*The Image of the City* Kevin Lynch,1964-06-15 The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

**The Sartorialist: MAN** Scott Schuman,2020-09-08 The Sartorialist Man: Inspiration Every Man Wants, Education Every Man Needs, by renowned photographer, fashion editor, and social media sensation Scott Schuman, is the definitive fashion primer celebrating the diversity of today's well-dressed man. Schuman's dynamic street photography captures the essence of style as seen through lens of guys of all ages from around the globe. Setting the new standard, the book will be an invaluable resource for men as they explore and hone their unique personal style. What I didn't want this book to be was a list of rules. But I do outline principles that will help you make confident decisions about your many sartorial choices, says Schuman in

the book's introduction. The book begins with Dressing Your Body Type, because when you know what fits your unique body, the better you can pull off any look. In section one, Clothing, Schuman delves into wardrobe basics with Elements--an illustrated glossary of everything from jackets and pants, and collars and cuffs, to outerwear and underwear. Also sprinkled throughout are Style Strategies explaining how stylish gentlemen do what they do so well, and the Focus section is filled with tips on to how to talk to a tailor, view the runway, and discover inspiration from friends and colleagues. The second part of the book tackles everything you need to know about accessories--whether to go socks or no socks, and how to tie a tie, choose the right glasses or sunglasses, and find the right shoe. Part three, Maintenance & Sustainability, is filled with illustrated step-by-step instructions on how to care for, mend, fold, store, and pack your clothes and footwear. Schuman even shares pointers on the how and why to invest in key pieces of your wardrobe, shop online or in person, or buy vintage or new. Refreshing, contemporary, and inspiring, this striking menswear tome will come to define today's essence of style. The Sartorialist: Man is about enjoying the freedom to explore what looks great on you--and that, perhaps, is the ultimate chic.

**Visualizing Fascism** Julia Adeney Thomas, Geoff Eley, 2020-03-13 Visualizing Fascism argues that fascism was not merely a domestic menace in a few European nations, but arose as a genuinely global phenomenon in the early twentieth century. Contributors use visual materials to explore fascism's populist appeal in settings around the world, including China, Japan, South Africa, Slovakia, and Spain. This visual strategy allows readers to see the transnational rise of the right as it fed off the agitated energies of modernity and mobilized shared political and aesthetic tropes. This volume also considers the postwar aftermath as antifascist art forms were depoliticized and repurposed in the West. More commonly, analyses of fascism focus on Italy and Germany alone and on institutions like fascist parties, but that approach truncates our understanding of the way fascism was indebted to colonialism and internationalism with all their attendant grievances and aspirations. Using photography, graphic arts, architecture, monuments, and film—rather than written documents alone—produces a portable concept of fascism, useful for grappling with the upsurge of the global right a century ago—and today. Contributors. Nadya Bair, Paul D. Barclay, Ruth Ben-Ghiat, Maggie Clinton, Geoff Eley, Lutz Koepnick, Ethan Mark, Bertrand Metton, Lorena Rizzo, Julia Adeney Thomas, Claire Zimmerman

*The Happiness Project* Gretchen Rubin, 2012-06-26 What if you could change your life--without changing your life? Gretchen had a good marriage, two healthy daughters, and work she loved--but one day, stuck on a city bus, she realized that time was flashing by, and she wasn't thinking enough about the things that really mattered. "I should have a happiness project," she decided. She spent the next year test-driving the wisdom of the ages, current scientific studies, and lessons from popular culture about how to be happier. Each month, she pursued a different set of resolutions: go to sleep earlier, quit nagging, forget about results, or take time to be silly. Bit by bit, she began to appreciate and amplify the happiness that already existed in her life. Written with humour and insight, Gretchen's story will inspire you to start your own happiness

project. Now in a beautiful, expanded edition, Gretchen offers a wealth of new material including happiness paradoxes and practical tips on many daily matters: being a more light-hearted parent, sticking to a fitness routine, getting your sweetheart to do chores without nagging, coping when you forget someone's name and more.

