Watching Paint Dry John Burbidge,2012 John Burbidge has aimed his brush, roller, and spray gun at everything from ritzy mansions to trashy trailers. He's gone underground to paint sewage-treatment plants and risked death to paint factory ceilings. He has no doubt inhaled enough noxious dust and paint fumes to shorten his life. But he's not dead yet. And the captivating characters he has encountered along the way have more than offset the toils of painting for a living. Ex-cons, addicts, drifting college grads, even a guy with a hole in his head-that's your typical paint crew, bonded only by the fact that they're caught in a job society thinks is for simpletons. In *Watching Paint Dry*, John Burbidge scrapes beneath the surface of painting's reputation for monotony while intimately portraying the men and women who craft the backdrop to our civilization. Informative, funny, and sometimes heartbreaking . . . this is a book you will want to recommend to everyone you know. --Sharon Barrett, Chicago Sun-Times book critic for 28 years

**Fill Your Oil Paintings with Light & Color** Kevin D. Macpherson,1997 Shows how to paint the colors one sees, how to use light and shade in landscapes and still lives, and offers tips on selecting tools and materials

Landscape Painting Mitchell Albala,2011-11-15 Because nature is so expansive and complex, so varied in its range of light, landscape painters often have to look further and more deeply to find form and structure, value patterns, and an organized arrangement of shapes. In *Landscape Painting*, Mitchell Albala shares his concepts and practices for translating

nature's grandeur, complexity, and color dynamics into convincing representations of space and light. Concise, practical, and inspirational, Landscape Painting focuses on the greatest challenges for the landscape artist, such as:

- Simplification and Massing: Learn to reduce nature's complexity by looking beneath the surface of a subject to discover the form's basic masses and shapes.
- Color and Light: Explore color theory as it specifically applies to the landscape, and learn the various strategies painters use to capture the illusion of natural light.
- Selection and Composition: Learn to select wisely from nature's vast panorama.

Albala shows you the essential cues to look for and how to find the most promising subject from a world of possibilities. The lessons in Landscape Painting—based on observation rather than imitation and applicable to both plein air and studio practice—are accompanied by painting examples, demonstrations, photographs, and diagrams. Illustrations draw from the work of more than 40 contemporary artists and such masters of landscape painting as John Constable, Sanford Gifford, and Claude Monet. Based on Albala's 25 years of experience and the proven methods taught at his successful plein air workshops, this in-depth guide to all aspects of landscape painting is a must-have for anyone getting started in the genre, as well as more experienced practitioners who want to hone their skills or learn new perspectives.

**Blood Water Paint** Joy McCullough, 2018-03-06 Haunting ... teems with raw emotion, and McCullough deftly captures the experience of learning to behave in a male-driven society and then breaking outside of it.—The New Yorker I will be haunted and empowered by Artemisia Gentileschi's story for the rest of my life.—Amanda Lovelace, bestselling author of the princess saves herself in this one A William C. Morris Debut Award Finalist 2018 National Book Award Longlist Her mother died when she was twelve, and suddenly Artemisia Gentileschi had a stark choice: a life as a nun in a convent or a life grinding pigment for her father's paint. She chose paint. By the time she was seventeen, Artemisia did more than grind pigment. She was one of Rome's most talented painters, even if no one knew her name. But Rome in 1610 was a city where men took what they wanted from women, and in the aftermath of rape Artemisia faced another terrible choice: a life of silence or a life of truth, no matter the cost. He will not consume my every thought. I am a painter. I will paint. Joy McCullough's bold novel in verse is a portrait of an artist as a young woman, filled with the soaring highs of creative inspiration and the devastating setbacks of a system built to break her. McCullough weaves Artemisia's heartbreaking story with the stories of the ancient heroines, Susanna and Judith, who become not only the subjects of two of Artemisia's most famous paintings but sources of strength as she battles to paint a woman's timeless truth in the face of unspeakable and all-too-familiar violence. I will show you what a woman can do. □A captivating and impressive.—Booklist, starred review □Belongs on every YA shelf.—SLJ, starred review □Haunting.—Publishers Weekly, starred review □Luminous.—Shelf Awareness, starred review

*Painting with Fire* Matthew C. Hunter,2020-03-23 *Painting with Fire* shows how experiments with chemicals known to change visibly over the course of time transformed British pictorial arts of the long eighteenth century—and how they can alter our conceptions of photography today. As early as the 1670s, experimental philosophers at the Royal Society of London had studied the visual effects of dynamic combustibles. By the 1770s, chemical volatility became central to the ambitious paintings of Sir Joshua Reynolds, premier portraitist and first president of Britain’s Royal Academy of Arts. Valued by some critics for changing in time (and thus, for prompting intellectual reflection on the nature of time), Reynolds’s unstable chemistry also prompted new techniques of chemical replication among Matthew Boulton, James Watt, and other leading industrialists. In turn, those replicas of chemically decaying academic paintings were rediscovered in the mid-nineteenth century and claimed as origin points in the history of photography. Tracing the long arc of chemically produced and reproduced art from the 1670s through the 1860s, the book reconsiders early photography by situating it in relationship to Reynolds’s replicated paintings and the literal engines of British industry. By following the chemicals, *Painting with Fire* remaps familiar stories about academic painting and pictorial experiment amid the industrialization of chemical knowledge.

Two demonstrations show artists how to use acrylics as an effective base for other mediums.
