Concept and Design Developments in School Improvement Research Arnoud Oude Groote Beverborg,Tobias Feldhoff,Katharina Maag Merki,Falk Radisch,2021 This open access book discusses challenges in school improvement research and different methodological approaches that have the potential to foster school improvement research. Research on school improvement and accountability analysis places high demands on a study's design and method. The potential of combining the depth of case studies with the breath of quantitative measures and analyses in a mixed-methods design seems very promising. Consequently, the focus of the book lies on innovative methodological approaches. The book chapters address design, measurement, and analysis developments as well as theoretical and conceptual developments. The relevance of the research presented in the chapters for educational accountability is discussed in the book's discussion chapter. More specifically, authors present one specific innovative methodological approach and clarify that approach with a concrete example in the context of school improvement, based on empirical data when possible. In this way, this book helps researchers designing complex useful studies.

Design Law Dana Beldiman,2024-09-06 This book provides a comprehensive assessment of the current legal landscape of global design law. It includes practice-based and analytical accounts of national design laws from several representative jurisdictions and delves into the practical and theoretical dimensions of some of the most urgent procedural issues facing this legal field.

*Proceedings of the 2nd International Conference on Culture, Design and Social Development (CDSO 2022)* Mohd Fauzi bin Sedon M. Dom,Peter Thomas Zabielskis,Xudong Liu,Xiao Liu,2023-03-02 This is an open access book. Culture is the spiritual activity and product of human society relative to economy and politics. The traditional concept of human beings believes that culture is a social phenomenon, a product created by human beings for a long time, and at the same time a historical phenomenon, which is the accumulation of human society and history. The technical, economical and cultural nature of art design determines that only with high social and economic development can art and culture flourish. Art design is the product of the combination of art and technology. Art design is also a kind of productivity, which promotes the

development of social economy. As a driving factor for social and economic development, design art will also better serve the social economy with its own more perfect operating system. The 2nd International Conference on Culture, Design and Social Development (CDSO 2022) was held in Nanjing from December 2 to 4, 2022. The purpose of the conference is to provide an international platform for experts, scholars, engineers and technicians, and technical R&D personnel engaged in related fields such as culture, design and social development, to share scientific research results, broaden research ideas, collide with new ideas, and strengthen academic research, and to explore the key challenges and research directions faced by the development of this field, and promote the industrialization cooperation of academic achievements. Experts, scholars, business people and other relevant personnel from universities and research institutions at home and abroad are cordially invited to attend and exchange.

**Collaborative Curriculum Design for Sustainable Innovation and Teacher Learning** Jules Pieters, Joke Voogt, Natalie Pareja Roblin, 2019-09-19 This open access book provides insight into what it takes to actively involve teachers in the curriculum design process. It examines different aspects of teacher involvement in collaborative curriculum design, with specific attention to its implications for sustainable curriculum innovation and teacher learning. Divided into six sections, the book starts out by introducing the notion of collaborative curriculum design and discusses its historical and theoretical foundations. It describes various approaches commonly adopted to actively involve teachers in the (co-)design of curriculum materials. Sections two and three provide examples of what key phases in the curriculum design process - such as needs analysis, design and development, and implementation - look like across various collaborative curriculum design projects. Section four reports on the impact of collaborative curriculum design on student learning, teacher practices, teacher professional growth, and institutional change. Building on the research evidence about the outcomes of collaborative curriculum design, section five focuses on sustainability, scaling-up and curriculum leadership issues, which are key to the continuation and further evolution of curriculum innovations. Future perspectives are addressed in section six with emphasis on the infrastructure of a sustainable curriculum innovation.

**Proceedings of the International Conference of Innovation in Media and Visual Design (IMDES 2023)** Yusup Sigit Martyastiadi, Lalitya Talitha Pinasthika, Aditya Satyagraha, 2023-12-03 This is an open access book. The existence of digital virtuality in the midst of an information society has become an integral component of the human existential condition. New spaces for exploring the engagement of design and its impact on humans in digital virtuality continue to grow exponentially. Innovation in Media and Visual Design (IMDES 2023) welcomes thoughts and works of academics, researchers and practitioners related to virtuality, design, technology, mass media and people from various perspectives, disciplines and

fields of knowledge.

