**Fast Scrapbooking with 4x6 Photos**, 2012 This ingenious book from the editors of Creating Keepsakes scrapbook magazine encourages readers to scrapbook their layouts with 4 x 6 photos straight from the printer--with minimal or even no cropping required. And best of all, with no time-consuming photo resizing or expensive photo enlargements! This groundbreaking approach helps readers speed up their scrapbooking process and get caught up with their always-growing stack of photos. The book is organized by the number of photos on each layout, which helps readers quickly identify the layouts that will be most helpful to them. Also included are ideas for using 4 x 6 photos to create mini albums, photo gifts for the family, and home décor items.

**The Electronics of Radio** David Rutledge,1999-08-13 This fascinating book provides a stimulating introduction to analog electronics by analysing the design and construction of a radio transceiver. Essential theoretical background is given along with carefully designed laboratory and homework exercises. The author begins with a thorough description of basic electronic components and simple circuits and goes on to describe the key elements of radio electronics, including filters, amplifiers, oscillators, mixers, and antennas. Laboratory exercises lead the reader through the design, construction, and testing of a popular radio transceiver (the NorCal 40A). A diskette containing the widely known circuit simulation software, Puff, is included in the book. This was the first book to deal with elementary electronics in the context of radio. It can be used

as a textbook for introductory analog electronics courses, for more advanced undergraduate classes on radio-frequency electronics, and will also be of great interest to electronics hobbyists and radio enthusiasts.
