Spider Legs Piers Anthony, Clifford A. Pickover, 2014-07-01 An ecological disaster spawns an eight-legged sea monster in this collaboration between the science fiction author and acclaimed nonfiction writer. Millions of readers have enjoyed the books of Piers Anthony, including (but certainly not limited to) his undeniably popular Xanth and Blue Adept series. Now, in collaboration with celebrated nonfiction author Clifford A. Pickover, he brings us a disturbing tale of our own world, and the strange creatures with whom we share it. It is said, and truly, that there are more things under heaven and earth than there are almost anywhere else; true as well that many of them lurk, unsuspected, far below the surface of the planet's ocean. For thousands of years, mankind has simultaneously trusted in the sea's proverbial generosity and used it as a dumping ground, trusting that in its vastness his garbage will be swallowed up and forgotten. But that was never really true. And now, in an age when the overcrowded Earth swarms with hungry inhabitants whose waste chokes even the sea, whose greedy demands overtax its seemingly endless bounty, strange things are born in the ocean's depths—strange things that the ocean throws back upon the land.

How Spiders Got Eight Legs, 1998 Hoping to beat the other animals in a race without working too hard, Spider asks Great Hippo for different legs, before ending up with the eight he has today.

Sticks and Stones Melissa Lennig, 2019-05-07 *Sticks and Stones* presents a treasure trove of building and engineering ideas for children to employ in the great outdoors using materials readily available to them to create cabins, tipis, bridges, dams, and more. Many smaller scale projects are included, too, such as making ochre paint with shale, creating a fishing pole from a branch, and carving a marshmallow roasting stick. Opportunities and materials for constructive play exist everywhere in nature. Author Melissa Lennig (of the blog *Fireflies and Mud Pies*) introduces today's screen-overloaded kids to this world of fun waiting just outside the door. Whether camping or hanging out in the back yard, children will marvel at the wonderful, useful tools and playthings they can create with natural objects. *Sticks and Stones* details various designs for the ever-popular fort (cabins, tipis, survival shelters, etc.) and also covers structures such as bridges, fences, and dams, while explaining the STEAM principles behind each. In addition to structures, there are other ideas and projects for camping and the backyard, like a fire ring (explaining the types of fires, airflow, and safety), the always useful tripod, a travois, a rock

garden, and toy boats. Along the way, there are multi-leveled reading opportunities in the form of quick features on considerations like mindfulness, campfire safety, mini STEAM design challenges, and more. *Sticks and Stones* was named to the longlist for the 2020 AAAS/Subaru SB&F Prize for Excellence in Science Books in the Hands-On Science Book category. The prize honors outstanding science writing and illustration for children and young adults. This book is an essential resource for every junior outdoor adventurer.

Hyperbole and a Half Allie Brosh, 2013-10-29 #1 New York Times Bestseller "Funny and smart as hell" (Bill Gates), Allie Brosh's *Hyperbole and a Half* showcases her unique voice, leaping wit, and her ability to capture complex emotions with deceptively simple illustrations. FROM THE PUBLISHER: Every time Allie Brosh posts something new on her hugely popular blog *Hyperbole and a Half* the internet rejoices. This full-color, beautifully illustrated edition features more than fifty percent new content, with ten never-before-seen essays and one wholly revised and expanded piece as well as classics from the website like, "The God of Cake," "Dogs Don't Understand Basic Concepts Like Moving," and her astonishing, "Adventures in Depression," and "Depression Part Two," which have been hailed as some of the most insightful meditations on the disease ever written. Brosh's debut marks the launch of a major new American humorist who will surely make even the biggest scrooge or snob laugh. We dare you not to. FROM THE AUTHOR: This is a book I wrote. Because I wrote it, I had to figure out what to put on the back cover to explain what it is. I tried to write a long, third-person summary that would imply how great the book is and also sound vaguely authoritative—like maybe someone who isn't me wrote it—but I soon discovered that I'm not sneaky enough to pull it off convincingly. So I decided to just make a list of things that are in the book: Pictures Words Stories about things that happened to me Stories about things that happened to other people because of me Eight billion dollars* Stories about dogs The secret to eternal happiness* *These are lies. Perhaps I have underestimated my sneakiness!
