Alexander Osterwalder, Yves Pigneur

Century of the Child Juliet Kinchin, Aidan O'Connor, 2012 The book examines individual and collective visions for the material world of children, from utopian dreams for the citizens of the future to the dark realities of political conflict and exploitation. Surveying more than 100 years of toys, clothing, playgrounds, schools, children's hospitals, nurseries, furniture, posters, animation and books, this richly illustrated catalogue illuminates how progressive design has enhanced the physical, intellectual, and emotional development of children and, conversely, how models of children's play have informed experimental aesthetics and imaginative design thinking.

Hallowe'en Party Agatha Christie, 2018-03-22 Detective and mystery stories. At a Halloween party, Joyce, a hostile 13-year-old, boasts that she once witnessed a murder. Within hours her body is found, still in the house, drowned in an apple-bobbing tub. That night Hercule Poirot is called in to find the killer.

The Sober Truth Lance Dodes, Zachary Dodes, 2015-03-17 A powerful exposé of Alcoholics Anonymous, 12-step programs, and the rehab industry—and how a failed addiction treatment model came to dominate America. “A humane, science-based, global view of addiction . . . an essential, bracing critique of the rehab industry and its ideological foundations that we have much to learn from.” —Gabor Maté M.D., author of *In The Realm of Hungry Ghosts* Alcoholics Anonymous has become so infused in our society that it is practically synonymous with addiction recovery. Yet the evidence shows that AA has only a 5–10 percent success rate—hardly better than no treatment at all. Despite this, doctors, employers, and judges regularly refer addicted people to treatment programs and rehab facilities based on the 12-step model. In *The Sober Truth*, acclaimed addiction specialist Dr. Lance Dodes exposes the deeply flawed science that the 12-step industry has used to support its programs. Dr. Dodes analyzes dozens of studies to reveal a startling pattern of errors, misjudgments, and biases. He also pores over the research to highlight the best peer-reviewed studies available and discovers that they reach a grim consensus on the program’s overall success. But *The Sober Truth* is more than a book about addiction. It is also a book about science and how and why AA and rehab became so popular, despite the discouraging data. Drawing from thirty-five years of clinical practice and firsthand accounts submitted by addicts, Dr. Dodes explores the entire story of AA’s rise—from its origins in early fundamentalist religious and mystical beliefs to its present-day place of privilege in politics and media. A powerful response to the monopoly of the 12-step program and the myth that they are a universal solution to addiction, *The Sober*

Truth offers new and actionable information for addicts, their families, and medical providers, and lays out better ways to understand addiction for those seeking a more effective and compassionate approach to this treatable problem.

Creativity, Inc. (The Expanded Edition) Ed Catmull, Amy Wallace, 2023-09-28 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as: • Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better. • It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them. • The cost of preventing errors is often far greater than the cost of fixing them. • A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody. Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.

Manifesto Ernesto Che Guevara, Friedrich Engels, Karl Marx, Rosa Luxemburg, 2015-04-10 "If you are curious and open to the life around you, if you are troubled as to why, how and by whom political power is held and used, if you sense there must be good intellectual reasons for your unease, if your curiosity and openness drive you toward wishing to act with others, to 'do something,' you already have much in common with the writers of the three essays in this book." — Adrienne Rich With a
