Creating Home Keith Summerour, 2017-03-14 From acclaimed architect and designer Keith Summerour comes an alluring new book of carefully crafted dwellings that redefine the idea of home for today. When we think about what home is, many of us would say a house that is soulful and welcoming, a place with an inviting porch and a lush garden, a welcoming entryway and well-crafted living spaces that will nurture our private moments and expand to welcome guests. In this alluring new book, Keith Summerour shares nine houses, exploring their architecture, interiors, and grounds, to illustrate a new idea of home. Reinterpreting and making new his own Southern legacy that speaks both of aristocratic charm and homespun appeal, these homes range from rustic retreats that draw their power from the land to elegant manor houses, but all share extraordinary character and charm that nod to history while reflecting the way people wish to live in the world today. Enriched by the work of some of the top interior decorators working today, including Beth Webb, Barbara Westbrook, Circa Interiors, and Liza Bryan, as well as world-renowned landscape designers Jeremy Smearman and John Howard, and beautifully illustrated with all-new photography, *Creating Home* is the ultimate dream book.

Young House Love Sherry Petersik, John Petersik, 2015-07-14 This New York Times bestselling book is filled with hundreds of fun, deceptively simple, budget-friendly ideas for sprucing up your home. With two home renovations under their (tool) belts and millions of hits per month on their blog YoungHouseLove.com, Sherry and John Petersik are home-improvement enthusiasts primed to pass on a slew of projects, tricks, and techniques to do-it-yourselfers of all levels. Packed with 243 tips and ideas—both classic and unexpected—and more than 400 photographs and illustrations, this is a book that readers will return to again and again for the creative projects and easy-to-follow instructions in the relatable voice the Petersiks are known for. Learn to trick out a thrift-store mirror, spice up plain old roller shades, hack your Ikea table to create three distinct looks, and so much more.

Rising Troublemaker Luvvie Ajayi Jones, 2022-05-17 *AN INSTANT NEW YORK TIMES BESTSELLER!* In this young readers edition of her New York Times bestseller Professional Troublemaker, Luvvie Ajayi Jones uses her honesty and humor to inspire teens to be their bravest, boldest, truest selves, in order to create a world they would be proud to live in. The world can feel like a dumpster fire, with endless things to be afraid of. It can make you feel powerless to ask for what you need, use your voice, and show up truly as your whole self. Add the fact that often, people might make you feel like your way of showing up is TOO MUCH. BE TOO MUCH, and use it for good. That is what it means to be a troublemaker. In this book, Luvvie Ajayi Jones - bestseller of books, sorceress of side-eyes and critic of culture - gives you the permission you might need to be the troublemaker you are, or wish to be. This is the book she needed when she was the kid who got in trouble for her mouth when she spoke up about what she felt was not fair. This is the book she needed when kids made fun of her Nigerian accent. This is the book that she needed when it was time to call herself a writer, but she was too scared. As a Rising Troublemaker, you need to know that the beautiful, audacious life you want is on the other side of doing the things that will scare you. This book will help you face and fight your fear and start living that life ASAP.

Bookshelf Design Sundae Li, 2015 It is true that book always enjoys more attention than its faithful supporter-bookshelf. This book, however, is a tribute to this essential piece of furniture in our life, presenting creative bookshelf designs from around the globe which would provide fresh ideas for readers. An illustrated foldout was carefully made to introduce a brief historical development of bookshelf

Human Dimension and Interior Space Julius Panero, Martin Zelnik, 2014-01-21 The study of human body measurements on a comparative basis is known as anthropometrics. Its applicability to the design process is seen in the physical fit, or interface, between the human body and the various components of interior space. Human Dimension and Interior Space is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process. This comprehensive overview of anthropometrics consists of three parts. The first part deals with the theory and application of anthropometrics and includes a special section dealing with physically disabled and elderly people. It provides the designer with the fundamentals of anthropometrics and a basic understanding of how interior design standards are established. The second part contains easy-to-read, illustrated anthropometric tables, which provide the most current data available on human body size, organized by age and percentile groupings. Also included is data relative to the range of joint motion and body sizes of children. The third part contains hundreds of dimensioned drawings, illustrating in plan and section the proper anthropometrically based relationship between user and space. The types of spaces range from residential and commercial to

recreational and institutional, and all dimensions include metric conversions. In the Epilogue, the authors challenge the interior design profession, the building industry, and the furniture manufacturer to seriously explore the problem of adjustability in design. They expose the fallacy of designing to accommodate the so-called average man, who, in fact, does not exist. Using government data, including studies prepared by Dr. Howard Stoudt, Dr. Albert Damon, and Dr. Ross McFarland, formerly of the Harvard School of Public Health, and Jean Roberts of the U.S. Public Health Service, Panero and Zelnik have devised a system of interior design reference standards, easily understood through a series of charts and situation drawings. With *Human Dimension and Interior Space*, these standards are now accessible to all designers of interior environments.

