This Party's Dead Erica Buist, 2021-02-18 What if we responded to death... by throwing a party? By the time Erica Buist's father-in-law Chris was discovered, upstairs in his bed, his book resting on his chest, he had been dead for over a week. She searched for answers (the artery-clogging cheeses in his fridge?) and tried to reason with herself (does daughter-in-law even feature in the grief hierarchy?) and eventually landed on an inevitable, uncomfortable truth: everybody dies. While her husband maintained a semblance of grace and poise, Erica found herself consumed by her grief, descending into a bout of pyjama-clad agoraphobia, stalking friends online to ascertain whether any of them had also dropped dead without warning, unable to extract herself from the spiral of death anxiety... until one day she decided to reclaim control. With Mexico's Day of the Dead festivities as a starting point, Erica decided to confront death head-on by visiting seven death festivals around the world - one for every day they didn't find Chris. From Mexico to Nepal, Sicily, Thailand, Madagascar, Japan and finally Indonesia - with a stopover in New Orleans, where the dead outnumber the living ten to one - Erica searched for the answers to both fundamental and unexpected questions around death anxiety. *This Party's Dead* is the account of her journey to understand how other cultures deal with mortal terror, how they move past the knowledge that they're going to die in order to live happily day-to-day, how they celebrate rather than shy away from the topic of death - and how when this openness and acceptance are passed down through the generations, death suddenly doesn't seem so scary after all.

Book Lovers Emily Henry, 2022-05-03 "One of my favorite authors."—Colleen Hoover An insightful, delightful, instant #1 New York Times bestseller from the author of *Beach Read* and *People We Meet on Vacation*. Named a Most Anticipated Book of 2022 by Oprah Daily • Today • Parade • Marie Claire • Bustle • PopSugar • Katie Couric Media • Book Bub • SheReads • Medium • The Washington Post • and more! One summer. Two rivals. A plot twist they didn't see coming... Nora Stephens' life is books—she's read them all—and she is not that type of heroine. Not the plucky one, not the laidback dream girl, and especially not the sweetheart. In fact, the only people Nora is a heroine for are her clients, for whom she lands enormous deals as a cutthroat literary agent, and her beloved little sister Libby. Which is why she agrees to go to Sunshine Falls, North Carolina for the month of August when Libby begs her for a sisters' trip away—with visions of a small town transformation

for Nora, who she's convinced needs to become the heroine in her own story. But instead of picnics in meadows, or run-ins with a handsome country doctor or bulging-forearmed bartender, Nora keeps bumping into Charlie Lastra, a bookish brooding editor from back in the city. It would be a meet-cute if not for the fact that they've met many times and it's never been cute. If Nora knows she's not an ideal heroine, Charlie knows he's nobody's hero, but as they are thrown together again and again—in a series of coincidences no editor worth their salt would allow—what they discover might just unravel the carefully crafted stories they've written about themselves.

The Cobrasnake Mark Hunter,2022-06-07 A love letter to a time before Instagram and the legendary party scenes of the 2000s that brought together the new millennium's rising stars of pop culture. Under the moniker the Cobrasnake, the photographer Mark Hunter captured the party scenes of Los Angeles and New York during the hipster-glam heyday of the 2000s—and in doing so defined the look of a generation. Armed with just a Polaroid and a primitive website, Cobrasnake captured pioneers of youth culture from Kanye West and Steve Aoki to Jeremy Scott, Katy Perry, and Virgil Abloh—icons of the indie pop world in the making. Intimately connected with the people around him and keyed-in to the edgier fringes of the fashion, music, and art worlds, Hunter photographed influencers before they were influencers, in the wild and at play from the streets of LA to NYC and beyond. Collected here for the first time are more than three hundred of Cobrasnake's favorite images alongside ephemera, from concert tickets and backstage passes to outtakes and unseen photographs from his many adventures. These photographs are records of the last generation of partiers to predate the livestreaming of culture afforded by today's social media—capturing the energy and vibrancy of a time before Instagram.

