One Word for Kids Jon Gordon, Dan Britton, Jimmy Page, 2019-11-05 From the authors who created the One Word movement, impacting schools, businesses, and sports teams around the world, comes a charming fable that can be read and shared by everyone. If you could choose only one word to help you have your best year ever, what would it be? Love? Fun? Believe? Brave? It's probably different for everyone. How you find your word is just as important as the word itself. And once you know your word, what do you do with it? In *One Word for Kids*, bestselling author Jon Gordon—along with coauthors Dan Britton and Jimmy Page—asks these questions to children and adults of all ages, teaching an important life lesson in the process. This engaging, fully illustrated fable follows Stevie, a young boy falling asleep on the first day of school. His teacher gives the class an assignment: to find the one word that will help them have their best year ever. To discover their one word, they must look inside themselves, look up, and look out. At home, Stevie is upset because he can't find his word. After his dad offers some helpful advice, Stevie excitedly begins the quest for his word. His search helps him discover a lot about himself, what he loves, and what is important to him. An easy read with a powerful message, *One Word for Kids* appeals to readers of all ages and is an ideal entry point into discussing a valuable lesson in a fun and engaging way.

My One Word Mike Ashcraft, Rachel Olsen, 2012 The concept of *My One Word* is simple. Lose the long list of resolutions--all your sweeping promises to change--and do something about one thing this year instead of nothing about everything. As you focus on your word over an extended period of time, you position yourself for God to form your character at a deep, sustainable level. Growth and change will result. Author Mike Ashcraft, who has led his megachurch through this *My One Word* project for more than five years, and Proverbs 31 Ministries author and speaker Rachel Olsen, who has lived it, are encouraging, insightful, good-humored, yet realistic in this enjoyable read. In these 52 devotions, Cleere Cherry encourages you to be intentional about renewing your mind without attempting to be perfect or set unrealistic expectations. For example, the year she chose the word “balance,” her career moved to a whole new level. The pressures on Debbie to be speaking, promoting, and mostly living on the road were overwhelming. It was her yearlong focus on that all-too-difficult word balance, and a plea from a lonely granddaughter, that helped her refine her schedule. You'll be encouraged to find your own word to guide you, and see how one perfect word can make all the difference in a spiritually fulfilling life. In the tradition of *One Simple Act* and *God's Guest List*, *One Perfect*

Off the Clock Laura Vanderkam, 2018-05-29 I well recall a conversation with an executive I hoped to interview about her astonishing productivity. I began our call with an assurance that I would not take much of her time. She laughed. 'Oh, I have all the time in the world,' she said. Most of us feel constantly behind, unsure how to escape feeling oppressed by busyness. Laura Vanderkam, unlike other time-management gurus, believes that in order to get more done, we must first feel like we have all the time in the world. Think about it: why haven't you trained for that 5K or read War and Peace? Probably because you feel beaten down by all the time you don't seem to have. In this book, Vanderkam reveals the seven counterintuitive principles the most time-free people have adopted. She teaches mindset shifts to help you feel calm on the busiest days and tools to help you get more done without feeling overwhelmed. You'll meet people such as... ♦ An elementary school principal who figured out how to spend more time mentoring teachers, and less time supervising the cafeteria ♦ An executive who builds lots of meeting-free space into his calendar, despite managing teams across multiple continents ♦ A CEO who does focused work in a Waffle House early in the morning, so he can keep an open door and a relaxed mindset all day ♦ An artist who overcame a creative block, and reached new heights of productivity, by being more gentle with herself, rather than more demanding The strategies in this book can help if your life feels out of control, but they can also help if you want to take your career, your relationships, and your personal happiness to the next level. Vanderkam has packed this book with insights from busy yet relaxed professionals, including time makeovers of people who are learning how to use these tools. Off the Clock can inspire the rest of us to create lives that are not only productive, but enjoyable in the moment.

