**Gardening with Less Water** David A. Bainbridge, 2015-12-29 Are you facing drought or water shortages? Gardening with Less Water offers simple, inexpensive, low-tech techniques for watering your garden much more efficiently — using up to 90 percent less water for the same results. With illustrated step-by-step instructions, David Bainbridge shows you how to install buried clay pots and pipes, wicking systems, and other porous containers that deliver water directly to a plant's roots with little to no evaporation. These systems are available at hardware stores and garden centers; are easy to set up and use; and work for garden beds, container gardens, and trees.

**Throwing Large** Nic Collins, 2011 Throwing large work is a challenging area and takes a different approach to throwing normal ware. This book looks at throwing purely from the perspective of making very large work. It assumes the reader can already throw, but different techniques are needed when making large work because of all the added problems - it can buckle during making, collapse if not moved to the kiln safely and warp in the firing. Not to mention that the techniques needed to physically throw much larger work are very different. This book looks at all of this, offering clear guidance on how to make work successfully, covering the various techniques used, (such as throwing on coils and throwing in sections, or blow-torching work before continuing to throw) as well as how to avoid disastrous pitfalls. Although we do have bits of information in other books, this would be a handy guide collecting all the relevant material. The handbook we already have called Large-scale Ceramics focuses on handbuilding.

*The Scandinavian Home* Niki Brantmark, 2017-04-18 Discover classic and contemporary Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Discover classic and contemporary Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Scandinavia is famous for its distinctive style: homes are pared-back and simple, and form and function are combined to create aesthetically pleasing and practical interiors. Scandinavians are inspired by light, having an abundance of it in

summer but so little of it in winter, and house designs tend to maximize the amount of natural light that enters the home, and allow the inhabitants to make the most of outdoor life during the summer. Similarly, nature and the weather are major influences: homes are made warm and cozy for the freezing winter months—not just literally with log burners, but also through incorporating wood and natural materials. Here Niki Brantmark, owner of the interior design blog My Scandinavian Home, presents a wide-ranging collection of these beautiful homes and explores how the Scandinavian lifestyle is reflected in them all. The first chapter, Urban Living, features styles ranging from minimalist to bohemian, and pale palettes to dramatic dark colors. By contrast, the Country Homes tend to have a softer, calmer feel, through color and textiles, in line with a slower pace of life. Finally, the spectacular Rural Retreats include a mountain cabin, beach house, and rustic summer cottage, and demonstrate how having somewhere to escape to is so important to many Scandinavians. This collection of stunning interiors will put Scandi style within every reader's reach.
