Dark Mirror M. J. Putney,2011-03-01 Lady Victoria Mansfield, youngest daughter of the earl and countess of Fairmount, is destined for a charmed life. Soon she will be presented during the London season, where she can choose a mate worthy of her status. Yet Tory has a shameful secret—a secret so powerful that, if exposed, it could strip her of her position and disgrace her family forever. Tory's blood is tainted . . . by magic. When a shocking accident forces Tory to demonstrate her despised skill, the secret she's fought so hard to hide is revealed for all to see. She is immediately exiled to Lackland Abbey, a reform school for young men and women in her position. There she will learn to suppress her deplorable talents and maybe, if she's one of the lucky ones, be able to return to society. But Tory's life is about to change forever. All that she's ever known or considered important will be challenged. What lies ahead is only the beginning of a strange and wonderful journey into a world where destiny and magic come together, where true love and friendship find her, and where courage and strength of character are the only things that determine a young girl's worth. *Dark Mirror* is M.J. Putney's first young adult novel, and it's enthralling—an historical fantasy that's both fast-paced and deeply moving.

The Mirror of Antiquity Caroline Winterer,2018-07-05 In *The Mirror of Antiquity*, Caroline Winterer uncovers the lost world of American women's classicism during its glory days from the eighteenth through the nineteenth centuries. Overturning the widely held belief that classical learning and political ideals were relevant only to men, she follows the lives of four generations of American women through their diaries, letters, books, needlework, and drawings, demonstrating how classicism was at the center of their experience as mothers, daughters, and wives. Importantly, she pays equal attention to women from the North and from the South, and to the ways that classicism shaped the lives of black women in slavery and freedom. In a strikingly innovative use of both texts and material culture, Winterer exposes the neoclassical world of furnishings, art, and fashion created in part through networks dominated by elite women. Many of these women were at the

center of the national experience. Here readers will find Abigail Adams, teaching her children Latin and signing her letters as Portia, the wife of the Roman senator Brutus; the Massachusetts slave Phillis Wheatley, writing poems in imitation of her favorite books, Alexander Pope's Iliad and Odyssey; Dolley Madison, giving advice on Greek taste and style to the U.S. Capitol's architect, Benjamin Latrobe; and the abolitionist and feminist Lydia Maria Child, who showed Americans that modern slavery had its roots in the slave societies of Greece and Rome. Thoroughly embedded in the major ideas and events of the time—the American Revolution, slavery and abolitionism, the rise of a consumer society—this original book is a major contribution to American cultural and intellectual history.

The Music and the Mirror LOLA. KEELEY,2018-04-04 Anna is the member of an elite ballet company. She must face down jealousy, sabotage and injury, not to mention navigate the circus of friends and lovers within the company. Anna discovers that she and the daring, beautiful Victoria have a lot more than a talent for ballet in common, and that not every thrilling dance can be found on stage.

Course of Mirrors Ashen Venema,2017-04-28 “I was bridge, river, riverbed and water falling from the cliff, the aria of water. I was air, breeze and water dust rising. I was mirror to mirrors yet looked from beyond mirrors. Behind my eyes a truth flashed.” Set in a mythical time on earth, Course of Mirrors follows the story of a rebellious young woman, Ana, in search of her destiny. Ana spends years of her life in isolation and caught in a rift between the disparate realms of her parents. Her spirit is affirmed by Cara, her soul-sister living in the twentieth century, who beckons her across time. They have a task together, for which Ana must travel west. The night before her covert departure, Ana is given a confidential letter that burdens her adventure with secrecy. Ana travels between her parents’ realms in disguise, crossing dangerous bridges and battling dark fears. She evades the ominous plans of a maverick preacher and shortly after meets her first love, Luke. He and the preacher are twins, though both are ignorant of this. As the two brothers fight to win Ana and betrayals begin to unravel, Ana attempts to bridge the gap between love and power. Course of Mirrors is a gripping and enchanting story of a young woman’s odyssey. Its overriding theme of a quest for belonging has a universal recognisability and appeal, and will be continued in Ashen’s sequel, Shapers, in which Ana’s journey continues into future worlds. Inspired by 1001 Nights, and writers like Ursula Le Guin, Ashen Venema’s debut novel will appeal to fans of fantasy novels and those who enjoy coming-of-age mysteries.

