Creativity, Inc. (The Expanded Edition) Ed Catmull, Amy Wallace, 2023-09-28 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast

Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as:

- Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better.
- It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them.
- The cost of preventing errors is often far greater than the cost of fixing them.
- A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody.

Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.

Shifting Images of the Hasmoneans Vered No'am, 2018 The shifting image of the Hasmoneans in the eyes of their contemporaries and later generations is a compelling issue in the history of the Maccabean revolt and the Hasmonean commonwealth. Based on a series of six Jewish folktales from the Second Temple period that describe the Hasmonean dynasty and its history from its legendary founders, through achievement of full sovereignty, to downfall, this volume examines the Hasmoneans through the lens of reception history. On the one hand, these brief, colorful legends are embedded in the narrative of the historian of the age, Flavius Josephus; on the other hand, they are scattered throughout the extensive halakhic-exegetical compositions known as rabbinic literature, redacted and compiled centuries later. Each set of parallel stories is examined for the motivation underlying its creation, its original message, language, and the historical context. This analysis is followed by exploration of the nature of the relationship between the Josephan and the rabbinic versions, in an attempt to reconstruct the adaptation of the putative original traditions in the two corpora, and to decipher the disparities, different emphases, reworking, and unique orientations typical of each. These adaptations reflect the reception of the pristine tales and thus disclose the shifting images of the Hasmoneans in later generations and within distinct contexts. The compilation and characterization of these sources which were preserved by means of two such different conduits of

transmission brings us closer to reconstruction of a lost literary continent, a hidden Jewish Atlantis of early pseudo-historical legends and facilitates examination of the relationship between the substantially different libraries and worlds of Josephus and rabbinic literature.

The Joy of the Gospel Pope Francis,2014-10-07 The perfect gift! A specially priced, beautifully designed hardcover edition of *The Joy of the Gospel* with a foreword by Robert Barron and an afterword by James Martin, SJ. "The joy of the gospel fills the hearts and lives of all who encounter Jesus... In this Exhortation I wish to encourage the Christian faithful to embark upon a new chapter of evangelization marked by this joy, while pointing out new paths for the Church's journey in years to come." - Pope Francis This special edition of Pope Francis's popular message of hope explores themes that are important for believers in the 21st century. Examining the many obstacles to faith and what can be done to overcome those hurdles, he emphasizes the importance of service to God and all his creation. Advocating for "the homeless, the addicted, refugees, indigenous peoples, the elderly who are increasingly isolated and abandoned," the Holy Father shows us how to respond to poverty and current economic challenges that affect us locally and globally. Ultimately, Pope Francis demonstrates how to develop a more personal relationship with Jesus Christ, "to recognize the traces of God's Spirit in events great and small." Profound in its insight, yet warm and accessible in its tone, *The Joy of the Gospel* is a call to action to live a life motivated by divine love and, in turn, to experience heaven on earth. Includes a foreword by Robert Barron, author of *Catholicism: A Journey to the Heart of the Faith* and James Martin, SJ, author of *Jesus: A Pilgrimage*

Drive Daniel H. Pink,2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction-at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Inclusive Learning 365 Christopher Bugaj,Karen Janowski, Mike Marotta,Beth Poss,2022-08-03 Designed to be read one day - and page - at a time, this book from four inclusive learning experts offers 365 strategies for implementing technology to design inclusive experiences. Educators across the world are working to design individualized instruction that empowers every student to become experts at learning. These practices provide a pathway for designing inclusive, equitable and accessible educational experiences that meet the needs of every individual learner. This engaging book includes daily strategies accompanied by examples of tools that can be implemented immediately to design meaningful instruction. Topics covered include role-playing games for social-emotional learning, building literacy through captioned video, coding to teach early literacy, text-to-speech for math and reading, and much more! Each daily strategy includes:

- Explanation of how to use the strategy to design inclusive educational experiences.
- Examples of tools that can be used to implement the strategy.
- Alternative ways to use the strategy to extend student learning.
- Images illustrating the strategy or tool.
- Identification of relevant ISTE Standards for Educators and ISTE Standards for Students. Related resources.

The heart of the book is the shift in mindset that occurs by exploring a different practical, inclusive strategy each day and infusing these strategies into everyday practice.

Manifesto Rosa Luxemburg, Karl Marx, Friedrich Engels, Ernesto Che Guevara, 2024-04-09 The three texts this book, all written in vastly different eras —The Communist Manifesto (1848) by Marx and Engels, Reform or Revolution (1899) by Rosa Luxemburg and Socialism and Man in Cuba (1965) by Ernesto Che Guevara—illuminate socialist ideas of the 19th and 20th centuries. For a new generation of activists, these are classic revolutionary writings by four famous rebels, including The Communist Manifesto by Karl Marx and Friedrich Engels; Reform or Revolution by Rosa Luxemburg; and Che Guevara's Socialism and Man in Cuba. Includes an introduction by Cuban Marxist intellectual Armando Hart and a preface by US radical poet Adrienne Rich. The essays in this book, *Manifesto*, were written by three relatively young people—Karl Marx when he was 30, Rosa Luxemburg at 27, Che Guevara at the age of 37. Born into different historical moments and different generations, they shared an energy of hope, an engagement with history, a belief that critical thinking must inform action, and a passion for the world and its human possibilities. Here are urgent conversations from the past that are still being carried on, among new voices, throughout the world.

