The Things They Carried Tim O'Brien,2009-10-13 A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

Clinical Case Studies for the Family Nurse Practitioner Leslie Neal-Boylan,2011-10-03 *Clinical Case Studies for the Family Nurse Practitioner* is a key resource for advanced practice nurses and graduate students seeking to test their skills in assessing, diagnosing, and managing cases in family and primary care. Composed of more than 70 cases ranging from common to unique, the book compiles years of experience from experts in the field. It is organized chronologically, presenting cases from neonatal to geriatric care in a standard approach built on the SOAP format. This includes differential diagnosis and a series of critical thinking questions ideal for self-assessment or classroom use.

Standards for the English Language Arts National Council of Teachers of English,1996 This book describes standards for the English language arts and defines what K-12 students should know about language and be able to do with language. The book presents the current consensus among literacy teachers and researchers about what students should learn in the English language arts--reading, writing, listening, speaking, viewing, and visually representing. The first chapter of the book (Setting Standards in the English Language Arts) addresses defining the standards and the need for standards. The second chapter (Perspectives Informing the English Language Arts Standards) discusses the content, purpose, development, and context of the standards. The third chapter presents the 12 standards in detail. The fourth chapter (Standards in the Classroom) presents elementary, middle-school, and high-school vignettes which illustrate how the standards might be implemented in the classroom. The book concludes that these standards represent not an end but a beginning--a starting point for discussion and action. A glossary (containing more than 100 terms), a list of participants, a history of the standards project, an overview of standards projects, state and international English language arts standards, a 115-item annotated list of resources for teachers, and a comment form are attached.
