In this follow-up to *Gertie's New Book for Better Sewing*, Gretchen Gertie Hirsch celebrates the classic casual styles that icons like Katharine Hepburn, Audrey Hepburn, and Rosie the Riveter made famous--think wide-legged trousers, fitted capri pants, beach rompers, shorts, knit tops, jeans, and day dresses. The Age of Comfort Joan DeJean, 2009-07-01 Today, it is difficult to imagine a living room without a sofa. When the first sofas on record were delivered in seventeenth-century France, the result was a radical reinvention of interior space.

Symptomatic of a new age of casualness and comfort, the sofa ushered in an era known as the golden age of conversation; as the first piece of furniture designed for two, it was also considered an invitation to seduction. With the sofa came many other changes in interior space we now take for granted: private bedrooms, bathrooms, and the original living rooms. None of this could have happened without a colorful cast of visionaries-legendary architects, the first interior designers, and the women who shaped the tastes of two successive kings of France: Louis XIV's mistress Madame de Maintenon and Louis XV's mistress Madame de Pompadour. Their revolutionary ideas would have a direct influence on realms outside the home, from clothing to literature and gender relations, changing the way people lived and related to one another for the foreseeable future.

The Art of Gathering Priya Parker,2020-04-14 Hosts of all kinds, this is a must-read! --Chris Anderson, owner and curator of TED From the host of the New York Times podcast Together Apart, an exciting new approach to how we gather that will transform the ways we spend our time together—at home, at work, in our communities, and beyond. In *The Art of Gathering*, Priya Parker argues that the gatherings in our lives are lackluster and unproductive--which they don't have to be. We rely too much on routine and the conventions of gatherings when we should focus on distinctiveness and the people involved. At a time when coming together is more important than ever, Parker sets forth a human-centered approach to gathering that will help everyone create meaningful, memorable experiences, large and small, for work and for play. Drawing

on her expertise as a facilitator of high-powered gatherings around the world, Parker takes us inside events of all kinds to show what works, what doesn't, and why. She investigates a wide array of gatherings--conferences, meetings, a courtroom, a flash-mob party, an Arab-Israeli summer camp--and explains how simple, specific changes can invigorate any group experience. The result is a book that's both journey and guide, full of exciting ideas with real-world applications. The Art of Gathering will forever alter the way you look at your next meeting, industry conference, dinner party, and backyard barbecue--and how you host and attend them.

California Design, 1930&1965 Living In a Modern Way Wendy Kaplan,2011 The first comprehensive examination of California's mid-century modern design, generously illustrated. In 1951, designer Greta Magnusson Grossman observed that California design was not a superimposed style, but an answer to present conditions.... It has developed out of our own preferences for living in a modern way. California design influenced the material culture of the entire country, in everything from architecture to fashion. This generously illustrated book, which accompanies a major exhibition at the Los Angeles County Museum of Art, is the first comprehensive examination of California's mid-century modern design. It begins by tracing the origins of a distinctively California modernism in the 1930s by such European émigrés as Richard Neutra, Rudolph Schindler, and Kem Weber; it finds other specific design influences and innovations in solid-color commercial ceramics, inspirations from Mexico and Asia, new schools for design training, new concepts about leisure, and the conversion of wartime technologies to peacetime use (exemplified by Charles and Ray Eames's plywood and fiberglass furniture). The heart of California Design is the modern California home, famously characterized by open plans conducive to outdoor living. The layouts of modernist homes by Pierre Koenig, Craig Ellwood, and Raphael Soriano, for example, were intended to blur the distinction between indoors and out. Homes were furnished with products from Heath Ceramics, Van Keppel-Green, and Architectural Pottery as well as other, previously unheralded companies and designers. Many objects were designed to be multifunctional: pool and patio furniture that was equally suitable indoors, lighting that was both task and ambient, bookshelves that served as room dividers, and bathing suits that would turn into ensembles appropriate for indoor entertainment. California Design includes 350 images, most in color, of furniture, ceramics, metalwork, architecture, graphic and industrial design, film, textiles, and fashion, and ten incisive essays that trace the rise of the California design aesthetic. of wartime technologies to peacetime use (exemplified by Charles and Ray Eames's plywood and fiberglass furniture).
