Small Buildings, Small Gardens Gordon Hayward, 2007 Gardens are filled with structures: gazebos and pergolas, pools and children's play spaces, sheds, fences and arbors. These pose a unique challenge to planning a landscape that successfully navigates and envelopes these structures. Landscape design expert, Gordon Hayward, presents situations in which garden structures have successfully been incorporated into the overall plan. With clear, straightforward and insightful text this is fully illustrated with photographs and watercolors. It is a thoroughly inspirational and practical resource.

The Humane Gardener Nancy Lawson, 2017-04-18 In this eloquent plea for compassion and respect for all species, journalist and gardener Nancy Lawson describes why and how to welcome wildlife to our backyards. Through engaging anecdotes and inspired advice, profiles of home gardeners throughout the country, and interviews with scientists and horticulturalists, Lawson applies the broader lessons of ecology to our own outdoor spaces. Detailed chapters address planting for wildlife by choosing native species; providing habitats that shelter baby animals, as well as birds, bees, and butterflies; creating safe zones in the garden; cohabiting with creatures often regarded as pests; letting nature be your garden designer; and encouraging natural processes and evolution in the garden. The Humane Gardener fills a unique niche in describing simple principles for both attracting wildlife and peacefully resolving conflicts with all the creatures that share our world.

Winnipeg Modern Serena Keshavjee,2006-09-15 A vivid, stylish, and fascinating look at internationally acclaimed architects and their work.Beginning in the 1940s, John A. Russell, dean of the School of Architecture at the University of Manitoba, nurtured a strong tradition of Modernist design with close connections to architectural giants such as Mies van der Rohe and Walter Gropius. Under Russell's guidance, a generation of young architects, such as James Donahue and David Thordarson, adapted the principles of European Modernism to the prairie geography. Other nationally renowned architects, such as Étienne Gaboury and Gustavo da Roza, also left a lasting Modernist mark on Winnipeg's skyline and private residences.Edited by Serena Keshavjee and designed by architect Herbert Enns, *Winnipeg Modern* captures the grace and beauty of the Modernist period and includes critical and historical essays on the aesthetic and social project of Modernist architecture in Winnipeg. Lavishly illustrated with 300 photographs from provincial archives, the private archives of architect Henry Kalen, and contemporary photographer Martin Tessler, this book is a testament to the Modernist principles of structural expression and purity of form.