Believe and Destroy Christian Ingrao,2013-07-11 There were eighty of them. They were young, clever and cultivated; they were barely in their thirties when Adolf Hitler came to power. Their university studies in law, economics, linguistics, philosophy and history marked them out for brilliant careers. They chose to join the repressive bodies of the Third Reich, especially the Security Service (SD) and the Nazi Party's elite protection unit, the SS. They theorized and planned the extermination of twenty million individuals of allegedly 'inferior' races. Most of them became members of the paramilitary death squads known as Einsatzgruppen and participated in the slaughter of over a million people. Based on extensive archival research, Christian Ingrao tells the gripping story of these children of the Great War, focusing on the networks of fellow activists, academics and friends in which they moved, studying the way in which they envisaged war and the 'world of enemies' which, in their view, threatened them. The mechanisms of their political commitment are revealed, and their roles in Nazism and mass murder. Thanks to this pioneering study, we can now understand how these men came to believe what they did, and how these beliefs became so destructive. The history of Nazism, shows Ingrao, is also a history of beliefs in which a powerful military machine was interwoven with personal experiences, fervour, anguish, utopia and cruelty.

Strangers in Their Own Land Arlie Russell Hochschild, 2018-02-20 The National Book Award Finalist and New York Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump A generous but disconcerting look at the Tea Party. . . . This is a smart, respectful and compelling book. —Jason DeParle, The New York Times Book Review When Donald Trump won the 2016 presidential election, a bewildered nation turned to Strangers in Their Own Land to understand what Trump voters were thinking when they cast their ballots. Arlie Hochschild, one of the most influential sociologists of her generation, had spent the preceding five years immersed in the community around Lake Charles, Louisiana, a Tea Party stronghold. As Jedediah Purdy put it in the New Republic, Hochschild is fascinated by how people make sense of their lives. . . . [Her] attentive, detailed portraits . . . reveal a gulf between Hochschild's 'strangers in their own land' and a new elite. Already a favorite common read book in communities and on campuses across the country and called humble and important by David Brooks and masterly by Atul Gawande, Hochschild's book has been lauded by Noam Chomsky, New Orleans mayor Mitch Landrieu, and countless others. The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published, and also includes a readers' group guide at the back of the book.

Why Startups Fail Tom Eisenmann, 2021-03-30 If you want your startup to succeed, you need to understand why startups fail. "Whether you're a first-time founder or looking to bring innovation into a corporate environment, Why Startups Fail is essential reading."—Eric Ries, founder and CEO, LTSE, and New York Times bestselling author of The Lean Startup and The Startup Way Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn't answer it. So he launched a multiyear research project to find out. In Why Startups

Fail, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. • **Bad Bedfellows.** Startup success is thought to rest largely on the founder's talents and instincts. But the wrong team, investors, or partners can sink a venture just as quickly. • **False Starts.** In following the oft-cited advice to "fail fast" and to "launch before you're ready," founders risk wasting time and capital on the wrong solutions. • **False Promises.** Success with early adopters can be misleading and give founders unwarranted confidence to expand. • **Speed Traps.** Despite the pressure to "get big fast," hypergrowth can spell disaster for even the most promising ventures. • **Help Wanted.** Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in short supply of both. • **Cascading Miracles.** Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that failed to fulfill their early promise—from a home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, *Why Startups Fail* is not merely a guide to preventing failure but also a roadmap charting the path to startup success.

Latino Immigrants in the United States Ronald L. Mize,Grace Peña Delgado,2012-02-06 This timely and important book introduces readers to the largest and fastest-growing minority group in the United States - Latinos - and their diverse conditions of departure and reception. A central theme of the book is the tension between the fact that Latino categories are most often assigned from above, and how those defined as Latino seek to make sense of and enliven a shared notion of identity from below. Providing a sophisticated introduction to emerging theoretical trends and social formations specific to Latino immigrants, chapters are structured around the topics of Latinidad or the idea of a pan-ethnic Latino identity, pathways to citizenship, cultural citizenship, labor, gender, transnationalism, and globalization. Specific areas of focus include the 2006 marches of the immigrant rights movement and the rise in neoliberal nativism (including both state-sponsored restrictions such as Arizona's SB1070 and the hate crimes associated with Minutemen vigilantism). The book is a valuable contribution to immigration courses in sociology, history, ethnic studies, American Studies, and Latino Studies. It is one of the first, and certainly the most accessible, to fully take into account the plurality of experiences, identities, and national origins constituting the Latino category.
