Top Five Regrets of the Dying Bronnie Ware,2019-08-13 Revised edition of the best-selling memoir that has been read by over a million people worldwide with translations in 29 languages. After too many years of unfulfilling work, Bronnie Ware began searching for a job with heart. Despite having no formal qualifications or previous experience in the field, she found herself working in palliative care. During the time she spent tending to those who were dying, Bronnie's life was transformed. Later, she wrote an Internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so much momentum that it was viewed by more than three million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, The Top Five Regrets of the Dying, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she developed an understanding that it is possible for everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and how we can positively address these issues while we still have the time. The Top Five Regrets of the Dying gives hope for a better world. It is a courageous, life-changing book that will leave you feeling more compassionate and inspired to live the life you are truly here to live.

Collaboration Meets Interactive Spaces Craig Anslow,Pedro Campos,Joaquim Jorge,2017-01-09 This book explores the technological advances and social interactions between interactive spaces, surfaces and devices, aiming to provide new insights into emerging social protocols that arise from the experimentation and long-term usage of interactive surfaces. This edited volume brings together researchers from around the world who investigate interactive surfaces and interaction techniques within large displays, wearable devices, software development, security and emergency management. Providing both theory and practical case studies, the authors look at current developments and challenges into 3D visualization, large surfaces, the interplay of mobile phone devices and large displays, wearable systems and head mounted displays (HMD'S), remote proxemics and interactive wall displays and how these can be employed throughout the home and work spaces. Collaboration Meets Interactive Spaces is both for researchers and industry practitioners, providing readers with a coherent narrative into the current state-of-the-art within interactive surfaces and pervasive display technology, providing necessary

tools and techniques as interactive media increasingly permeates everyday contexts.

Acid Detroit Joe Molloy, 2023-04-11 Acid Detroit tells the story of Motor City through its revolutionary music past and present, in order to find the seeds of radical transformation among its ruins. Acid Detroit is an exhilarating, technicolour view of Detroit's musical and social history from the 1960s to the present day. Redefining the counterculture as a time of Acid Communism, Acid Detroit diverges from most books on the Sixties, which centre on California, to show that Detroit was an unequalled hotbed of radical activism, urban unrest and sonic innovation. Considering Detroit's unique mix of people and cultures and enduring sonic legacies, it covers everything from incendiary garage rock, to European-influenced techno and experimental hip-hop crews, intertwining the artist's lives and works with the city's rise and decline, from its establishment as an industrial powerhouse to the high point of Motor City, into its decline and tentative rebirth. A mind-expanding tour through time and space that explores the lost possibilities, histories and hidden potentials of the city, Acid Detroit reveals a history of resilience and transformation hidden in the shadows of the abandoned factories and warehouses of the Motor City.

Quiet Journal Susan Cain, 2020-03-31 Harness your hidden talents, empower communication at home and at work, and nurture your best self with this guided journal based on the #1 New York Times bestselling phenomenon Quiet. Susan Cain's Quiet permanently changed how we see the psychology of introverts and, equally important, how introverts see themselves. Now here is the companion journal for the textbook introvert, the natural extroverts, and everyone in between, with a self-assessment quiz and powerful prompts that take you on the Quiet journey to becoming a stronger, more confident person. In part one, you'll learn more about yourself and your own mindset and temperament, make progress towards self-awareness, and realize your own authentic qualities and worth. Then, in part two, you'll put that knowledge into practice with prompts for taking action to better empower yourself when communicating with family, friends, or colleagues. With a lay-flat cover, smooth writing paper, and a ribbon marker, Quiet Journal is a beautiful and accessible tool for reflection and exploration.

Digital Extremisms Mark Littler, Benjamin Lee, 2020-01-25 This book explores the use of the internet by (non-Islamic) extremist groups, drawing together research by scholars across the social sciences and humanities. It offers a broad overview of the best of research in this area, including research contributions that address far-right, (non-Islamic) religious, animal rights, and nationalist violence online, as well as a discussion of the policy and research challenges posed by these unique and disparate groups. It offers an academically rigorous, introductory text that addresses extremism online, making it a valuable resource for students, practitioners and academics seeking to understand the unique characteristics such risks present.

