La noblesse à table Paul Janssens,Siger Zeischka,2008 Presenting a rare glimpse into the dining rooms of Belgian nobility from the Middle Ages to modern times, specialists in the field discuss gastronomy and festive culture in a historical and sociological context. This stunning work provides insights into both the culinary proclivities and table manors of these epic gourmards, answering such questions as What was the daily menu of the dukes of Burgundy? What was behind the sudden enthusiasm for saltwater fish in the 17th century? and Why were exotic desserts so popular in the 19th century? A valuable addition to the historical study of Belgian Noblemen and the ruling elite, this bilingual collection--presented in both English and French--creates a wonderfully rich portrait of the past, from the dukes of Burgundy to Belgian royalty.

Learned Ignorance in the Medicine Bow Mountains Craig Clifford,2008 This book is an apologia for the rooted intellectual against the disdainful condescension of the cosmopolitan intellectual¿an apology in the Socratic sense of the word. It reflects the author¿s Texas rootedness unapologetically and offers a polemical but thoughtful indictment of the intellectual prejudice against rootedness; but it is ultimately about the universal human struggle with origins.
