Creativity, Inc. (The Expanded Edition) Ed Catmull, Amy Wallace, 2023-09-28 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as:

- Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better.
- It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them.
- The cost of preventing errors is often far greater than the cost of fixing them.
- A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody.

Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And *Creativity, Inc.* explores how it is done.

Shifting Images of the Hasmoneans Vered Noam,2018-02-16 The shifting image of the Hasmoneans in the eyes of their contemporaries and later generations is a compelling issue in the history of the Maccabean revolt and the Hasmonean commonwealth. Based on a series of six Jewish folktales from the Second Temple period that describe the Hasmonean dynasty and its history from its legendary founders, through achievement of full sovereignty, to downfall, this volume examines the Hasmoneans through the lens of reception history. On the one hand, these brief, colorful legends are embedded in the narrative of the historian of the age, Flavius Josephus; on the other hand, they are scattered throughout the extensive halakhic-exegetical compositions known as rabbinic literature, redacted and compiled centuries later. Each set of parallel stories is examined for the motivation underlying its creation, its original message, language, and the historical context. This analysis is followed by exploration of the nature of the relationship between the Josephan and the rabbinic versions, in an attempt to reconstruct the adaptation of the putative original traditions in the two corpora, and to decipher the disparities, different emphases, reworking, and unique orientations typical of each. These adaptations reflect the reception of the pristine tales and thus disclose the shifting images of the Hasmoneans in later generations and within distinct contexts. The compilation and characterization of these sources which were preserved by means of two such different conduits of transmission brings us closer to reconstruction of a lost literary continent, a hidden Jewish Atlantis of early pseudo-historical legends and facilitates examination of the relationship between the substantially different libraries and worlds of Josephus and rabbinic literature.

Start with Why Simon Sinek,2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Mathematical Surprises Mordechai Ben-Ari,2022-09-07 This is open access book provides plenty of pleasant mathematical surprises. There are many fascinating results that do not appear in textbooks although they are accessible with a good knowledge of secondary-school mathematics. This book presents a selection of these topics including the mathematical formalization of origami, construction with straightedge and compass (and other instruments), the five- and six-color theorems, a taste of Ramsey theory and little-known theorems proved by induction. Among the most surprising theorems are the Mohr-Mascheroni theorem that a compass alone can perform all the classical constructions with straightedge and compass, and Steiner's theorem that a straightedge alone is sufficient provided that a single circle is given. The highlight of the book is a detailed presentation of Gauss's purely algebraic proof that a regular heptadecagon (a regular polygon with seventeen sides) can be constructed with straightedge and compass. Although the mathematics used in the book is elementary (Euclidean and analytic geometry, algebra, trigonometry), students in secondary schools and colleges, teachers, and other interested readers will relish the opportunity to confront the challenge of understanding these surprising

theorems. Supplementary material to the book can be found at <https://github.com/motib/surprises>.

Human Rights, Suffering, and Aesthetics in Political Prison Literature Yenna Wu,2011-06-16 This interdisciplinary volume of essays studies human rights in political prison literature, while probing the intersections of suffering, politics, and aesthetics in an interliterary and intercultural context. As the first book to explore the concept of global aesthetics in political prison narratives, it demonstrates how literary insight enhances the study of human rights. Covering varied geographical and geopolitical regions, this collection encourages comparative analyses and cross-cultural understanding. Seeking to interrogate linguistic, structural, and cultural constructions of the political prison experience, it highlights the literary aspects without losing sight of the political and the theoretical. The contributors cross various disciplinary boundaries and

adopt different interpretive perspectives in analyzing prison narratives, especially memoirs, from such diverse countries as China, Egypt, Morocco, Syria, Romania, Russia, Uruguay, and the U.S. The volume emphasizes the literary works produced since the second half of the twentieth century, particularly since the political seismic shift in 1989. The authors treated range from the canonical to the less well-known: Nawal El Saadawi, Varlam Shalamov, Zhang Xianliang, Cong Weixi, Wumingshi, Carlos Liscano, Fatna El Bouih, Nabil Sulayman, Faraj Bayraqdar, Hasiba 'Abdallahman, Tahar Ben Jelloun, Nicolae Steinhardt, Irina Ratushinskaya, etc. Critical issues investigated include how the writers represent their sufferings, experiences, and emotions during incarceration; their strategies of survival; and how political prison literature can reveal hidden violations of human rights, while resisting official discourse and serving other functions in society. Examining the commonalities and differences in global experiences of imprisonment, the eight chapters engage with the aesthetics of self-making and resistance, individual and collective memory, denial and conversion, catharsis and redemption, and the experiencing and witnessing of trauma. Topics also include the politics of remembering and the politics of representation, such as the problematic relationship between narrative, language, and representations of torture. Similarly under discussion are prison aesthetics of happiness, the role of spectacle in the criminal justice system, and the intersection of prison, gender, and silences. At a juncture when more and more people all over the world actively defy repressive regimes and demand political reform, this book makes a timely contribution to the advocacy and discourse of universal human rights.

