**Make Room for What You Love** Melissa Michaels, 2016-05-01 Is Clutter Taking Over Your Home and Life? Stuff. So much stuff! Stuff that may link you to important memories or be needed again someday, but for now just clutters up cupboards and closets and the garage and tables, shelves, and bookcases. **At Home in the Garden** Carolyne Roehm, 2015-10-27 In this exquisitely lush volume, lifestyle legend Carolyne Roehm celebrates her gardens as outdoor living rooms, revealing how she chooses the plants, flowers, and layouts; how she entertains guests with gorgeous table settings and breathtaking arrangements; and how she savors the hours among the blooms. As Carolyne Roehm says, "It's as simple as this: a garden is like love...a place you venture into with hope, energy, excitement, enchantment, and the greatest of expectations." For Roehm, the garden has always been more than a canvas for beauty. A place where her devoted efforts bear glorious results, the garden is not only a reflection of what has inspired Roehm, but also a font of inspiration from which she draws--for her astonishingly lovely arrangements, her gracious dinner parties, and her new passion for interpreting her flowers in vibrant watercolor paintings. Each of the gardens at her historic Connecticut home, *Weatherstone*, has been lovingly crafted to serve as an outdoor living room, where the hours may be passed at work, alone, or enjoyed with company. In the *Parterre Gardens* bordering the south side of the home, Roehm created a fantasy of snow in spring with white tulips and Sargentina crabapple trees. All of the varieties in her *Rose Garden* were selected for their pulchritude and divine scent, as well as for their ability to bloom twice to satisfy her insatiable thirst for roses. And when the stream through her property offered only an unsatisfying trickle, Roehm replaced it with a river of

hostas, primula, bleeding hearts, and rodgersia that sweeps through her Shade Garden. As Roehm accompanies us on the first-ever tour of these marvels, she shares witty and candid stories of the unexpected triumphs and the sometimes-crushing defeats. And always, there is her desire to return to the garden—to tend, to mend, or to plant anew. A garden is like love, Roehm claims, and indeed, this lavishly illustrated volume is a testament to an enduring, complex, unquestionably personal, and deeply passionate amour.

**Design With Microclimate** Robert D. Brown, 2010-09-02 Robert Brown helps us see that a thermally comfortable microclimate is the very foundation of well-designed and well-used outdoor places. Brown argues that as we try to minimize human-induced changes to the climate and reduce our dependence on fossil fuels—as some areas become warmer, some cooler, some wetter, and some drier, and all become more expensive to regulate—good microclimate design will become increasingly important. In the future, according to Brown, all designers will need to understand climatic issues and be able to respond to their challenges. Brown describes the effects that climate has on outdoor spaces—using vivid illustrations and examples—while providing practical tools that can be used in everyday design practice. The heart of the book is Brown's own design process, as he provides useful guidelines that lead designers clearly through the complexity of climate data, precedents, site assessment, microclimate modification, communication, design, and evaluation. Brown strikes an ideal balance of technical information, anecdotes, examples, and illustrations to keep the book engaging and accessible. His emphasis throughout is on creating microclimates that attend to the comfort, health, and well-being of people, animals, and plants. Design with Microclimate is a vital resource for students and practitioners in landscape architecture, architecture, planning, and urban design.
