**American Girls** Nancy Jo Sales,2017-01-24 A New York Times Bestseller Award-winning Vanity Fair writer Nancy Jo Sales crisscrossed the country talking to more than two hundred girls between the ages of thirteen and nineteen about their experiences online and off. They are coming of age online in a hypersexualized culture that has normalized extreme behavior, from pornography to the casual exchange of nude photographs; a culture rife with a virulent new strain of sexism; a culture in which teenagers are spending so much time on technology and social media that they are not developing basic communication skills. The dominant force in the lives of girls coming of age in America today is social media: Instagram, Whisper, Vine, Youtube, Kik, Ask.fm, Tinder. Provocative, explosive, and urgent, *American Girls* will ignite much-needed conversation about how we can help our daughters and sons negotiate the new social and sexual norms that govern their lives.

**We Were the All-American Girls** Jim Sargent,2013-04-26 Here are 42 interviews with women who competed in the All-American Girls Professional Baseball League. Each interview features data about the player, a short summary of her athletic career, and the player's recollections. A brief history covers the many changes as the league evolved from underhand

pitching with a 12-inch circumference ball in 1943 to overhand pitching, adopted in 1948, through the circuit's final year, 1954, when a regulation baseball was introduced. The interviews range from 1995 to 2012 and reveal details of particular games, highlights of individual careers, the camaraderie of teammates, opponents and fans, and the impact the League made on their lives. Several players recall how the 1992 movie *A League of Their Own* brought the historic All-American League back to life almost 40 years after the final game was played.

**Childhood and Tween Girl Culture** Fiona MacDonald, 2017-01-23 This book explores the ways in which notions of childhood are being influenced by a rapidly expanding consumer-media culture in the 21st Century. It has been argued that new stages of childhood are being created and defined by children's role as consumers. The concept of 'tween', girls aged between 9 and 14, has generated the greatest debate. While the fantasy world of 'tween' offers girls a space to fashion a young, feminine identity it has been widely argued that the consumer-media's messages pressure tween girls to consume and adopt highly sexualised appearances and behaviours. The author considers how the art of consumption for 'tween' girls is intrinsically linked with their desire for independence and belonging, and how their consumption is interwoven with other important social and cultural influences. The book will be of interest to scholars and students in the fields of Childhood and Youth Studies, Cultural Studies, Feminist and Women's Studies and Sociology.

Multiple and intersecting Identities in Qualitative Research Betty Merchant, Arlette Ingram Willis, 2000-11-01 This book extends the current discourse on the role of cultural knowledge in qualitative research, especially research conducted by women of color within their own community. Each author reports on her attempts to conceptualize herself as a researcher while simultaneously trying to honor her cultural connectedness and knowledge. As women researchers analyzing the personal and professional contexts in which their research was conducted, the authors argue that their gender, race, religion, and status have played critical roles in their research agendas. They offer a female perspective, though not a feminist critique per se, for they believe that gender does play a significant role in their research efforts. Equally important, they explore the role that race has played in their research, whether as women of color or white women conducting research among people of color. In reflecting on how their unique positionality allows them to understand relationships across many boundaries, the authors observe how, in most cases, because of their position as women and/or people of color, they have not had some of the traditional problems associated with access to multicultural sites. However, they have encountered other issues and they share how, as researchers, they met and resolved these issues for their particular settings. Each author also discusses how, in addressing these issues, she labored to meet the standards of academia, often at a personal cost. This book challenges existing paradigms by questioning the assumption of objectivity in research. It is essential reading--informative, provocative, and engaging--for researchers and students in research methods, women's studies, critical theory, and cross-

cultural studies.

**Girl Making** Gerry Bloustien,2003 The resulting material challenges previous findings in those feminist and youth anthropological studies based on too narrow a concept of class, ethnicity or populist approaches to culture. Rejecting the still prevalent notion of resistance, this study reveals instead that the girls' activities are more about accommodation to the constraining givens of social life, stretching these to discover their possibilities while simultaneously working hard to remain within their parameters of safety and reassurance. In this conceptual framework popular music and other global cultural texts emerge to gain a new significance within their local settings.--BOOK JACKET.

**Storybook Worlds Made Real** Kathy Merlock Jackson,Mark I. West,2022-04-21 Memorable children's narratives immerse readers in imaginary worlds that bring them into the story. Some of these places have been constructed in the real world--like Pinocchio's Tuscany or Anne of Green Gables' Prince Edward Island--where visitors relive their favorite childhood tales. Theme parks like Walt Disney World and Harry Potter World use technology to engineer enchanting environments that reconnect visitors with beloved fictional settings and characters in new ways. This collection of new essays explores the imagined places we loved as kids, with a focus on the meaning of setting and its power to shape the way we view the world.

**Gender and the Media** Marcia Texler Segal,Vasilikie (Vicky) Demos,2018-11-19 A variety of print, audio and visual media, including comics, trade publications, music and newspapers, are considered to explore the portrayal of gender and gender-related issues. With a focus on girls and women, the chapters ponder how media formats both shape, and are shaped by, the social order.

**The All-American Girls After the AAGPBL** Kat D. Williams,2017-03-31 The hit 1992 film *A League of Their Own* made the All-American Girls Professional Baseball League famous. But the players' stories remain largely untold. The 600 women who played for the AAGPBL through the 1940s and 1950s enjoyed a rare opportunity to lead independent lives as well-paid professional athletes. Their experiences in the league led many to education and careers they never imagined. As teachers, coaches and role models, they strove to broaden the horizons of girls and young women. Many continued to be involved in athletics, supporting the efforts leading to Title IX and the women's sports revolution. Today, they are dedicated to preserving the history of women in baseball and creating opportunities for girls to play.
