Public and Situated Displays K. O'Hara,M. Perry,E. Churchill,D. Russell,2013-03-09 Public and situated display technologies can have an important impact on individual and social behaviour and present us with particular interesting new design considerations and challenges. While there is a growing body of research exploring these design considerations and social impact this work remains somewhat disparate, making it difficult to assimilate in a coherent manner. This book brings together the perspectives of key researchers in the area of public and situated display technology. The chapters detail research representing the social, technical and interactional aspects of public and situated display technologies. The underlying concern common to these chapters is how these displays can be best designed for collaboration, coordination, community building and mobility. Presenting them together allows the reader to examine everyday display activities within the context of emerging technological possibilities.

One Second After William R. Forstchen, 2011-04-26 Book 1 in the John Matherson trilogy.

Good Furniture Magazine of Furnishing & Decoration, 1922

Theatre Buildings Association of British Theatre Technicians (ABTT), Margaret Shewring, 2024-02-20 In 2021, its Diamond Jubilee year, the Association of British Theatre Technicians (ABTT) undertook to revise *Theatre Buildings: A Design Guide* (Routledge, 2010). This new edition (Routledge, 2023) has substantially re-written text with fresh images and entirely new reference projects, providing essential guidance for all those engaged in the design of theatre buildings. Edited by Margaret Shewring (Emeritus Reader, University of Warwick, former Director of the Postgraduate Diploma and MA in Theatre Consultancy), this new publication is written by a team of international experts, architects, theatre consultants, acousticians, engineers and industry professionals led by Tim Foster (Foster Wilson Size) and Robin Townley (CEO of the ABTT). It provides an invaluable resource for those looking to build, remodel or conserve theatre buildings, taking into account the significant changes which have taken place in the last twelve years in all aspects of theatre design and technical practice. It locates those changes in the wider context of the need for sustainability in the theatre industry in response to the climate emergency, inclusivity, diversity of access, placemaking and concerns for health and wellbeing. This new edition provides guidance for anyone who seeks inspiration and encouragement to create or improve a place of entertainment or who seeks to understand what might be required to accommodate an audience for the presentation of live performance and the successful use, operation and organisation of such a venue. Its generous format and the thirty-two new reference projects, more than 260 high-resolution colour images and 175 diagrams and specially commissioned plans make it accessible and informative both to the general reader and the professional specialist.
