Creativity, Inc. (The Expanded Edition) Ed Catmull, Amy Wallace, 2023-09-28 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The

essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as:

- Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better.
- It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them.
- The cost of preventing errors is often far greater than the cost of fixing them.
- A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody.

Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.

Renoir Scala Publishers, Ltd., 2006-06 Renoir masterfully created Luncheon of the Boating Party's enchanting mood by capturing a contemporary moment - 19th-century leisure on the Seine - and the universal appeal of celebration. He also combined several of the traditional categories of painting: still life, landscape, portraiture and genre. The result is a timeless

work that captures the atmosphere of an idyllic place, where friends share the pleasures of food, wine and conversation. Scala's new 4-fold format is ideal for displaying this exquisite painting. It showcases archival photographs that identify the revellers, and x-rays of the painting, which reveal little-known compositional changes, as well as details and images that fold out to bring this late 19th-century icon to life. 38 colour & 19 b/w illustrations

Reverse Design Ana Cristina Broega,Joana Cunha,Helder Carvalho,Manuel Blanco,Guillermo García-Badell,Diana Gómez-Chacón,2018-09-25 The collaboration between the Textile Department of the University of Minho and the Brazilian Association of Studies and Research (ABEPEM) has led to an international platform for the exchange of research in the field of Fashion and Design: CIMODE. This platform is designed as a biennial congress that takes place in different European and Latin American countries with the co-organization of another university in each location. The current edition was jointly organized by the University of Minho and the Centro Superior de Diseño de Moda (CSDMM) - Universidad Politécnica de Madrid. CIMODE's mission is to explore fashion and design from a social, cultural, psychological and communication perspective, and to bring together different approaches and perceptions of practice, education and the culture of design and fashion. Through an interdisciplinary dialogue and intercultural perspective, CIMODE wants to generate and present new scenarios about the present and future of fashion and design. 'DISEÑO AL REVÉS' ('BACKWARD DESIGN') was the central theme of the 4th CIMODE (Madrid, Spain, 21-23 May 2018), which produced a highly topical and relevant number of academic publications presented in this book.

Shifting Images of the Hasmoneans Vered Noam,2018-02-22 The shifting image of the Hasmoneans in the eyes of their contemporaries and later generations is a compelling issue in the history of the Maccabean revolt and the Hasmonean commonwealth. Based on a series of six Jewish folktales from the Second Temple period that describe the Hasmonean dynasty and its history from its legendary founders, through achievement of full sovereignty, to downfall, this volume examines the Hasmoneans through the lens of reception history. On the one hand, these brief, colorful legends are embedded in the narrative of the historian of the age, Flavius Josephus; on the other hand, they are scattered throughout the extensive halakhic-exegetical compositions known as rabbinic literature, redacted and compiled centuries later. Each set of parallel stories is examined for the motivation underlying its creation, its original message, language, and the historical context. This analysis is followed by exploration of the nature of the relationship between the Josephan and the rabbinic versions, in an attempt to reconstruct the adaptation of the putative original traditions in the two corpora, and to decipher the disparities, different emphases, reworking, and unique orientations typical of each. These adaptations reflect the reception of the pristine tales and thus disclose the shifting images of the Hasmoneans in later generations and within distinct contexts. The compilation and characterization of these sources which were preserved by means of two such different conduits of transmission brings us closer to reconstruction of a lost literary continent, a hidden Jewish Atlantis of early pseudo-historical

legends and facilitates examination of the relationship between the substantially different libraries and worlds of Josephus and rabbinic literature.

The Walls of Santiago Terri Gordon-Zolov, Eric Zolov, 2022-05-05 A photo-illustrated record of Chilean protest art, along with reflections on artistic antecedents, global protest movements, and the long shadow cast by Chile's authoritarian past. From October 2019 until the COVID-19 lockdown in March 2020, Chile was convulsed by protests and political upheaval, as what began as civil disobedience transformed into a vast resistance movement. Throughout, the most striking aspects of the protests were the murals, graffiti, and other political graphics that became ubiquitous in Chilean cities. Authors Terri Gordon-Zolov and Eric Zolov were in Santiago to witness and document the protests from their very beginning. The book is beautifully illustrated with over 150 photographs taken throughout the protests. Additional photos will be available on the publisher's website. From the introduction: In the conclusion, we take stock of the crisis of the nation-state in the contemporary era. This chapter brings events into the present moment, noting the ways President Piñera took advantage of the COVID-19 pandemic to reclaim the streets of Santiago, a phenomenon echoed in countries across the globe. While most of the global protest movements were forced to go underground (or into the ether), the Black Lives Matter movement surged in the United States and drew massive amounts of support both domestically and abroad, suggesting a continued wave of grassroots protests. We close with reflections on the continued relevance of walls in a virtual world, the testimonial role that protest graphics play, and the future outlook for revolutionary movements in Chile and worldwide.