Smoke and Mirrors David Nielsen,2024-08-01 The Yenidze Cigarette Factory of 1909 became perceived as an industrial architectural advertising object that placed Dresden as an important center for the tobacco trade during the second half of the nineteenth century. Born from a unique client-architect relationship between Hugo Zietz and Martin Hammitzch, the factory’s importance to the modernist has been extremely understated. Smoke and Mirrors uncovers the history of the factory’s planning, design and construction, and for the first time, apart from the building’s historical narrative, places the

addition to the Dresden skyline as consideration to the formative histories of the modernist movement.

The Mirror Season Anna-Marie McLemore,2021-03-16 An unforgettable story of trauma and healing, told in achingly beautiful prose with great tenderness and care. —#1 New York Times-bestselling author Karen M. McManus When two teens discover that they were both sexually assaulted at the same party, they develop a cautious friendship through her family's possibly-magical pastelería, his secret forest of otherworldly trees, and the swallows returning to their hometown, in Anna-Marie McLemore's The Mirror Season. Graciela Cristales' whole world changes after she and a boy she barely knows are assaulted at the same party. She loses her gift for making enchanted pan dulce. Neighborhood trees vanish overnight, while mirrored glass appears, bringing reckless magic with it. And Ciela is haunted by what happened to her, and what happened to the boy whose name she never learned. But when the boy, Lock, shows up at Ciela's school, he has no memory of that night, and no clue that a single piece of mirrored glass is taking his life apart. Ciela decides to help him, which means hiding the truth about that night. Because Ciela knows who assaulted her, and him. And she knows that her survival, and his, depend on no one finding out what really happened.

Soonish Kelly Weinersmith,Zach Weinersmith,2017-10-17 The instant New York Times bestseller! A Wall Street Journal Best Science Book of the Year! A Popular Science Best Science Book of the Year! From a top scientist and the creator of the hugely popular web comic Saturday Morning Breakfast Cereal, a hilariously illustrated investigation into future technologies -- from how to fling a ship into deep space on the cheap to 3D organ printing What will the world of tomorrow be like? How does progress happen? And why do we not have a lunar colony already? What is the hold-up? In this smart and funny book, celebrated cartoonist Zach Weinersmith and noted researcher Dr. Kelly Weinersmith give us a snapshot of what's coming next -- from robot swarms to nuclear fusion powered-toasters. By weaving their own research, interviews with the scientists who are making these advances happen, and Zach's trademark comics, the Weinersmiths investigate why these technologies are needed, how they would work, and what is standing in their way. New technologies are almost never the work of isolated geniuses with a neat idea. A given future technology may need any number of intermediate technologies to develop first, and many of these critical advances may appear to be irrelevant when they are first discovered. The journey to progress is full of strange detours and blind alleys that tell us so much about the human mind and the march of civilization. To this end, Soonish investigates ten different emerging fields, from programmable matter to augmented reality, from space elevators to robotic construction, to show us the amazing world we will have, you know, soonish. Soonish is the perfect gift for science lovers for the holidays!

Traveling with Sugar Amy Moran-Thomas,2019-11-26 Traveling with Sugar reframes the rising diabetes epidemic as part of a five-hundred-year-old global history of sweetness and power. Amid eerie injuries, changing bodies, amputated limbs, and untimely deaths, many people across the Caribbean and Central America simply call the affliction “sugar”—or, as some say in Belize, “traveling with sugar.” A decade in the making, this book unfolds as a series of crónicas—a word meaning both slow-

moving story and slow-moving disease. It profiles the careful work of those “still fighting it” as they grapple with unequal material infrastructures and unsettling dilemmas. Facing a new incarnation of blood sugar, these individuals speak back to science and policy misrecognitions that have prematurely cast their lost limbs and deaths as normal. Their families’ arts of maintenance and repair illuminate ongoing struggles to survive and remake larger systems of food, land, technology, and medicine.

Mirrors Eduardo Galeano, 2011-08-04 In *Mirrors*, Galeano smashes aside the narrative of conventional history and arranges the shards into a new pattern, to reveal the past in radically altered form. From the Garden of Eden to twenty-first-century cityscapes, we glimpse fragments in the lives of those who have been overlooked by traditional histories: the artists, the servants, the gods and the visionaries, the black slaves who built the White House, and the women who were bartered for dynastic ends
