To be safe, Christians must remain invisible. Gallus Sergius Vitas is the only man within Nero's trusted circle willing to do what it takes to keep the empire together. He struggles to lessen Nero's monstrosities against the people of Rome—especially the Christians. But as three Greek letters are scrawled as graffiti throughout the city, Nero's anger grows. As the early church begins to experience the turbulence Christ prophesied as the beginning of the last days, an enemy seeks to find John's letter, Revelation, and destroy it. Meanwhile the early Christians must decipher it and cling to the hope it provides as they face the greatest of all persecutions.

*Trajectories in Environmental Politics* Graeme Hayes, Sikina Jinnah, Prakash Kashwan, David M. Konisky, Sherilyn Macgregor, John M. Meyer, Anthony R. Zito, 2022-03-30 This book explores the dominant framings and paradigms of environmental politics, the relationship between academic analysis and environmental politics, and reflects on the first thirty years of the journal, *Environmental Politics*. The book has two purposes. The first is to identify and discuss the key themes that have driven scholarship in the field of environmental politics over the last three decades, and to highlight how this has also led to oversights and silences, and the marginalisation of important forms of analysis and thought. As several chapters in the book explore, problem-solving frameworks have increasingly taken away space from more radical systemic challenge and critique, as the key themes of environmental politics have become ever more central to the field of politics as a whole - and as our understandings of social and environmental crisis become ever clearer and more urgent. The second purpose of the volume is to map out a series of new and developing agendas for environmental politics. The chapters in this volume focus foremost on questions of justice, materiality, and power. Discussing state violence, multispecies justice, epistemic injustice, the circular economy, NGOs, parties, green transition, and urban climate governance, they call above all for greater attention to intersectionality and interdisciplinarity, and for centering key insights about power relations and socio-economic inequalities into increasingly widespread, yet also often depoliticised, topics in the study of environmental politics. The chapters in this book were originally published as a special issue of *Environmental Politics*.

**American Gypsy** Oksana Marafioti, 2012-07-03 Recounts the author's early experiences as a fifteen-year-old Gypsy emigrating with her family from the Soviet Union to the United States.

Whether kids complete their entire compendium on a rainy day, or finish it over a year, it'll become a treasure to look back on and smile. Ideal for the holidays, rainy days and happy occasions of all kinds, this is an imagination-building gift will engage kids for hours on end

**World of Wonders** Aimee Nezhukumatathil, 2020-09-08 “A poet celebrates the wonders of nature in a collection of essays that could almost serve as a coming-of-age memoir.” —Kirkus Reviews As a child, Nezhukumatathil called many places

home: the grounds of a Kansas mental institution, where her Filipina mother was a doctor; the open skies and tall mountains of Arizona, where she hiked with her Indian father; and the chillier climes of western New York and Ohio. But no matter where she was transplanted—no matter how awkward the fit or forbidding the landscape—she was able to turn to our world’s fierce and funny creatures for guidance. “What the peacock can do,” she tells us, “is remind you of a home you will run away from and run back to all your life.” The axolotl teaches us to smile, even in the face of unkindness; the touch-me-not plant shows us how to shake off unwanted advances; the narwhal demonstrates how to survive in hostile environments. Even in the strange and the unlovely, Nezhukumatathil finds beauty and kinship. For it is this way with wonder: it requires that we are curious enough to look past the distractions in order to fully appreciate the world’s gifts. Warm, lyrical, and gorgeously illustrated by Fumi Nakamura, *World of Wonders* is a book of sustenance and joy. Praise for *World of Wonders* Barnes & Noble 2020 Book of the Year An NPR Best Book of 2020 An Esquire Best Book of 2020 A Publishers Weekly “Big Indie Book of Fall 2020” A BuzzFeed Best Book of Fall 2020 “Hands-down one of the most beautiful books of the year.” —NPR “A timely story about love, identity and belonging.” —New York Times Book Review “A truly wonderful essay collection.” —Roxane Gay, *The Audacity*

**Maelstrom** Peter Watts, 2009-01-06 Second in the Rifters Trilogy, Hugo Award-winning author Peter Watts' *Maelstrom* is a terrifying explosion of cyberpunk noir. This is the way the world ends: A nuclear strike on a deep sea vent. The target was an ancient microbe—voracious enough to drive the whole biosphere to extinction—and a handful of amphibious humans called rifters who'd inadvertently released it from three billion years of solitary confinement. The resulting tsunami killed millions. It's not as though there was a choice: saving the world excuses almost any degree of collateral damage. Unless, of course, you miss the target. Now North America's west coast lies in ruins. Millions of refugees rally around a mythical figure mysteriously risen from the deep sea. A world already wobbling towards collapse barely notices the spread of one more blight along its shores. And buried in the seething fast-forward jungle that use to be called Internet, something vast and inhuman reaches out to a woman with empty white eyes and machinery in her chest. A woman driven by rage, and incubating Armageddon. Her name is Lenie Clarke. She's a rifter. She's not nearly as dead as everyone thinks. And the whole damn world is collateral damage as far as she's concerned. . . . At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Bedtime Bonnet gives readers a heartwarming peek into quintessential Black nighttime hair traditions and celebrates the love between all the members of this close-knit, multi-generational family. The Leopard Is Loose Stephen Harrigan, 2022-01-18 The fragile, 1952 postwar tranquility of a young boy's world explodes one summer day when a leopard escapes from the Oklahoma City zoo, throwing all the local residents into dangerous excitement, in this evocative story of a child's confrontation with his deepest fears For Grady McClarty, an ever-watchful but bewildered five-year-old boy, World War II is only a troubling, ungraspable event that occurred before he was born. But he feels its effects all around him. He and his older brother Danny are fatherless, and their mother, Bethie, is still grieving for her fighter-pilot husband. Most of all, Grady senses it in his two uncles: young combat veterans determined to step into a fatherhood role for their nephews, even as they struggle with the psychological scars they carry from the war. When news breaks that a leopard has escaped from the Oklahoma City Zoo, the playthings and imagined fears of Grady's childhood begin to give way to real-world terrors, most imminently the dangerous jungle cat itself. The Leopard Is Loose is a stunning encapsulation of America in the 1950s, and a moving portrait of a boy's struggle to find his place in the world.
