Good Clean Fun Nick Offerman,2016-10-18 Nick Offerman, woodworker, actor, and co-host of NBC's Making It, invites

you on a hilarious and informative woodworking adventure that takes you behind the scenes of his very own woodshop. Nestled among the glitz and glitter of Tinseltown is a testament to American elbow grease and an honest-to-god hard day's work: Offerman Woodshop. Captained by hirsute woodworker, actor, comedian, and writer Nick Offerman, the shop produces not only fine handcrafted furniture, but also fun stuff—kazoos, baseball bats, ukuleles, mustache combs, even cedar-strip canoes. Now Nick and his ragtag crew of champions want to share their experience of working at the Woodshop, tell you all about their passion for the discipline of woodworking, and teach you how to make a handful of their most popular projects along the way. This book takes readers behind the scenes of the woodshop, both inspiring and teaching them to make their own projects and besotting them with the infectious spirit behind the shop and its complement of dusty wood-elves. In these pages you will find a variety of projects for every skill level, with personal, easy-to-follow instructions by the OWS woodworkers themselves; and, what's more, this tutelage is augmented by mouth-watering color photos (Nick calls it wood porn). You will also find writings by Nick, offering recipes for both comestibles and mirth, humorous essays, odes to his own woodworking heroes, insights into the ethos of woodworking in modern America, and other assorted tomfoolery. Whether you've been working in your own shop for years, or if holding this stack of compressed wood pulp is as close as you've ever come to milling lumber, or even if you just love Nick Offerman's brand of bucolic yet worldly wisdom, you'll find Good Clean Fun full of useful, illuminating, and entertaining information.

Someone Has to Care Christian Scharen,2021-11-08 Welcome to this exploration of the Roots of hip-hop. The roots of hip-hop, as in: the Roots--a story of one of the most enduring, multi-talented, and successful groups of the past thirty years in any genre--and the story of the roots of hip-hop, that is, the story of hip-hop, a musical culture born in New York's South Bronx during the 1970s. Alongside the two hip-hop stories I tell here, I also tell the story about what God has to do with the Roots of hip-hop--a theological story, if you will. I describe how, in the process of becoming one of the most creative faith-rooted voices in music today, the Roots' developed a calling as artists. And I do this, in part, to say that you, too, can discover and live your prophetic calling. You can't help but be inspired by the Roots. Yet the best result of that is that you become inspired to be your most playful, passionate, purposeful, prophetic self in the world around you.

Special attention is given to drying white wood, such as hard maple and ash, without sticker shadow or other discoloration. Several special drying methods, such as solar drying, are described, and proper techniques for storing dried lumber are discussed. Suggestions are provided for ways to economize on drying costs by reducing drying time and energy

demands when feasible. Each chapter is accompanied by a list of references. Some references are cited in the chapter; others are listed as additional sources of information.

Option B Sheryl Sandberg,Adam Grant,2017-04-24 #1 NEW YORK TIMES BEST SELLER • From authors of *Lean In* and *Originals*: a powerful, inspiring, and practical book about building resilience and moving forward after life’s inevitable setbacks After the sudden death of her husband, Sheryl Sandberg felt certain that she and her children would never feel pure

joy again. "I was in 'the void,'" she writes, "a vast emptiness that fills your heart and lungs and restricts your ability to think or even breathe." Her friend Adam Grant, a psychologist at Wharton, told her there are concrete steps people can take to recover and rebound from life-shattering experiences. We are not born with a fixed amount of resilience. It is a muscle that everyone can build. Option B combines Sheryl's personal insights with Adam's eye-opening research on finding strength in the face of adversity. Beginning with the gut-wrenching moment when she finds her husband, Dave Goldberg, collapsed on a gym floor, Sheryl opens up her heart—and her journal—to describe the acute grief and isolation she felt in the wake of his death. But Option B goes beyond Sheryl's loss to explore how a broad range of people have overcome hardships including illness, job loss, sexual assault, natural disasters, and the violence of war. Their stories reveal the capacity of the human spirit to persevere . . . and to rediscover joy. Resilience comes from deep within us and from support outside us. Even after the most devastating events, it is possible to grow by finding deeper meaning and gaining greater appreciation in our lives. Option B illuminates how to help others in crisis, develop compassion for ourselves, raise strong children, and create resilient families, communities, and workplaces. Many of these lessons can be applied to everyday struggles, allowing us to brave whatever lies ahead. Two weeks after losing her husband, Sheryl was preparing for a father-child activity. "I want Dave," she cried. Her friend replied, "Option A is not available," and then promised to help her make the most of Option B. We all live some form of Option B. This book will help us all make the most of it.

The Woodwright's Guide Roy Underhill,2011-03-15 For thirty years, Roy Underhill's PBS program, The Woodwright's Shop, has brought classic hand-tool craftsmanship to viewers across America. Now, in his seventh book, Roy shows how to engage the mysteries of the splitting wedge and the cutting edge to shape wood from forest to furniture. Beginning with the standing tree, each chapter of The Woodwright's Guide explores one of nine trades of woodcraft: faller, countryman and cleaver, hewer, log-builder, sawyer, carpenter, joiner, turner, and cabinetmaker. Each trade brings new tools and techniques; each trade uses a different character of material; but all are united by the grain in the wood and the enduring mastery of muscle and steel. Hundreds of detailed drawings by Eleanor Underhill (Roy's daughter) illustrate the hand tools and processes for shaping and joining wood. A special concluding section contains detailed plans for making your own foot-powered lathes, workbenches, shaving horses, and taps and dies for wooden screws. The Woodwright's Guide is informed by a lifetime of experience and study. A former master craftsman at Colonial Williamsburg, Roy has inspired millions to just say no to power tools through his continuing work as a historian, craftsman, activist, and teacher. In The Woodwright's Guide, he takes readers on a personal journey through a legacy of off-the-grid, self-reliant craftsmanship. It's a toolbox filled with insight and technique as well as wisdom and confidence for the artisan in all of us.
