The Things That Matter Nate Berkus,2012-10-16 Does your home tell the story of who you are? In The Things That Matter, Nate Berkus shares intimate stories from his life, introduces us to people who influenced him and helped him forge his sense of style, and opens up about the remarkable experiences that have left him forever changed, all of which find expression in how he lives today. From his most cherished flea market finds, to his beloved books and photos, to the many extraordinary mementos he's collected in his travels, every piece defines who he's become and what endures in his world. Berkus invites readers into his own home as well as into twelve others, including a sleek steel-and-glass high-rise that soars above Chicago, a rustic cottage in the Hudson Valley, an ultra-chic atelier that maximizes every inch of space, a Greenwich

Village townhouse that holds multiple art collections, and a study in meaningful minimalism in Marfa, Texas. The distinctive interiors beautifully displayed in this book offer revealing portraits of their owners' lives and the inspiring choices that have made them who they are today. *The Things That Matter* convincingly lays out Nate Berkus's philosophy that things do matter. Our homes tell our stories, they reflect the places we've been and the people we've loved along the way—and there can be no more beautiful design for living than that. The Anna Quilt Donna Bender Hood,2015-03-16 When Gus Compton dies, he leaves behind an unbreakable trust regarding the old Compton house, the surrounding land, and the beautiful lake. The Anna quilt has hung in the house for so many years that no one remembers Anna or when the quilt first arrived. Besides, it is old, poorly stitched, and really rather ugly. The death of Gus Compton and the reading of his unusual trust brings out assorted family members, both bad and good. And as Gus's good friend Reese Trainor said, Gus probably laughed all the way through the Pearly Gates.

Stripes Linda O'Keeffe,2012-10-23 In *Stripes: Design Between the Lines*, writer and design expert Linda O'Keeffe explores the lineage of lines as they shape culture, art, and style. The illustrations create a rollicking visual ride while the accompanying text—by turns witty and weighty—shows how these potent, sometimes-charged symbols have even changed the course of world history. The simplest and most ancient of all decorative markings, stripes perpetually fascinate. Natural inspirations in the forms of zebra stripes, rippled sand dunes, and intricately gnarled wood grain have led us to use stripes in every permutation: on human bodies from elaborate woven textiles to the iconic Breton T-shirt to sharp pin-striped suits, in art from the earliest cave paintings to vibrant op art canvases, and in industrial design from World War II-era dazzle battleships to the ubiquitous bar code. Their appeal endures. With over 250 full-color images, *Stripes: Design Between the Lines* provides a wholly original look at one of the most recognizable patterns of all time. Eight thematic chapters present stripes in every conceivable manifestation, from diabolical to decorative, historic to postmodern. The result is a wonderfully varied visual collage that shows how design-savvy people throughout the ages and recent design stars including Jonathan Adler, Geoffrey Beene, Jamie Drake, Jean Paul Gaultier, Josef Hoffman, Sol LeWitt, Todd Oldham, Alberto Pinto, Giò Ponti, Karim Rashid, David Rockwell, Carolyn Roehm, Paul Smith, and Vivienne Westwood have incorporated stripes into their work and daily lives.