Sprint Jake Knapp, John Zeratsky, Braden Kowitz, 2016-03-08 From inside Google Ventures, a unique five-day process for solving tough problems, proven at thousands of companies in mobile, e-commerce, healthcare, finance, and more. Entrepreneurs and leaders face big questions every day: What's the most important place to focus your effort, and how do you start? What will your idea look like in real life? How many meetings and discussions does it take before you can be sure you have the right solution? Now there's a surefire way to answer these important questions: the Design Sprint, created at Google by Jake Knapp. This method is like fast-forwarding into the future, so you can see how customers react before you invest all the time and expense of creating your new product, service, or campaign. In a Design Sprint, you take a small team, clear your schedules for a week, and rapidly progress from problem, to prototype, to tested solution using the step-by-step five-day process in this book. A practical guide to answering critical business questions, *Sprint* is a book for teams of any size, from small startups to Fortune 100s, from teachers to nonprofits. It can replace the old office defaults with a smarter, more respectful, and more effective way of solving problems that brings out the best contributions of everyone on the team—and helps you spend your time on work that really matters.

Industrial Facility Sam Hecht, Kim Colin, 2018-04-06 The first monograph on the complete works of award-winning design studio Industrial Facility Sam Hecht and Kim Colin's world-renowned, London-based studio is one of the most influential in industrial design, and their work has enjoyed a global cult following thanks to its combination of simplicity and intellectual rigor. This book presents a carefully crafted visual narrative interspersed with candid conversations among key collaborators, project notes, and a collection of essays. The book concludes with a catalogue raisonné, showcasing more than 200 projects that together reveal Industrial Facility's distinct clarity of vision.

Old Home Love Candis Meredith, Andy Meredith, 2017-03-07 Get to know the couple (and the houses) behind *Old Home Love*. Andy and Candis Meredith believe there's nothing that can't be fixed. Their passion for saving and renovating old homes, which caught the attention of HGTV, sparked the creation of their new reality series, *Old Home Love*. Their stunning debut book features never before seen images of more than 15 homes, (including their own, renovated by the couple

themselves), do-it-yourself renovation tips and guidance, and their family's story. Old Home Love will inspire readers to discover the history and beauty behind their own homes, regardless of location or style. Andy and Candis Meredith take dilapidated houses from the 1800s and restore them to their original beauty for future homeowners to cherish for years to come. They live in Payson, Utah with their six little boys and baby girl in tow.

A Room of One's Own Virginia Woolf,2024-05-30 Virginia Woolf's playful exploration of a satirical »Oxbridge« became one of the world's most groundbreaking writings on women, writing, fiction, and gender. A Room of One's Own [1929] can be read as one or as six different essays, narrated from an intimate first-person perspective. Actual history blends with narrative and memoir. But perhaps most revolutionary was its address: the book is written by a woman for women. Male readers are compelled to read through women's eyes in a total inversion of the traditional male gaze. VIRGINIA WOOLF [1882-1941] was an English author. With novels like Jacob's Room [1922], Mrs Dalloway [1925], To the Lighthouse [1927], and Orlando [1928], she became a leading figure of modernism and is considered one of the most important English-language authors of the 20th century. As a thinker, with essays like A Room of One's Own [1929], Woolf has influenced the women's movement in many countries.