Why Startups Fail Tom Eisenmann, 2021-03-30 If you want your startup to succeed, you need to understand why startups fail. “Whether you’re a first-time founder or looking to bring innovation into a corporate environment, Why Startups Fail is essential reading.”—Eric Ries, founder and CEO, LTSE, and New York Times bestselling author of *The Lean Startup* and *The Startup Way* Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn’t answer it. So he launched a multiyear research project to find out. In *Why Startups Fail*, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. • **Bad Bedfellows.** Startup success is thought to rest largely on the founder’s talents and instincts. But the wrong team, investors, or partners can sink a venture just as quickly. • **False Starts.** In following the oft-cited advice to “fail fast” and to “launch before you’re ready,” founders risk wasting time and capital on the wrong solutions. • **False Promises.** Success with early adopters can be misleading and give founders unwarranted confidence to expand. • **Speed Traps.** Despite the pressure to “get big fast,” hypergrowth can spell disaster for even the most promising ventures. • **Help Wanted.** Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in short supply of both. • **Cascading Miracles.** Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that failed to fulfill their early promise—from a home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, *Why Startups Fail* is not merely a guide to preventing failure but also a roadmap charting the path to startup success.

The 5th Season: New year ku (books 1 & 2 of 4) Robin D. Gill, 2007 In this book, the first of a series, Robin D. Gill, author of the highly acclaimed *Rise, Ye Sea Slugs!* and *Cherry Blossom Epiphany*, the largest single-theme anthologies of poetry ever published, explores the traditional Japanese New Year through 2,000 translated haiku (mostly 17-20c). The New Year, R.H. Blyth once wrote, is a season by itself. That was nowhere so plain as in the world of haiku, where *saijiki*, large collections called of *ku* illustrating hundreds, if not thousands of briefly explained seasonal themes, generally comprised five volumes, one for each season. Yet, the great doyen of haiku gave this fifth season, considered the first season when it came at

the head of the Spring rather than in mid-winter, only a tenth of the pages he gave to each of the other four seasons (20 vs. 200). Was Blyth, Zen enthusiast, not enamored with ritual? Or, was he loath to translate the New Year with its many cultural idiosyncrasies (most common to the Sinosphere but not to the West), because he did not want to have to explain the haiku? It is hard to say, but, with these poems for the re-creation of the world, Robin D. Gill, aka keigu (respect foolishness, or respect-fool), rushes in where even Blyth feared to tread to give this supernatural or cosmological season - one that combines aspects of the Solstice, Christmas, New Year's, Easter, July 4th and the Once Upon a Time of Fairy Tales - the attention it deserves. With G.K. Chesterton's words, evoking the mind of the haiku poets of old, the author-publisher leaves further description of the content to his reader-reviewers. The man standing in his own kitchen-garden with the fairyland opening at the gate, is the man with large ideas. His mind creates distance; the motor-car stupidly destroys it. (G.K. Chesterton: Heretics 1905)

Good Chemistry Julie Holland, 2020-06-16 A psychiatrist and psychedelic researcher explores the science of connection—why we need it, how we've lost it, and how we might find it again. We are suffering from an epidemic of disconnection that antidepressants and social media can't fix. This state of isolation puts us in "fight or flight mode," deranging sleep, metabolism and libido. What's worse, we're paranoid of others. This kill-or-be-killed framework is not a way to live. But, when we feel safe and loved, we can rest, digest, and repair. We can heal. And it is only in this state of belonging that we can open up to connection with others. In this powerful book, Holland helps us to understand the science of connection as revealed in human experiences from the spiritual to the psychedelic. The key is oxytocin—a neurotransmitter and hormone produced in our bodies that allows us to trust and bond. It fosters attachment between mothers and infants, romantic partners, friends, and even with our pets. There are many ways to reach this state of mental and physical wellbeing that modern medicine has overlooked. The implications for our happiness and health are profound. We can find oneness in meditation, in community, or in awe at the beauty around us. Another option: psychedelic medicines that can catalyze a connection with the self, with nature, or the cosmos. Good Chemistry points us on the right path to forging true and deeper attachments with our own souls, to one another, and even to our planet, helping us heal ourselves and our world.