**Circular Economy Design and Management in the Built Environment** Luís Bragança,

*Advances in Fashion and Design Research II* Joana Cunha,Ana Cristina Broega,Helder Carvalho,Bernardo

Providência,2023-09-20 This book offers a multidisciplinary perspective on research and developments at the interface between industrial design, textile engineering and fashion. It covers advances in fashion and product design, and in textile production alike, reporting on sustainable industrial procedures, ergonomics research and practices, new materials and circular design, as well as issues in marketing, communication, and education. A special emphasis is given to universal and inclusive strategies in design. Gathering the proceedings of the 6th International Fashion and Design Congress, CIMODE 2023, held on October 4-6, 2023, in Mexico City, Mexico, this book offers extensive information and a source of inspiration to both researchers and professionals in the field of fashion, design, engineering, communication as well as education. Chapter 26 is available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com](http://link.springer.com).

*Advances on Mechanics, Design Engineering and Manufacturing III* Lionel Roucoules,Manuel Paredes,Benoit Eynard,Paz Morer Camo,Caterina Rizzi,2021-04-21 This open access book gathers contributions presented at the International Joint Conference on Mechanics, Design Engineering and Advanced Manufacturing (JCM 2020), held as a web conference on June 2-4, 2020. It reports on cutting-edge topics in product design and manufacturing, such as industrial methods for integrated product and process design; innovative design; and computer-aided design. Further topics covered include virtual simulation and reverse engineering; additive manufacturing; product manufacturing; engineering methods in medicine and education; representation techniques; and nautical, aeronautics and aerospace design and modeling. The book is organized into four main parts, reflecting the focus and primary themes of the conference. The contributions presented here not only provide researchers, engineers and experts in a range of industrial engineering subfields with extensive information to support their daily work; they are also intended to stimulate new research directions, advanced applications of the methods discussed and future interdisciplinary collaborations.

*Multidisciplinary Aspects of Design* Francesca Zanella,Giampiero Bosoni,Elisabetta Di Stefano,Gioia Laura Iannilli,Giovanni Matteucci,Rita Messori,Raffaella Trocchianesi,2023-12-30 This open access book gathers the contributions

from the Design! OPEN International Conference, held in Parma, Italy in May 2022. The conference explored the multidisciplinary aspects of design starting from its dimensions: objects (design as focused on the object, on its functional and symbolic dimension, and at the same time on the object as a tool for representing cultures), processes (the designer's self-reflective moment which is focused on the analysis and on the definition of processes in various contexts, spanning innovation, social engagement, reflection on emergencies or forecasting), experiences (design as a theoretical and practical strategy aimed at facilitating experiential interactions among people, people and objects or environments), and narratives (making history, representing through different media, archiving, narrating, and exhibiting design). The contributions, which were selected by means of a rigorous international peer-review process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaboration among different specialists.

Towards an Emissions Trading System in Mexico: Rationale, Design and Connections with the Global Climate Agenda

Simone Lucatello, 2021-12-16 This Open Access book provides detailed information about the incoming Mexican Emissions Trading System, including an analysis on why the system was implemented, how the system was designed, how it operates, how it could work, and how it could be strengthened by 2023 when it will be formally launched. This document is aimed at those who want to understand how an ETS can operate in an emerging economy. Although it has been written for experts and non-experts, this book does not provide the underlying theory of market-based instruments and emissions trading systems in general. The book can be read from start to finish, but can also be used as a reference for specific components of regional ETSs. The book draws upon a meticulous study of background documents and fieldwork from different authors to tell the story of how a Mexican ETS, the first of its kind in Latin America, can be set in the country. The emissions trading system covers many greenhouse gas emissions and has been hailed as one of the cornerstones of the Mexican climate policy. The book also examines and explains how the ETS is designed and implemented.