The Software Architect Elevator Gregor Hohpe,2020-04-08 As the digital economy changes the rules of the game for enterprises, the role of software and IT architects is also transforming. Rather than focus on technical decisions alone, architects and senior technologists need to combine organizational and technical knowledge to effect change in their company's structure and processes. To accomplish that, they need to connect the IT engine room to the penthouse, where the business strategy is defined. In this guide, author Gregor Hohpe shares real-world advice and hard-learned lessons from actual IT transformations. His anecdotes help architects, senior developers, and other IT professionals prepare for a more complex but rewarding role in the enterprise. This book is ideal for: Software architects and senior developers looking to shape the company's technology direction or assist in an organizational transformation Enterprise architects and senior technologists searching for practical advice on how to navigate technical and organizational topics CTOs and senior technical architects who are devising an IT strategy that impacts the way the organization works IT managers who want to learn what's worked and what hasn't in large-scale transformation

Democracy and Education John Dewey,1916 . Renewal of Life by Transmission. The most notable distinction between living and inanimate things is that the former maintain themselves by renewal. A stone when struck resists. If its resistance is greater than the force of the blow struck, it remains outwardly unchanged. Otherwise, it is shattered into smaller bits. Never does the stone attempt to react in such a way that it may maintain itself against the blow, much less so as to render the blow a contributing factor to its own continued action. While the living thing may easily be crushed by superior force, it none the

less tries to turn the energies which act upon it into means of its own further existence. If it cannot do so, it does not just split into smaller pieces (at least in the higher forms of life), but loses its identity as a living thing. As long as it endures, it struggles to use surrounding energies in its own behalf. It uses light, air, moisture, and the material of soil. To say that it uses them is to say that it turns them into means of its own conservation. As long as it is growing, the energy it expends in thus turning the environment to account is more than compensated for by the return it gets: it grows. Understanding the word control in this sense, it may be said that a living being is one that subjugates and controls for its own continued activity the energies that would otherwise use it up. Life is a self-renewing process through action upon the environment.

The Last Last-day-of-summer Lamar Giles,2019 The Last Last-Day-of-Summer reminds me that all children deserve to exist in magical spaces where their imaginations and familial bonds will them into heroism. Every single child should have the freedom to be one of The Legendary Alstons. And I, for one, am grateful to Giles, and this brilliant story, for that reminder. --Jason Reynolds, author of Newbery Honoree Long Way Down The legendary heroes of this legendary book are already legendary when the story begins From there things can only get legendary-er --Tom Angleberger, author of the Origami Yoda series Lamar Giles has written an instant classic--readers won't want their time with the Legendary Alston Boys of Logan County to end. --Gwenda Bond, author of the Lois Lane series The Hardy Boys meets The Phantom Tollbooth, in the new century When two adventurous cousins accidentally extend the last day of summer by freezing time, they find the secrets hidden between the unmoving seconds, minutes, and hours are not the endless fun they expected. Otto and Sheed are the local sleuths in their zany Virginia town, masters of unraveling mischief using their unmatched powers of deduction. And as the summer winds down and the first day of school looms, the boys are craving just a little bit more time for fun, even as they bicker over what kind of fun they want to have. That is, until a mysterious man appears with a camera that literally freezes time. Now, with the help of some very strange people and even stranger creatures, Otto and Sheed will have to put aside their differences to save their town--and each other--before time stops for good.

Communities in Action National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Population Health and Public Health Practice,Committee on Community-Based Solutions to Promote Health Equity in the United States,2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such

inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

VC Tom Nicholas, 2019-07-09 “An incisive history of the venture-capital industry.” —*New Yorker* “An excellent and original economic history of venture capital.” —Tyler Cowen, *Marginal Revolution* “A detailed, fact-filled account of America’s most celebrated moneymen.” —*New Republic* “Extremely interesting, readable, and informative...Tom Nicholas tells you most everything you ever wanted to know about the history of venture capital, from the financing of the whaling industry to the present multibillion-dollar venture funds.” —Arthur Rock “In principle, venture capital is where the ordinarily conservative, cynical domain of big money touches dreamy, long-shot enterprise. In practice, it has become the distinguishing big-business engine of our time...[A] first-rate history.” —*New Yorker* VC tells the riveting story of how the venture capital industry arose from America’s longstanding identification with entrepreneurship and risk-taking. Whether the venture is a whaling voyage setting sail from New Bedford or the latest Silicon Valley startup, VC is a state of mind as much as a way of doing business, exemplified by an appetite for seeking extreme financial rewards, a tolerance for failure and experimentation, and a faith in the promise of innovation to generate new wealth. Tom Nicholas’s authoritative history takes us on a roller coaster of entrepreneurial successes and setbacks. It describes how iconic firms like Kleiner Perkins and Sequoia invested in Genentech and Apple even as it tells the larger story of VC’s birth and evolution, revealing along the way why venture capital is such a quintessentially American institution—one that has proven difficult to recreate elsewhere.
