The more you can mix the elements of your room—your pillows, objects, patterns, and lighting—the more finished it’ll feel: not too new, not too old, but just right. **The Scandinavian Home** Niki Brantmark,2017-04-18 Discover classic and contemporary Scandinavian style with

specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Discover classic and contemporary Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Scandinavia is famous for its distinctive style: homes are pared-back and simple, and form and function are combined to create aesthetically pleasing and practical interiors. Scandinavians are inspired by light, having an abundance of it in summer but so little of it in winter, and house designs tend to maximize the amount of natural light that enters the home, and allow the inhabitants to make the most of outdoor life during the summer. Similarly, nature and the weather are major influences: homes are made warm and cozy for the freezing winter months—not just literally with log burners, but also through incorporating wood and natural materials. Here Niki Brantmark, owner of the interior design blog My Scandinavian Home, presents a wide-ranging collection of these beautiful homes and explores how the Scandinavian lifestyle is reflected in them all. The first chapter, Urban Living, features styles ranging from minimalist to bohemian, and pale palettes to dramatic dark colors. By contrast, the Country Homes tend to have a softer, calmer feel, through color and textiles, in line with a slower pace of life. Finally, the spectacular Rural Retreats include a mountain cabin, beach house, and rustic summer cottage, and demonstrate how having somewhere to escape to is so important to many Scandinavians. This collection of stunning interiors will put Scandi style within every reader's reach.

Now she's involved in an automobile wreck that is not an accident and a ransacked hotel room that is definitely not random. And the more time she spends with Jack, the more the danger grows. **New Patio Design** Llorenç Bonet,2005 The patio is an outdoor space situated within a house that can have a number of uses, although in the past it served merely as a distributor of space of for ventilating and illuminating the parts furthers away from the facade with natural light. Nowadays, architets have rethought this space and have adapted it to new uses, even in regions with a cool climate and less tradition of living outdoors. The sensation of spaciousness and good lighting acquired by a home giving on to a patio, however small, is one of the reasons why the latter has become more widespread. The patio can also serve to separate the daytime area from the night-time one, or ensure that an outdoor space can be enjoyed free from prying eyes. So, the patio has become one more room in a house, standing out from the others through its lack of roof and its primary function as a place intended for relaxation.