International Encyclopedia of Human Geography, 2019-11-29 International Encyclopedia of Human Geography, Second Edition, Fourteen Volume Set embraces diversity by design and captures the ways in which humans share places and view differences based on gender, race, nationality, location and other factors—in other words, the things that make people and

places different. Questions of, for example, politics, economics, race relations and migration are introduced and discussed through a geographical lens. This updated edition will assist readers in their research by providing factual information, historical perspectives, theoretical approaches, reviews of literature, and provocative topical discussions that will stimulate creative thinking. Presents the most up-to-date and comprehensive coverage on the topic of human geography Contains extensive scope and depth of coverage Emphasizes how geographers interact with, understand and contribute to problem-solving in the contemporary world Places an emphasis on how geography is relevant in a social and interdisciplinary context

The Apartment Plot Pamela Robertson Wojcik, 2010-11-11 Rethinks films including *Pillow Talk* and *Rear Window* by identifying the apartment plot as a distinct genre, one in which the urban apartment figures as a central narrative device.

Being There Together Ralph Schroeder, 2010-11-04 Virtual environments provide places for 'being there together', for avatars to interact with each other in computer-generated spaces. They range from immersive systems in which people have life-size tracked avatar bodies to large-scale spaces such as *Second Life* where populations of users socialize in persistent virtual worlds. This book draws together research on how people interact in virtual environments: What difference does avatar appearance make? How do avatars collaborate and play together? How do the type of system and the space affect how people engage with each other? How does interaction between avatars differ from face-to-face interaction? What can social

scientists learn from experiments and other studies of how people interact in virtual environments? What are the ethical and social issues in doing this research, and in the uses of this technology? And how do virtual environments differ from other communication technologies such as videoconferencing systems and other new media? This book is a state-of-the art survey of research on these topics, and offers a framework for understanding this technology and its future implications.

Computational Vision and Bio-Inspired Computing S. Smys, João Manuel R. S. Tavares, Valentina Emilia

Balas, Abdullah M. Iliyasu, 2020-01-06 This proceedings book presents state-of-the-art research innovations in computational vision and bio-inspired techniques. Due to the rapid advances in the emerging information, communication and computing technologies, the Internet of Things, cloud and edge computing, and artificial intelligence play a significant role in the computational vision context. In recent years, computational vision has contributed to enhancing the methods of controlling the operations in biological systems, like ant colony optimization, neural networks, and immune systems. Moreover, the ability of computational vision to process a large number of data streams by implementing new computing paradigms has been demonstrated in numerous studies incorporating computational techniques in the emerging bio-inspired models. The book reveals the theoretical and practical aspects of bio-inspired computing techniques, like machine learning, sensor-based models, evolutionary optimization, and big data modeling and management, that make use of effectual computing processes in the bio-inspired systems. As such it contributes to the novel research that focuses on developing bio-inspired computing solutions for various domains, such as human-computer interaction, image processing, sensor-based single processing, recommender systems, and facial recognition, which play an indispensable part in smart agriculture, smart city, biomedical and business intelligence applications.

The Zimdancehall Revolution Tanaka Chidora, Doreen Rumbidzai Tivenga, Ezra Chitando, 2023-12-09 Zimdancehall is a musical movement in Zimbabwe that has grown significantly since 2010. The Zimdancehall Revolution brings together critical essays on various aspects of Zimdancehall culture by scholars from diverse disciplines. Traditionally, music critics and senior academics have not taken Zimdancehall seriously, regarding it as vulgar, transient, bubble gum, lacking depth, and in short, a fad. There were also allegations that the lyrics influenced factionalism, incited violence and glorified drug use and unbridled promiscuity among the youth. This book affords this movement the protracted intellectual engagement that it deserves and argues that Zimdancehall is more than just a musical genre but an everyday culture, a way of life. The genre's close association with the ghetto is telling and enables critics to look at it as a social movement, a revolution, or a raw, petulant and raging disturbance of peace by those who live their lives on the margins. It is, thus, a violent irruption onto the public space by marginalised young people whose presence as artistes creating art from the margins, simultaneously as victims and agents, circulating in a geography that escapes the limits of nationalist ideological and physical territory, in a way subverts communitarian prescriptions and allows young people entry into the world, albeit in a painful, tumultuous and violent way. The essays range from the mapping of the genre's historical development to theoretical interventions in understanding the genre and its relationship with various aspects of the Zimbabwean society like politics, gender, religion, language, dance, cultural values and other genres.
