Rube Foster in His Time Larry Lester, 2012-09-14 Although Andrew Rube Foster (1879-1930) stands among the best African American pitchers of the 1900s, this baseball pioneer made his name as the founder and president of the Negro National League, the first all-black league to survive a full season. In addition to founding this groundbreaking black-owned and -operated business, Foster also founded and managed the Chicago American Giants, one of the most successful black baseball teams of the pre-integration era. This definitive biography combines period editorials and correspondence with insightful narrative to provide a comprehensive portrait of this innovative Hall of Famer. From the unstructured early days of black baseball, when Foster gained glory as a hard-throwing pitcher, through his struggles to establish the NNL and the

Giants, to his tragic death from complications of syphilis, this work pays overdue tribute to an authentic American baseball icon.

Wind and Wildlife Cindy Hull,Emma Bennett,Elizabeth Stark,Ian Smales,Jenny Lau,Mark Venosta,2014-11-16 This book gathers papers presented and discussions held at the Conference on Wind Energy and Wildlife Impacts in Melbourne, Australia on 9th October 2012. The purpose of the conference was to bring together researchers, industry, consultants, regulators and Non-Government Organizations to share the results of studies into wind farm and wildlife investigations in Australia and New Zealand. The aim was to further networking and communication between these groups. The conference discussed key issues and areas for future investigation, with the intention of developing consistencies in research and management. Like the Conference, the book showcases current research and management in the field of wind farms and wildlife in Australia and New Zealand; establishes consistencies in research and management; and highlights areas in need of further examination. The papers in these Proceedings are presented in two session topics. The first covers "Investigations and assessment of new wind farms" and the second, "Monitoring, mitigation and offsets." The Proceedings then summarize the panel discussions held at the end of the conference. The themes include improving pre- and post-construction survey design; identifying key knowledge gaps and research priorities; uncertainties and errors in data sets and analysis; creating opportunities to share knowledge; and assessing cumulative impacts across multiple sites.

Ecology, Evolution and Behaviour of Wild Cattle Mario Melletti,James Burton,2014-10-30 A beautifully illustrated reference work on the biology, ecology, conservation status and management of all thirteen species of wild cattle and buffalo.