*In Awe* John O'Leary, 2020-05-05 NATIONAL BESTSELLER • The #1 bestselling author of *On Fire* shows us how to recapture and harness our childlike sense of wonder in order to become more engaged, successful, and fulfilled. "Engaging . . . O'Leary encourages us to see the world through a child's eyes."—Mitch Albom, author of *Tuesdays with Morrie* There once was a time when we joyfully raised our hands to answer questions, connected easily with others, believed that anything was possible, and fearlessly jumped into new experiences. A time when we viewed each day not as something to endure, but as a marvelous gift to explore and savor—when we danced through our lives in awe of the ordinary moments and eager for the promise of tomorrow. Unfortunately, that's far from our experience today. Instead, we feel disconnected and jaded. Social media reminds us that we don't measure up, and the mainstream media barrages us with constant negativity. Many of us find ourselves caught in a life of dogged responsibility and mind-numbing repetition. The daily struggle to earn a living has caused us to lose the sense of wonder with which we once greeted every day. In his new book, bestselling author John O'Leary invites us to consider that it is possible to once again navigate the world as a child does. Identifying five senses children innately possess and that we've lost touch with as we age, O'Leary shares emotional, humorous, and inspirational stories intertwined with fascinating new research showing how each of us can reclaim our childlike joy, and why doing so will

change how we interact with the world. In *Awe* reveals how we can regain that ability to see fresh insights, reach for new solutions, and live our best lives.

Start with Why Simon Sinek, 2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. *START WITH WHY* asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. *START WITH WHY* shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

*To Make Men Free* Heather Cox Richardson, 2014-09-23 From the New York Times bestselling author of *Democracy Awakening*, “the most comprehensive account of the GOP and its competing impulses” (Los Angeles Times) When Abraham Lincoln helped create the Republican Party on the eve of the Civil War, his goal was to promote economic opportunity for all Americans, not just the slaveholding Southern planters who steered national politics. Yet, despite the egalitarian dream at the heart of its founding, the Republican Party quickly became mired in a fundamental identity crisis. Would it be the party of democratic ideals? Or would it be the party of moneyed interests? In the century and a half since, Republicans have vacillated between these two poles, with dire economic, political, and moral repercussions for the entire nation. In *To Make Men Free*, celebrated historian Heather Cox Richardson traces the shifting ideology of the Grand Old Party from the antebellum era to the Great Recession, revealing the insidious cycle of boom and bust that has characterized the Party since its inception. While in office, progressive Republicans like Teddy Roosevelt and Dwight Eisenhower revived Lincoln's vision of economic freedom and expanded the government, attacking the concentration of wealth and nurturing upward mobility. But they and others like them have been continually thwarted by powerful business interests in the Party. Their opponents appealed to Americans' latent racism and xenophobia to regain political power, linking taxation and regulation to redistribution and socialism. The results of the Party's wholesale embrace of big business are all too familiar: financial collapses like the Panic of 1893, the Great Depression in 1929, and the Great Recession in 2008. With each passing decade,

with each missed opportunity and political misstep, the schism within the Republican Party has grown wider, pulling the GOP ever further from its founding principles. Expansive and authoritative, *To Make Men Free* is a sweeping history of the Party that was once America's greatest political hope -- and, time and time again, has proved its greatest disappointment.

[Can't Hurt Me](#) David Goggins,2021-03-03 New York Times Bestseller Over 2.5 million copies sold For David Goggins, childhood was a nightmare -- poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring *Outside* magazine to name him The Fittest (Real) Man in America. In *Can't Hurt Me*, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this The 40% Rule, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

**Tolerance** Lars Tønder,2013-10-07 In *Tolerance*, Lars Tønder offers a thought-provoking theory on what tolerance

means in pluralistic societies. Tønder begins by showing the limitations of the way democratic theory currently understands tolerance: either as a form of restraint or as benevolence, but always divorced from what it is that the tolerant person really senses. According to Tønder, what is missing from current theories of tolerance is the idea of pain, or the lived experience of what it means to become tolerant. Introducing what he calls a sensorial orientation to politics and a theory of active tolerance, he argues that the act of becoming tolerant (and the reasoning it entails) depends on sensing the world in an expansive manner attentive to the new and unforeseen. In order to illustrate, he engages with a number of theorists, from Seneca, Spinoza, Nietzsche, Merleau-Ponty, and Marcuse to Locke, Kant and Mill, and he draws upon a wide range of examples, including the 2005 controversy over the Danish cartoons of Muhammad, Sacher-Masoch's Venus in Furs, Dave Chappelle's comedy, and methods of torture used in the war on terror. Tolerance is at once a sweeping account of the history of political thought and an invitation to rethink the meaning of tolerance within the sensorial conditions that define twenty first century democratic politics.
