Coffee Jonathan Morris,2018-10-15 Most of us can't make it through morning without our cup (or cups) of joe, and we're not alone. Coffee is a global beverage: it's grown commercially on four continents and consumed enthusiastically on all seven—and there is even an Italian espresso machine on the International Space Station. Coffee's journey has taken it from the forests of Ethiopia to the fincas of Latin America, from Ottoman coffee houses to "Third Wave" cafés, and from the simple coffee pot to the capsule machine. In *Coffee: A Global History*, Jonathan Morris explains both how the world acquired a taste for this humble bean, and why the beverage tastes so differently throughout the world. Sifting through the grounds of coffee history, Morris discusses the diverse cast of caffeinated characters who drank coffee, why and where they did so, as well as how it was prepared and what it tasted like. He identifies the regions and ways in which coffee has been grown, who worked the farms and who owned them, and how the beans were processed, traded, and transported. Morris also explores the businesses behind coffee—the brokers, roasters, and machine manufacturers—and dissects the geopolitics linking producers to consumers. Written in a style as invigorating as that first cup of Java, and featuring fantastic recipes, images, stories, and surprising facts, *Coffee* will fascinate foodies, food historians, baristas, and the many people who regard this ancient brew as a staple of modern life.

Stoner Coffee Table Book Steve Mockus,2011-10-21 This highly entertaining volume features dozens of immersive, trippy, funny, meditative, and mind-bending images ideal for stoned contemplation. Have you ever really looked at a book? The state of being high rewards deep attention, and lots of things can seem really, really interesting. It might be a spot on the ceiling, or an oddly-shaped tortilla chip, or a bit of wood grain. But why settle for staring at the coffee table? What if there was a book on that table specially created to amaze and delight pot smokers and their friends? *Stoner Coffee Table Book* is the ultimate conversation starter. Each page offers a new visual world of wonder that everyone can enjoy—especially those living the high life.

AppleDesign Paul Kunkel,1997 To celebrate Apple's twentieth anniversary, AppleDesign provides a rare inside look at the Industrial Design Group, examining the role this small team of creative individuals has played in the rise of Apple from a Silicon Valley garage to a billion-dollar corporation. It details the formation of the Group, outlines their method for turning great ideas into even greater products, reveals many design concepts and products that never reached the marketplace, and offers a glimpse at the triumph and turmoil than results when creative desire meets (and occasionally collides with) corporate reality. With more than 400 color illustrations and detailed discussion of more than 100 products, design concepts and works-in-progress, AppleDesign provides the most thorough examination of a corporate design group ever published. From the Macintosh to the PowerBook, the Newton MessagePad, the eMate and the just-released Twentieth Anniversary Macintosh, Apple's designers have given us some of the most compelling and enduring products of our time. Their work not only enriches the lives of more than 50 million Apple users worldwide, it influences the computer industry at large, providing strong evidence for those who argue that industrial design is as powerful and relevant an art form as painting, sculpture or architecture.

Industrial Wastewater Treatment Wun Jern Ng,2006-06-08 This book adopts a “show and tell” approach to guiding readers in the area of industrial wastewater treatment and the facilities associated with such treatment. It assumes the reader is familiar with wastewater treatment theory but may be unfamiliar with the reasons why certain unit processes or equipment are included in practice, how these work, and why they fail therein. Industrial wastewaters are extremely varied and this complicates their treatment and discussion. Numerous tables showing industrial wastewater characteristics and photographs of facilities are provided so that the reader can better appreciate industrial wastewater treatment and its “culture” in Asia, and gain a degree of familiarity with the subject unachievable if only text descriptions were used. The book aims to provide a link between theory and practice. It does not only cover typical textbook material but also includes much information that would usually be accessible only to persons who have handled wastewaters and treatment facilities personally. The numerous examples provided have been drawn from the author's own field experience over two decades in Asia.

Kiss the Past Hello Coca-cola Company,2015-03-05 One of the most unmistakable shapes in the world since its

introduction in 1915, the Coca-Cola Contour Bottle is an influential symbol of design, art, and culture. What began as a design brief to create a bottle that could be identified in the dark or lying broken on the ground today is one of the most recognized packages on the planet. Published on the occasion of the bottle's centennial, Kiss the Past Hello is a vibrant collection of images and art celebrating the Coca-Cola Contour Bottle not only as an icon of design but also as a symbol of optimism, happiness, and the shared moments in our lives.

Handcrafted Modern Leslie Williamson,2010-10-12 An intimate and revealing collection of photographs of astonishingly beautiful, iconic, and undiscovered mid-century interiors. Among significant mid-century interiors, none are more celebrated yet underpublished as the homes created by architects and interior designers for themselves. This collection of newly commissioned photographs presents the most compelling homes by influential mid-century designers, such as Russel Wright, George Nakashima, Harry Bertolia, Charles and Ray Eames, and Eva Zeisel, among others. Intimate as well as revelatory, Williamson's photographs show these creative homes as they were lived in by their designers: Walter Gropius's historic Bauhaus home in Massachusetts; Albert Frey's floating modernist aerie on a Palm Springs rock outcropping; Wharton Esherick's completely handmade Pennsylvania house, from the organic handcarved staircase to the iconic furniture. Personal and breathtaking by turn—these homes are exemplary studies of domestic modernism at its warmest and most creative.

Reclaimed Rust James Hetfield,2020-07-28 James Hetfield, Metallica's front man, opens up his garage for an exclusive tour of the highlights of his incredible collection of restored and customized classic cars. Millions know James Hetfield as the front man of Metallica, but the acclaimed singer-songwriter has enjoyed another lifelong passion: restoring and customizing classic cars into magnificent pieces of automotive art. From cars such as the Skyscraper to the Aquarius and the Black Pearl, James Hetfield's collection of beautifully reimagined classic automobiles is truly stunning. For the first time, Hetfield is opening up his garage and inviting readers to dive under the hood of some of these internationally lauded classics. Featuring dynamic, specially commissioned photography of the cars and insight from Hetfield into their creation, this book is a unique opportunity to learn about the Metallica front man's passion for creating bespoke classic cars. James Hetfield's unique cars will be on display at the Petersen Automotive Museum in Los Angeles starting from February 2020.