Innovations in Derivatives Markets Kathrin Glau, Zorana Grbac, Matthias Scherer, Rudi Zagst, 2016-12-02 This book presents 20 peer-reviewed chapters on current aspects of derivatives markets and derivative pricing. The contributions, written by leading researchers in the field as well as experienced authors from the financial industry, present the state of the art in: • Modeling counterparty credit risk: credit valuation adjustment, debit valuation adjustment, funding valuation adjustment, and wrong way risk. • Pricing and hedging in fixed-income markets and multi-curve interest-rate modeling. • Recent developments concerning contingent convertible bonds, the measuring of basis spreads, and the modeling of implied correlations. The recent financial crisis has cast tremendous doubts on the classical view on derivative pricing. Now, counterparty credit risk and liquidity issues are integral aspects of a prudent valuation procedure and the reference interest rates are represented by a multitude of curves according to their different periods and maturities. A panel discussion included in the book (featuring Damiano Brigo, Christian Fries, John Hull, and Daniel Sommer) on the foundations of modeling and pricing in the presence of counterparty credit risk provides intriguing insights on the debate.

Chinese Films in Focus II Chris Berry, 2017-10-25 Chinese cinema continues to go from strength to strength. After art-house hits like Chen Kaige's *Yellow Earth* (1984) and Wong Kar-wai's *In the Mood for Love* (2000), the Oscar-winning success of Ang Lee's *Crouching Tiger Hidden Dragon* (2000) disproved the old myth that subtitled films could not succeed at the

multiplex. Chinese Films in Focus II updates and expands the original Chinese Films in Focus: 25 New Takes with fourteen brand new essays, to offer thirty-four fresh and insightful readings of key individual films. The new edition addresses films from mainland China, Taiwan, Hong Kong and other parts of the Chinese diaspora and the historical coverage ranges from the 1930s to the present. The essays, by leading authorities on Chinese cinema as well as up-and-coming scholars, are concise, accessible, rich, and on the cutting edge of current research. Each contributor outlines existing writing and presents an original perspective on the film, making this volume a rich resource for classroom use, scholarly research and general reading for anyone wanting to understand more about the historical development and rich variety of Chinese cinema. Racial Spectacles Jonathan Markovitz, 2011-06 *Racial Spectacles: Explorations in Media, Race, and Justice* examines the crucial role the media has played in circulating and shaping national dialogues about race through representations of crime and racialized violence. Jonathan Markovitz argues that mass media racial spectacles often work to shore up racist stereotypes, but that they also provide opportunities to challenge prevalent conceptions of race, and can be seized upon as vehicles for social protest. This book explores a series of mass media spectacles revolving around the news, prime-time television, Hollywood cinema, and the internet that have either relied upon, reconfigured, or helped to construct collective memories of race, crime, and (in)justice. The case studies explored include the Scottsboro interracial rape case of the 1930s, the Kobe Bryant rape case, the Los Angeles Police Department's Rampart scandal, the Abu Ghraib photographs, and a series of racist incidents at the University of California. This book will prove to be important not only for courses on race and media, but also for any reader interested in issues of the media's role in social justice.

Proceedings of the 2nd International Conference on Culture, Design and Social Development (CDS D 2022) Mohd Fauzi bin Sedon M. Dom, Peter Thomas Zabielskis, Xudong Liu, Xiao Liu, 2023-03-02 This is an open access book. Culture is the spiritual activity and product of human society relative to economy and politics. The traditional concept of human beings believes that culture is a social phenomenon, a product created by human beings for a long time, and at the same time a historical phenomenon, which is the accumulation of human society and history. The technical, economical and cultural nature of art design determines that only with high social and economic development can art and culture flourish. Art design is the product of the combination of art and technology. Art design is also a kind of productivity, which promotes the development of social economy. As a driving factor for social and economic development, design art will also better serve the social economy with its own more perfect operating system.
