicism. *In the Beginning Was the Image* explicitly addresses a key paradox of the Bible's new cultural status: as divergent Bible editions and translations shattered the unity of Christianity, new artistic approaches arose to accommodate theological and textual diversity. Rulers and theologians produced new Bibles as foundations for transformative socio-political movements, and their success, according to Price's compelling research, depended on the

inventiveness and creativity of these artists. Written in a style designed to be accessible to a broad range of readers, Price's richly nuanced study explores the art of Dürer, Cranach, and Holbein and the biblical iconographies they developed to connect the new biblicism to faith and political authority.

A History of Christianity Joseph Early, 2015-02-15 A History of Christianity examines the development of Christianity from its biblical foundations to modern times. While seeking to be comprehensive, historian Joseph Early Jr. centers on key events, people, theological developments, and conflicts that have shaped Christianity over its two-thousand-year history. He also presents the development of Christianity within the social, political, and economic challenges of the times. In doing so, he paints a clear, detailed, and balanced picture of the opportunities and struggles faced by the church and the contributions made by significant people, institutions, and traditions. A History of Christianity is an ideal introductory survey for undergraduate students and any reader who desires to know more about the broad scope of Christianity.

Artificial Intelligence Research and Development A. Cortés, F. Grimaldo, T. Flaminio, 2022-11-03 Artificial intelligence has become an integral part of all our lives. Development is rapid in this exciting and far-reaching field, and keeping up to date with the latest research and innovation is crucial to all those working with the technology. This book presents the proceedings of the 24th edition of CCIA, the International Conference of the Catalan Association for Artificial Intelligence, held in Sitges, Spain, from 19 - 21 October 2022. This annual event serves as a meeting point not only for researchers in AI from the Catalan speaking territories (southern France, Catalonia, Valencia, the Balearic Islands and Alghero in Italy) but for researchers from around the world. The programme committee received 59 submissions, from which the 26 long papers and 23 short papers selected for presentation at the conference by the 62 experts who make up the committee are included here. The book is divided into the following sections: combinatorial problem solving and logics for artificial intelligence; sentiment analysis and tekst analysis; data science, recommender systems and decision support systems; machine learning; computer vision; and explainability and argumentation. This book also includes an abstract of the invited talk given by Prof. Fosca Giannotti. Providing a comprehensive overview of research and development, this book will be of interest to all those working in the field of Artificial Intelligence.

Data Science in Agriculture and Natural Resource Management G. P. Obi Reddy, Mehul S. Raval, J. Adinarayana, Sanjay Chaudhary, 2021-10-11 This book aims to address emerging challenges in the field of agriculture and natural resource management using the principles and applications of data science (DS). The book is organized in three sections, and it has fourteen chapters dealing with specialized areas. The chapters are written by experts sharing their experiences very lucidly through case studies, suitable illustrations and tables. The contents have been designed to fulfil the needs of geospatial, data science, agricultural, natural resources and environmental sciences of traditional universities, agricultural universities, technological universities, research institutes and academic colleges worldwide. It will help the

planners, policymakers and extension scientists in planning and sustainable management of agriculture and natural resources. The authors believe that with its uniqueness the book is one of the important efforts in the contemporary cyber-physical systems.

God's Holy Plan to Save Earth Carol Aubuchon, 2008-01-07 The following message was written for you by God This is God, Creator of all Heaven and Earth. I give this message for you as well as all thus written of Our novel in place. I first wish to tell My children that this book is not part of fictional mind. The lessons within this novel are true presents of faith given of you through My child of earth to present My thoughts of this Holy Plan. Should you be remiss and think otherwise, I will bring suffering of mind around earth through her travel of your countries to impress upon your minds how real this message will be taken by My children. No one will know when I choose this form of event to broadcast My will of your thoughts given Me. But many will fear Our course of action taken when this begins. Now I say, those of you who know Me, will give Me heed of their time and give My daughter just love of her as she brings Our word and direction to you. God has chosen to give earth a chance to change what is written in the Bible about the end of the world. This Plan is Gods Holy way of letting everyone on earth know that through Him all eternity can change. God has no choice but to give love freely to all who He created. This is how Our Heavenly Father has graced us since the beginning of time. Openly and without grudge of those who have moved against His will for their lives. Welcome God into your life for a few hours while you read His Holy terms and conditions regarding this Plan. Be as open minded as you think someone else should be to your ideas, and allow Our Master Being to invite you into His mind for a change. See what God thinks about all the changes mankind has made to confront Satan on his own and how much stronger Our fight against evil would be if we only let Our Father help us. All earth is in turmoil presently, and many people have given God prayers to ask for His help. We have never learned the correct manner to pray of Our Heavenly Father, who justifies our selfish prayer by allowing some correction made us. However, now God wants us to learn the correct terms of Holy Prayer to His being. We need not spend hours in prayer to get what we need to sustain life here on earth. But we need correct manner and guidance from God to know how to live each day according to His plan of our life. Never before in the history of earth, has Our LORD come to us to ask us to give His Soul Peace. But today with the publishing of this Novel of Main Events, God is changing the way He treats mankind for all time. We have never been asked

by Our Creator to give Him this much attention before. God is now within moments of ending earth of Evil due to Satan and his fellow angels, who are tormenting human beings to show their revenge on God for sending them from Heaven. Our Father in Heaven is now creating a new world for us, where love is prevalent above all else done. We need to come to God, our life planner, for details of the way we need to conduct ourselves daily. Should this plan fail and we not live up to the course His plan draws out for us, within the next few short years, destruction of earth will begin. God is asking all mankind to adhere to this plan, regardless of your religion, background, country laws, or efforts forced against you. This is how earth will replace pain in His soul with the love His time spent with us has greatly deserved. Mankind has not given their Heavenly Father love completely as was His will when creating us. God created man to show Him honor and give love back to His being. Every time man touches against the will of Satan, in the presence of The Father, it brings excruciating pain of remorse to His being. Time now has changed, for God is no longer able to withstand our pained attempts of His form. He sees us fall into traps set by Satan, with no knowledge of this invisible beast of prey. Now God is on the at
