Organic Gardening for Everyone CaliKim,2019-12-24 If you want to grow healthy vegetables at home, but have hesitated because it seems too hard and time consuming, *Organic Gardening for Everyone* is your perfect hands-on guide—an “if I can do it, you can do it” case study that addresses your concerns and gets you started. Loaded with practical advice and step-by-step guidance, *Organic Gardening for Everyone* takes a very personal and friendly approach to a subject that can be intimidating. It is a first-class primer on organic vegetable gardening, and an inspirational story about how anyone can balance the rigors of gardening with the demands of a modern, family-oriented lifestyle. In 2012, a California mom decided to start an organic vegetable garden. But she went about it in an unusual way: she crowdsourced it by launching a YouTube channel under the name CaliKim and asking for help. And then she started planting. As questions came up, she turned to her viewers and subscribers and they replied with answers and advice. As she learned, her garden grew successfully—even in the hot, harsh California climate. Her expertise also grew, and now she answers many more questions than she asks and has become a very accomplished home gardener. And CaliKim has a great story to tell: growing healthy organic vegetables for your family is not difficult, even for today’s time-challenged lifestyles. She provides complete step-by-step information on growing the most popular edibles organically, and also gives sound advice on how to take on the challenges of balancing a hectic lifestyle with successful growing—and how to involve the whole family in the process. You'll be rewarded for your effort every time you place a plate of natural, organic vegetables on the family dinner table knowing exactly what they are, what is in them, and where they came from.

Repairing the "March of Mars" John Samuel Apperson, 2001 There are many collections of letters and Civil War memoirs available today, but very few offer in-depth information about the medical treatment of wounded soldiers. In *Repairing the March of Mars: The Civil War Diaries of John Samuel Apperson, Hospital Steward in the Stonewall Brigade, 1861-1865*, editor John Herbert Roper provides an important supplement to this largely ignored aspect of the Civil War. Apperson's diary is a sensitive and painstaking observation of the details of medical treatment during and after battle. For all periods of the war, his detailed personal records supplement and correct official army hospital records, and for certain periods, his diary provides the only medical information available. For example, Apperson was present at the amputation of Stonewall Jackson's arm, and his diary shows that Jackson died of postoperative pneumonia, and not of a botched surgery.--BOOK JACKET.
