Nickel Quilts Pat Speth, Charlene Thode, 2002 Each of the quilt patterns in this book is rated by skill level -- easy, beginner, or intermediate -- based on the degree of piecing difficulty. Once you've used our easy unit-construction methods to make your first nickel quilt, you'll be ready to move on to one of the more challenging projects. From inside book.

Van Gogh Starry Night Vincent van Gogh, Federico Castelli Gattinara, 2004 This title is one in a series presenting four masterpieces by four immortal nineteenth-century French painters. Each miniature book faithfully reproduces its title painting on the front cover, and is packaged in a handsome slipcase that doubles as a picture frame. The frame can stand up on a desk or tabletop or be hung on the wall to display the book cover's striking painting. Each book's interior discusses its title painting, describing the artist's approach to his work, analyzing the picture's fine points, and showing close-up details from the painting. A final two-page spread presents a timeline capsule biography that lists significant events in the painter's life. Van Gogh--Starry Night shows and discusses Vincent Van Gogh's masterpiece, which is a mystically glowing nighttime landscape, and ranks today as one of the artist's most popular and beloved paintings.

Creativity, Inc. (The Expanded Edition) Ed Catmull, Amy Wallace, 2023-09-28 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such

as: • Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better. • It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them. • The cost of preventing errors is often far greater than the cost of fixing them. • A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody. Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.

Mathematical Surprises Mordechai Ben-Ari, 2022-09-07 This is an open access book that provides plenty of pleasant mathematical surprises. There are many fascinating results that do not appear in textbooks although they are accessible with a good knowledge of secondary-school mathematics. This book presents a selection of these topics including the mathematical formalization of origami, construction with straightedge and compass (and other instruments), the five- and six-color theorems, a taste of Ramsey theory and little-known theorems proved by induction. Among the most surprising theorems are the Mohr-Mascheroni theorem that a compass alone can perform all the classical constructions with straightedge and compass, and Steiner's theorem that a straightedge alone is sufficient provided that a single circle is given. The highlight of the book is a detailed presentation of Gauss's purely algebraic proof that a regular heptadecagon (a regular polygon with seventeen sides) can be constructed with straightedge and compass. Although the mathematics used in the book is elementary (Euclidean and analytic geometry, algebra, trigonometry), students in secondary schools and colleges, teachers, and other interested readers will relish the opportunity to confront the challenge of understanding these surprising theorems.

Shifting Images of the Hasmoneans Vered Noam, 2018-02-22 The shifting image of the Hasmoneans in the eyes of their contemporaries and later generations is a compelling issue in the history of the Maccabean revolt and the Hasmonean commonwealth. Based on a series of six Jewish folktales from the Second Temple period that describe the Hasmonean dynasty and its history from its legendary founders, through achievement of full sovereignty, to downfall, this volume examines the Hasmoneans through the lens of reception history. On the one hand, these brief, colorful legends are embedded in the narrative of the historian of the age, Flavius Josephus; on the other hand, they are scattered throughout the extensive halakhic-exegetical compositions known as rabbinic literature, redacted and compiled centuries later. Each set of parallel stories is examined for the motivation underlying its creation, its original message, language, and the historical context. This analysis is followed by exploration of the nature of the relationship between the Josephan and the rabbinic versions, in an

attempt to reconstruct the adaptation of the putative original traditions in the two corpora, and to decipher the disparities, different emphases, reworking, and unique orientations typical of each. These adaptations reflect the reception of the pristine tales and thus disclose the shifting images of the Hasmoneans in later generations and within distinct contexts. The compilation and characterization of these sources which were preserved by means of two such different conduits of transmission brings us closer to reconstruction of a lost literary continent, a hidden Jewish Atlantis of early pseudo-historical legends and facilitates examination of the relationship between the substantially different libraries and worlds of Josephus and rabbinic literature.

Hallowe'en Party Agatha Christie, 2018-03-22 Detective and mystery stories. At a Halloween party, Joyce, a hostile 13-year-old, boasts that she once witnessed a murder. Within hours her body is found, still in the house, drowned in an apple-bobbing tub. That night Hercule Poirot is called in to find the killer.

Start with Why Simon Sinek,2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Home by Novogratz Cortney Novogratz,Robert Novogratz,2012-10-09 Get the Novogratz look In this book, design duo Robert and Cortney Novogratz (stars of HGTV's Home by Novogratz) give us an inside look at twenty of their favorite projects to show us how to achieve their signature vintage modern style. Renoir Scala Publishers, Ltd.,2006-06 Renoir masterfully created Luncheon of the Boating Party's enchanting mood by capturing a contemporary moment - 19th-century leisure on the Seine - and the universal appeal of celebration. He also combined several of the traditional categories of painting: still life, landscape, portraiture and genre. The result is a timeless work that captures the atmosphere of an idyllic place, where friends share the pleasures of food, wine and conversation. Scala's new 4-fold format is ideal for displaying this exquisite painting. It showcases archival photographs that identify the revellers, and x-rays of the painting, which reveal little-known compositional changes, as well as details and images that fold out to bring this late 19th-century icon to life. 38 colour & 19 b/w illustrations

In Awe John O'Leary,2020-05-05 NATIONAL BESTSELLER • The #1 bestselling author of On Fire shows us how to recapture and harness our childlike sense of wonder in order to become more engaged, successful, and fulfilled. “Engaging . . . O'Leary encourages us to see the world through a child's eyes.”—Mitch Albom, author of Tuesdays with Morrie There once was a time when we joyfully raised our hands to answer questions, connected easily with others, believed that anything was possible, and fearlessly jumped into new experiences. A time when we viewed each day not as something to endure, but as a marvelous gift to explore and savor—when we danced through our lives in awe of the ordinary moments and eager for the promise of tomorrow. Unfortunately, that's far from our experience today. Instead, we feel disconnected and jaded. Social media reminds us that we don't measure up, and the mainstream media barrages us with constant negativity. Many of us find ourselves caught in a life of dogged responsibility and mind-numbing repetition. The daily struggle to earn a living has caused us to lose the sense of wonder with which we once greeted every day. In his new book, bestselling author John

O'Leary invites us to consider that it is possible to once again navigate the world as a child does. Identifying five senses children innately possess and that we've lost touch with as we age, O'Leary shares emotional, humorous, and inspirational stories intertwined with fascinating new research showing how each of us can reclaim our childlike joy, and why doing so will change how we interact with the world. In *Awe* reveals how we can regain that ability to see fresh insights, reach for new solutions, and live our best lives.