Gaelic Influence in the Northumbrian Kingdom Fiona Edmonds, 2019 WINNER OF THE FRANK WATSON BOOK PRIZE 2021. SHORTLISTED IN SCOTLAND'S NATIONAL BOOK AWARDS 2021 The first full-scale, interdisciplinary treatment of the wide-ranging connections between the Gaelic world and the Northumbrian kingdom. Northumbria was the most northerly Anglo-Saxon kingdom; its impressive landscape featured two sweeping coastlines, which opened the area to a variety of cultural connections. This book explores influences that emanated from the Gaelic-speaking world, including Ireland, the Isle of Man, Argyll and the kingdom of Alba (the nascent Scottish kingdom). It encompasses Northumbria's Golden Age, the kingdom's political and scholarly high-point of the seventh and early eighth centuries, and culminates with the kingdom's decline and fragmentation in the Viking Age, which opened up new links with Gaelic-Scandinavian communities. Political and ecclesiastical connections are discussed in detail; the study also covers linguistic contact, material

culture and the practicalities of travel, bringing out the realities of contemporary life. This interdisciplinary approach sheds new light on the west and north of the Northumbrian kingdom, the areas linked most closely with the Gaelic world. Overall, the book reveals the extent to which Gaelic influence was multi-faceted, complex and enduring. Dr FIONA EDMONDS is Reader in History and Director of the Regional Heritage Centre at Lancaster University.

Prisoners of Conscience Gerard A. Hauser, 2012-08-16 Prisoners of Conscience continues the work begun by Gerard A. Hauser in Vernacular Voices: The Rhetoric of Publics and Public Spheres, winner of the National Communication Association's Hochmuth Nichols Award. In his new book, Hauser examines the discourse of political prisoners, specifically the discourse of prisoners of conscience, as a form of rhetoric in which the vernacular is the main source of available appeals and the foundation for political agency. Hauser explores how modes of resistance employed by these prisoners constitute what he deems a thick moral vernacular rhetoric of human rights. Hauser's work considers in part how these prisoners convert universal commitments to human dignity, agency, and voice into the moral vernacular of the society and culture to which their rhetoric is addressed. Hauser grounds his study through a series of case studies, each centered on a different rhetorical mechanism brought to bear in the act of resistance. Through a transnational rhetorical analysis of resistance within political prisons, Hauser brings to bear his skills as a rhetorical theorist and critic to illuminate the rhetorical power of resistance as tied to core questions in contemporary humanistic scholarship and public concern.

The Walls of Santiago Terri Gordon-Zolov, Eric Zolov, 2022-05-05 A photo-illustrated record of Chilean protest art, along with reflections on artistic antecedents, global protest movements, and the long shadow cast by Chile's authoritarian past. From October 2019 until the COVID-19 lockdown in March 2020, Chile was convulsed by protests and political upheaval, as

what began as civil disobedience transformed into a vast resistance movement. Throughout, the most striking aspects of the protests were the murals, graffiti, and other political graphics that became ubiquitous in Chilean cities. Authors Terri Gordon-Zolov and Eric Zolov were in Santiago to witness and document the protests from their very beginning. The book is beautifully illustrated with over 150 photographs taken throughout the protests. Additional photos will be available on the publisher's website. From the introduction: In the conclusion, we take stock of the crisis of the nation-state in the contemporary era. This chapter brings events into the present moment, noting the ways President Piñera took advantage of the COVID-19 pandemic to reclaim the streets of Santiago, a phenomenon echoed in countries across the globe. While most of the global protest movements were forced to go underground (or into the ether), the Black Lives Matter movement surged in the United States and drew massive amounts of support both domestically and abroad, suggesting a continued wave of grassroots protests. We close with reflections on the continued relevance of walls in a virtual world, the testimonial role that protest graphics play, and the future outlook for revolutionary movements in Chile and worldwide.

Racial Spectacles Jonathan Markovitz, 2011-06 *Racial Spectacles: Explorations in Media, Race, and Justice* examines the crucial role the media has played in circulating and shaping national dialogues about race through representations of crime and racialized violence. Jonathan Markovitz argues that mass media racial spectacles often work to shore up racist stereotypes, but that they also provide opportunities to challenge prevalent conceptions of race, and can be seized upon as vehicles for social protest. This book explores a series of mass media spectacles revolving around the news, prime-time television, Hollywood cinema, and the internet that have either relied upon, reconfigured, or helped to construct collective memories of race, crime, and (in)justice. The case studies explored include the Scottsboro interracial rape case of the 1930s, the Kobe Bryant rape case, the Los Angeles Police Department's Rampart scandal, the Abu Ghraib photographs, and a series of racist incidents at the University of California. This book will prove to be important not only for courses on race and media, but also for any reader interested in issues of the media's role in social justice.
