P. Allen Smith's Garden Home P. Allen Smith, 2003 Lots of people want gardens but find the prospect of getting

started a bit daunting. P. Allen Smith's Garden Home is P. Allen Smith's inviting solution. Smith begins with his own story: his family's love of gardens and experience in the nursery business, his own education at the great gardens of England, and his discovery that we all have, as he says, a longing for our agrarian past. After walking us through his own garden home and explaining why he made the choices he did, Allen introduces his 12 principles of garden design, discussing such topics as a sense of enclosure, framing the view, texture, pattern, rhythm, and, of course, color. Then, with step-by-step projects, he shows readers how to apply the principles in their own garden homes. For the millions of people who know Smith through his syndicated television show, Weather Channel segments, and appearances on The Early Show, this book is the irresistible invitation to follow him into the garden.

Ill Nature Joy Williams, 2015-10-10 Most of us watch with mild concern the fast disappearing wild spaces or the recurrence of pollution - related crises such as oil spills, toxic blooms in fertilizer-enriched rivers, and the increasing violence in our own country. Joy Williams does much more than watch. With guts and passion, she sounds the alarm over the general disconnection from the natural world that our consumer culture has created. The culling of elephants, electron-probed chimpanzees, and the vanishing wetlands are just some of her subjects. Razor-sharp, controversial, scathingly opinionated, and refreshingly unafraid of conflict, Williams refuses to compromise as she lashes out at the greed of Americans and decries our own turpitude. It is not enough to mourn the passing of the natural world, Ill Nature shouts. Get out of our homes and our cars and our cubicles and do something...now.
