Along the way, there are multi-leveled reading opportunities in the form of quick features on considerations like mindfulness, campfire safety, mini STEAM design challenges, and more. *Sticks and Stones* was named to the longlist for the 2020 AAAS/Subaru SB&F Prize for Excellence in Science Books in the Hands-On Science Book category. *I Love Jesus, But I Want to Die* Sarah J. Robinson, 2021-05-11 A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.

**And the Trees Clap Their Hands** Virginia Stem Owens, 2005-02-04 Ever since Newton, people - including Christians - have considered matter to be strictly mechanical, uninformed by any spirit and without sentience. Such a view, says Virginia Owens, demotes to mere metaphor all the natural imagery of Scripture that calls for creation to participate in the praise of its maker. Now, however, contemporary physical theory offers us an expanded view of the cosmos, which suggests that it is indeed sentient and informed with knowledge. For Christians, Virginia Owens argues in this book, the cosmos bears witness to the Incarnation itself. Owens offers a brief history and exploration of physics, interwoven with vivid and provocative perceptions of the physical world (reminiscent of the writings of Annie Dillard). The heavens really do proclaim the glory of

God, Owens insists. The prophet's figure of trees clapping their hands is a living reality. And the Trees Clap Their Hands will appeal to all general readers who are interested in the relationship between faith and our understanding of the physical world.
