**The New Southern Style** Alyssa Rosenheck, 2020-09-22 A vibrantly illustrated exploration of the creative, inclusive, and inspiring movement happening in today's Southern interior design The American South is a place steeped in history and tradition. We think of sweet tea, thick draws, and even thicker summer air. It is also a place with a fraught history, complicated social norms, and dated perspectives. Yet among the makers and artists of the South, there is a powerful movement afoot. Alyssa Rosenheck shines a much-needed spotlight on a burgeoning community of people who are taking

what's beloved, inherent, and honored in the South and making it their own. Stylish Sheds and Elegant Hideaways Debra Prinzing, 2008 Presents a collection of thirty backyard structures from across the country that transform the ordinary shed into unique writers' nooks, artists' studios, children's play areas, and other innovative living spaces.

**New Patio Design** Llorenç Bonet, 2005 The patio is an outdoor space situated within a house that can have a number of uses, although in the past it served merely as a distributor of space for ventilating and illuminating the parts further away from the facade with natural light. Nowadays, architects have rethought this space and have adapted it to new uses, even in regions with a cool climate and less tradition of living outdoors. The sensation of spaciousness and good lighting acquired by a home giving on to a patio, however small, is one of the reasons why the latter has become more widespread. The patio can also serve to separate the daytime area from the night-time one, or ensure that an outdoor space can be enjoyed free from prying eyes. So, the patio has become one more room in a house, standing out from the others through its lack of roof and its primary function as a place intended for relaxation.