Laudato Si Pope Francis, 2015-07-18 "In the heart of this world, the Lord of life, who loves us so much, is always present. He does not abandon us, he does not leave us alone, for he has united himself definitively to our earth, and his love constantly impels us to find new ways forward. Praise be to him!" – Pope Francis, *Laudato Si'* In his second encyclical, *Laudato Si'*: On the Care of Our Common Home, Pope Francis draws all Christians into a dialogue with every person on the planet about our common home. We as human beings are united by the concern for our planet, and every living thing that dwells on it, especially the poorest and most vulnerable. Pope Francis' letter joins the body of the Church's social and moral teaching, draws on the best scientific research, providing the foundation for "the ethical and spiritual itinerary that follows." *Laudato Si'* outlines: The current state of our "common home" The Gospel message as seen through creation The human causes of the ecological crisis Ecology and the common good Pope Francis' call to action for each of us Our Sunday Visitor

has included discussion questions, making it perfect for individual or group study, leading all Catholics and Christians into a deeper understanding of the importance of this teaching.

The Great Centennial Exhibition, 1876

Daily Rituals Mason Currey, 2013-04-23 More than 150 inspired—and inspiring—novelists, poets, playwrights, painters, philosophers, scientists, and mathematicians on how they subtly maneuver the many (self-inflicted) obstacles and (self-imposed) daily rituals to get done the work they love to do. Franz Kafka, frustrated with his living quarters and day job, wrote in a letter to Felice Bauer in 1912, “time is short, my strength is limited, the office is a horror, the apartment is noisy, and if a pleasant, straightforward life is not possible then one must try to wriggle through by subtle maneuvers.” Kafka is one of 161 minds who describe their daily rituals to get their work done, whether by waking early or staying up late; whether by self-medicating with doughnuts or bathing, drinking vast quantities of coffee, or taking long daily walks. Thomas Wolfe wrote standing up in the kitchen, the top of the refrigerator as his desk, dreamily fondling his “male configurations”.... Jean-Paul Sartre chewed on Corydrane tablets (a mix of amphetamine and aspirin), ingesting ten times the recommended dose each day ... Descartes liked to linger in bed, his mind wandering in sleep through woods, gardens, and enchanted palaces where he experienced “every pleasure imaginable.” Here are: Anthony Trollope, who demanded of himself that each morning he write three thousand words (250 words every fifteen minutes for three hours) before going off to his job at the postal service, which he kept for thirty-three years during the writing of more than two dozen books ... Karl Marx ... Woody Allen ... Agatha Christie ... George Balanchine, who did most of his work while ironing ... Leo Tolstoy ... Charles Dickens ... Pablo Picasso ... George Gershwin, who, said his brother Ira, worked for twelve hours a day from late morning to midnight, composing at the piano in pajamas, bathrobe, and slippers.... Here also are the daily rituals of Charles Darwin, Andy Warhol, John Updike, Twyla Tharp, Benjamin Franklin, William Faulkner, Jane Austen, Anne Rice, and Igor Stravinsky (he was never able to compose unless he was sure no one could hear him and, when blocked, stood on his head to “clear the brain”).

Tolerance Lars Tønder, 2013-10-07 In *Tolerance*, Lars Tønder offers a thought-provoking theory on what tolerance means in pluralistic societies. Tønder begins by showing the limitations of the way democratic theory currently understands tolerance: either as a form of restraint or as benevolence, but always divorced from what it is that the tolerant person really senses. According to Tønder, what is missing from current theories of tolerance is the idea of pain, or the lived experience of what it means to become tolerant. Introducing what he calls a sensorial orientation to politics and a theory of active tolerance, he argues that the act of becoming tolerant (and the reasoning it entails) depends on sensing the world in an expansive manner attentive to the new and unforeseen. In order to illustrate, he engages with a number of theorists, from Seneca, Spinoza, Nietzsche, Merleau-Ponty, and Marcuse to Locke, Kant and Mill, and he draws upon a wide range of examples, including the 2005 controversy over the Danish cartoons of Muhammad, Sacher-Masoch's *Venus in Furs*, Dave

Chappelle's comedy, and methods of torture used in the war on terror. Tolerance is at once a sweeping account of the history of political thought and an invitation to rethink the meaning of tolerance within the sensorial conditions that define twenty first century democratic politics.
