Coconuts & Kettlebells Noelle Tarr, Stefani Ruper, 2018-08-07 Achieve lasting health—without cutting calories or following dieting “rules”! Instead of obsessing about the quantity of food you eat, shift your focus to the quality, say Noelle Tarr and Stefani Ruper. The popular hosts of the Well-Fed Women podcast want you to make sure you're getting enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know firsthand about the ups and downs of dieting. Like many people, they have struggled with confusing and frustrating health issues such as anxiety, infertility, and hormonal imbalance—but when they discovered that the secret to improving wellness was actually more food, they ditched the calorie counters and gave their bodies the nourishment they needed to heal. In the Coconuts and Kettlebells program, you'll eat at least 2,000 calories a day—setting a minimum intake of fat, protein, and carbohydrates to ensure that your diet is full of nutrients. Noelle and Stefani identify the Big Four foods that cause the most health problems—grains, dairy, vegetable oils, and refined sugar. While many diets require you to eliminate these foods entirely, Coconuts and Kettlebells provides an easy-to-follow step-by-step system to test these foods and determine which you need to cut back on to feel better—and which you can eat without restrictions. To help you discover how your body responds to the Big Four, you'll choose from two simple 4-week meal plans: one for Butter Lovers, people who tend to feel more satisfied eating higher ratios of fats, and one for Bread Lovers, people who tend to feel more satisfied eating higher ratios of carbs. Each meal plan comes with weekly shopping lists and instructions on how to batch cook, meal prep, and stock the pantry. In addition, you get more than 75 simple and delicious real food recipes, including:

- Kale and Bacon Breakfast Skillet
- Raspberry-Coconut Smoothie Bowl
- Thai Coconut Curry Shrimp
- Apple-Chicken Skillet
- Moroccan Lamb Meatballs
- Grilled Balsamic Flank Steak
- Chocolate-Cherry Energy Bites
- Lemon-Raspberry Mini

Cheesecakes To go along with the meal plans, you'll find three 4-week fitness plans tailored to beginner, intermediate, and advanced experience levels. Best of all, the workouts can be done anywhere—at your home or on the road—and take no more than 30 minutes each. A comprehensive whole-body program, *Coconuts and Kettlebells* provides the knowledge and tools you need to be healthy inside and out.

Sugarproof Michael Goran, Emily Ventura, 2020-09-01 A leading childhood nutrition researcher and an experienced public health educator explain the hidden danger sugar poses to a child's development and health and offer parents an essential 7- and 28-day sugarproof program. Most of us know that sugar can wreak havoc on adult bodies, but few realize how uniquely harmful it is to the growing livers, hearts, and brains of children. And the damage can begin early in life. In his research on the effects of sugar on kids' present and future health, USC Professor of Pediatrics and Program Director for Diabetes and Obesity at Children's Hospital Los Angeles Michael Goran has found that too much sugar doesn't just cause childhood obesity, it can cause health issues in kids who are not overweight too, including fatty liver disease, prediabetes, and elevated risk for eventual heart disease. And, it is a likely culprit in the behavioral, emotional, and learning problems that many children struggle with every day. In a groundbreaking study, Goran's team conducted a detailed analysis of the sugary products that kids love and found that these yogurts, cereals, sodas, and juices often had more sugar than advertised and also contained different types of sugar than were being disclosed. Today's children are not just consuming more sugar than

ever, but they are consuming sugars that are particularly harmful to them--and their parents don't even know it. The news is dire, but there is also plenty of hope. We can prevent, address, and even in many cases reverse the effects of too much sugar. In this guide to Sugarproof kids, Dr. Goran and co-author Dr. Emily Ventura, an expert in nutrition education and recipe development, bust myths about the various types of sugars and sweeteners, help families identify sneaky sources of sugar in their diets, and suggest realistic, family-based solutions to reduce sugar consumption and therefore protect kids. Their unique Sugarproof approach teaches parents to raise informed and empowered kids who can set their own healthy limits without feeling restricted. With a 7- and 28-day challenge to help families right-size sugar in their diets, along with more than 35 recipes all without added sugars, everyone can give their children a healthy new start to life.
